Traces the horror of obstetric fistula a condition that has been largely forgotten in the developed world and lays out a plan
for its eradication Millions of women suffer from obstetric fistula a catastrophic childbirth complication that exists today

revolves around futile attempts to control her condition and the stigma associated with it Abandoned by their loved ones
ostracized from their communities and cut off from modern surgical care which can repair fistulas and return patients to full
health these women suffer wretchedly Based on over 20 years of personal experience with fistula patients in multiple African
