Fitzpatrick's Rafinesque Thomas Jefferson Fitzpatrick, Charles Boewe, 1982 **Fitzpatrick's Rafinesque** T. J. Fitzpatrick, Charles E. Boewe, 1982 *FITZPATRICKS RAFINESQUE: A SKETCH OF HIS LIFE WITH BIBLIOGRAPHY REVISED AND ENLARGED BY CHARLES BOEWE* THOMAS JEFFERSON FITZPATRICK, 1982 Constantine Samuel Rafinesque Leonard Warren, 2021-12-14 Constantine Samuel Rafinesque was a quintessential nineteenth century American scientist and naturalist Exalted by some cursed by others Rafinesque gave Latin names to over 6 700 plant species was acknowledged by Darwin for his early insights into biological variation and is frequently mentioned in the great natural history archives Yet he has been almost forgotten in our own day During his long career which included some five years as an innovative professor at Transylvania University in Kentucky Rafinesque s colorful and sometimes difficult personality led to troubles with his colleagues In Constantine Samuel Rafinesque the first full length biography of this brilliant original and misunderstood naturalist Leonard Warren presents a fair and surprising look at Rafinesque s life and contributions to the world of science *A C.S. Rafinesque Anthology* C.S. Rafinesque, 2005-06-29 Among American naturalists C S Rafinesque 1783 1840 is second only to Audubon in the popular interest he sustains This interest is due in part to his colorful life and provocative personality but he is also remembered for devising Latin scientific names for more plants than any other naturalist who ever lived and a great number in the animal kingdom as well This passion for nomenclature has kept his name memorable some would say notorious among naturalists Yet his taxonomic writings made up only a part of his extensive oeuvre Rafinesque s restless mind ranged over areas of inquiry from archaeology to zoology His published writings in these fields have been difficult to lay hands on and have never been collected Among such essays now gathered into this volume two were unavailable until 1949 six were listed only in 1982 and four remained unknown until 2001 The recovery and reprinting of these 12 contributions help to broaden the understanding of his achievements over a lifetime Arranged in nine sections 25 topics are offered here several of which are explored in more than one essay including the Origin of Native Americans Hebrew Studies Utopian Society Lightning The Milky Way Sea Serpents and Evolution Editorial introductions are provided for each topic and period illustrations some included in the original Rafinesque publications enhance the text

Harvard Guide to American History Frank Freidel, Frank Burt Freidel, Richard K. Showman, 1974 Editions for 1954 and 1967 by O Handlin and others **The Cleveland Herbal, Botanical, and Horticultural Collections** Holden Arboretum, Cleveland Medical Library Association, Garden Center of Greater Cleveland, 1992 More than 970 rare books dating from 1479 to 1830 and covering such categories as gardening herbals botanical books and landscape architecture are catalogued in this bibliography **News Notes of California Libraries** California State Library, 1912 Vols for 1971 include annual reports and statistical summaries **Cambridge Public Library Bulletin** Cambridge Public Library (Cambridge, Mass.), 1911 *Cambridge Public Library Bulletin* , 1911 **The Language of Flowers** Beverly Seaton, 2012-10-10 The

author traces the phenomenon of ascribing sentimental meaning to floral imagery from its beginnings in Napoleonic France through its later transformations in England and America At the heart of the book is a depiction of what the three most important flower books from each of the countries divulge about the period and the respective cultures Seaton shows that the language of flowers was not a single and universally understood correlation of flowers to meanings that men and women used to communicate in matters of love and romance The language differs from book to book country to country To place the language of flowers in social and literary perspective the author examines the nineteenth century uses of flowers in everyday life and in ceremonies and rituals and provides a brief history of floral symbolism She also discusses the sentimental flower book a genre especially intended for female readers Two especially valuable features of the book are its table of correlations of flowers and their meanings from different sourcebooks and its complete bibliography of language of flower titles This book will appeal not only to scholars in Victorian studies and women s studies but also to art historians book collectors museum curators historians of horticulture and anyone interested in nineteenth century popular culture
