Report Commonwealth Shipping Committee,1912 **Explorations in Temperament** Jan Strelau,Alois Angleitner,2013-11-11 The growing interest in research on temperament during the last decade has been recorded by several authors e g R Plomin J E Bates from such sources of information as the Social Sciences Citation Index or Psychological Abstracts The editors inquiry shows that the number of cases in which the term temperament was used in the title of a paper or in the paper s abstract published in Psychological Abstracts reveals an essential increase in research on temperament During the years 1975 to 1979 the term temperament was used in the title and or summary of 173 abstracts i e 34 6 publications per year during the next five years 1980 1984 it was used in 367 abstracts 73 4 publications per year whereas in the last five years 1985 to 1989 the term has appeared in 463 abstracts that is in 92 6 publications per year Even if the review of temperament literature is restricted to those abstracts it can easily be concluded that temperament is used in different contexts and with different meanings hardly allowing any comparisons or general statements One of the consequences of this state of affairs is that our knowledge on temperament does not cumulate despite the increasing research activity in this field This situation in temperament research motivated the editors to organize a one week workshop on The Diagnosis of Temperament Bielefeld Federal Republic of Germany September 1987 *The SAGE Encyclopedia of Lifespan Human Development* Dr Marc Bornstein,Marc H. Bornstein,Michael E. Lamb,2015-07-24 *Developmental Science* An Advanced Textbook is the most complete and cutting edge introduction to the field available today Since its initial publication the key purpose of the text has been to furnish inclusive developmental perspectives on all substantive areas in psychology neuroscience perception cognition language emotion and social interaction This edition is no exception as it continues to underscore the dynamic and exciting status of contemporary developmental science In this Seventh Edition Marc H Bornstein and Michael E Lamb once again invite international experts to prepare original

comprehensive and topical treatments of the major areas of developmental science which are masterfully woven into a single coherent volume Some chapters in this edition are new and those carried forward from the sixth edition have been extensively revised This volume represents faithfully the current status of scholarly efforts in all aspects of developmental science Ideal for advanced undergraduate and introductory graduate courses the text is accompanied by a website with supplementary material for students and instructors including chapter outlines topics to think about before reading glossaries and suggested readings
