Five Bodies The Human Shape Of Modern Society:

Five Bodies John O'Neill, 1985 Renowned social critic John O'Neill takes the human body as the focal point of his inquiry into the complex relation of individuals nature and social institutions The body once served as the foundation for thinking about politics society and the world O'Neill asserts but this human proportion has been lost in the modern world Carefully delineating the course and the consequences of this loss in many realms of modern life O'Neill demonstrates that we are dominated by concepts of life family thought health and sanity that barely allow us to maintain a sense of our individuality and humanity O'Neill proposes a renewed and radical anthropomorphism one that will restore the overwhelming modern world to comprehensible dimensions ISBN 0 8014 1727 9 17 50 *Five Bodies* John O'Neill, 1987-01 Argues that we have lost a human perspective on medicine politics economy and the social sciences and suggests a new approach to making our understanding of the world more humane and less abstract Readings for a History of Anthropological Theory Paul A. Erickson, Liam Donat Murphy, 2013-01-01 This comprehensive anthology offers over 40 readings that are critical to the understanding of anthropological theory and the development of anthropology as an academic discipline The fourth edition maintains a strong focus on the four field roots of the discipline in North America but has been reorganized with a new section on twenty first century theory including coverage of postcolonial and public anthropology New key terms and introductions accompany each reading and a revamped glossary makes the book more student friendly Used on its own or together with the overview text *A History of Anthropological Theory* Fourth Edition this anthology offers a flexible and unrivaled introduction to anthropological theory that reflects not only the history but also the changing nature of the discipline today For additional resources visit the Teaching Theory page at www.utpteachingculture.com Deviance and Social Control Michelle Inderbitzin, Kristin A. The Poverty of Postmodernism John O'Neill, 2002-11-01 The Poverty of Postmodernism rejects the current celebration of knowledge and value relativism This is on the grounds that it renders critical reason and commonsense incapable of resisting the superficial ideologies of minoritarianism that leave the hard core of global capitalism unanalyzed In this book John O'Neill examines the postmodern turn in the social sciences From a phenomenological standpoint Husserl Merleau Ponty Schutz Winch he challenges Lyotard's post-rationalist reading of Wittgenstein and Habermas in order to defend commonsense reason and values that are constitutive of the everyday life world In addition he argues from the standpoint of Vico and Marx on the civil history of embodied mind that the post-rationalist celebration of the arts of superficiality undermines the recognition of the cultural debt each generation owes to past and post generations In a positive way O'Neill develops an account of the historical vocation of reason and of the charitable accountability of science to commonsense that is necessary to sustain the basic institutions of civic democracy

Regulating Intimacy Jean-Louis Cohen, 2009-01-10 The regulation of intimate relationships has been a key battleground in the culture wars of the past three decades In this bold and innovative book Jean Cohen presents a new approach to regulating intimacy that promises to defuse the tensions that have long sparked conflict among legislators jurists activists and scholars Disputes have typically arisen

over questions that apparently set the demands of personal autonomy justice and responsibility against each other Can law stay out of the bedroom without shielding oppression and abuse Can we protect the pursuit of personal happiness while requiring people to behave responsibly toward others Can regulation acknowledge a variety of intimate relationships without privileging any Must regulating intimacy involve a clash between privacy and equality Cohen argues that these questions have been impossible to resolve because most legislators activists and scholars have drawn on an anachronistic conception of privacy one founded on the idea that privacy involves secrecy and entails a sphere free from legal regulation In response Cohen draws on Habermas and other European thinkers to present a robust constructivist defense of privacy one based on the idea that norms and rights are legally constructed Cohen roots her arguments in debates over three particularly contentious issues reproductive rights sexual orientation and sexual harassment She shows how a new legal framework reflexive law allows us to build on constructivist insights to approach these debates free from the liberal and welfarist paradigms that usually structure our legal thought This new legal paradigm finally allows us to dissolve the tensions among autonomy equality and community that have beset us A synthesis of feminist theory political theory constitutional jurisprudence and cutting edge research in the sociology of law this powerful work will reshape not only legal and political debates but how we think about the intimate relationships at the core of our own lives

The Body as Material Culture

Joanna R. Sofaer, 2006-02-16 Bodies intrigue us They promise windows into the past that other archaeological finds cannot by bringing us literally face to face with history Yet the body is also highly contested Archaeological bodies are studied through two contrasting perspectives that sit on different sides of a disciplinary divide On one hand lie science based osteoarchaeological approaches On the other lie understandings derived from recent developments in social theory that increasingly view the body as a social construction Through a close examination of disciplinary practice Joanna Sofaer highlights the tensions and possibilities offered by one particular kind of archaeological body the human skeleton with particular regard to the study of gender and age Using a range of examples she argues for reassessment of the role of the skeletal body in archaeological practice and develops a theoretical framework for bioarchaeology based on the materiality and historicity of human remains

A Transformatory Ethic of Inclusion Jayne Clapton, 2009-01-01 Inclusion is a topical notion which underpins contemporary human service practices and policies within Western Judeo Christian societies Inclusion is most often considered within socio historical and socio political contexts whereby technical and legislative responses are sought However this book explores the question How ethically defensible is the notion of inclusion in relation to people with intellectual disability The book contends that inclusion is a multifaceted complex concept in a dualistic and dichotomous relationship with exclusion It is argued that historical and contemporary conceptualisations of exclusion for people with intellectual disability have been constructed from various philosophical and theological matrices imbued with particular values about personhood Furthermore it is proposed that the ethical significance of inclusion and exclusion in the

context of intellectual disability is defined and perpetuated by expressions of a particular socio symbolic order underpinned by patriarchy and kyriarchy and subjected to two controlling ethics an Ethic of Normalcy and an Ethic of Anomaly Inclusion and exclusion are conceived as phenomena relating to how membership is defined legitimated or repelled by concealed occluding boundaries acting within a patriarchal socio ethical fabric The book argues that Ethical Inclusion is only possible through the rupture of these boundaries by a conceptual tool A Transformatory Ethic of Inclusion This conceptual instrument of rupture embraces the scholarship of feminist ethics and feminist theology Such a rupture requires examining the ways traditional ethical frameworks themselves have conceptually diminished and devalued the authenticity of people with intellectual disability A concept of integrality becomes imaginable Conceptual analysis is framed using a crafting metaphor of a patchwork quilt which is infused with narrative and by which such an ethical exploration is undertaken and impaired traditional ethical theorising is confronted and transformed Public and Private in Thought and Practice Jeff

Weintraub, Krishan Kumar, 1997-03-15 These essays by widely respected scholars in fields ranging from social and political theory to historical sociology and cultural studies illuminate the significance of the public private distinction for an increasingly wide range of debates Commenting on controversies surrounding such issues as abortion rights identity politics and the requirements of democratization many of these essays clarify crucial processes that have shaped the culture and institutions of modern societies In contexts ranging from friendship the family and personal life to nationalism democratic citizenship the role of women in social and political life and the contrasts between western and post Communist societies this book brings out the ways the various uses of the public private distinction are simultaneously distinct and interconnected Public and Private in Thought and Practice will be of interest to students and scholars in disciplines including politics law philosophy history sociology and women s studies Contributors include Jeff Weintraub Allan Silver Craig Calhoun Daniela Gobetti Jean L Cohen Jean Bethke Elshtain Alan Wolfe Krishan Kumar David Brain Karen Hansen Marc Garcelon and Oleg Kharkhordin The Art of Medical Anthropology Sjaak van der Geest, Adri Rienks, 1998 **Sociologies of Food and**
