*Five Essays on Klee* [by M. Armitage, C. Greenberg, H. Devree, N.W. Ross ... Schmidt, 2012-11-14 A groundbreaking examination of word and image through the lenses of modern art

and Continental philosophy Probing and lucid Stephen H Watson University of Notre Dame Engagement with the image has played a decisive role in the formulation of the very idea of philosophy since Plato Identifying pivotal moments in the history of philosophy Dennis J Schmidt develops the question of philosophy's regard of the image by considering painting where the image most clearly calls attention to itself as an image Focusing on the philosophies of Martin Heidegger and Hans Georg Gadamer and the art of Paul Klee Schmidt pursues larger issues in the relationship between word image and truth As he investigates alternative ways of thinking about truth through word and image Schmidt shows how the form of art can indeed possess the capacity to change its viewers *Approximation Theory* Ole Christensen, Khadija Laghrida

Painting, 1957 *Fannie Hillsmith* James Thompson, 1996 Fannie Hillsmith was personally picked out by Josef Albers to replace him as a 1945 summer teacher at Black Mountain College where she taught alongside Lyonel Feininger and Ossip Zadkine and was succeeded by Robert Motherwell Inspired principally by Klee and Cubism she exhibited frequently and successfully with the American Abstract Artists as one of its most notable female members **German Expressionist**

**Painting** Peter Selz, 2023-04-28 Published in 1957 German Expressionist Painting was the first comprehensive study of one of the most pivotal movements in the art of this century When it was written however German Expressionism seemed like an eccentric manifestation far removed from what was then considered the mainstream of modern art But as historians well know each generation alters the concept of mainstream to encompass those aspects of the past which seem most relevant to the present The impact of German Expressionism on the art and thought of later generations could never have been anticipated at the time of the original writing of this book During the subsequent years an enormous body of scholarly research and an even larger number of popular books on German expressionist art has been printed Numerous monographs

and detailed studies on most of the artists exist now and countless exhibitions with accompanying catalogues have taken place. Much of this new research could have been incorporated in a revised edition and the bibliography certainly could have been greatly expanded to include the important writings which have been published in Germany, the United States and elsewhere since this book was originally issued. The author however was faced with the choice of reprinting the original text with only the most necessary alterations such as updating the captions to indicate present locations of the paintings or the preparation of a revised text and bibliography. Desirable as a revision appeared, present printing costs would have priced the paperback out of reach for students. It is for this reason that I decided to reissue the original text which stands on its own as a primary investigation of German Expressionist Painting.

**Time, Narrative & the Fixed Image / Temps, narration & image fixe**, 2021-10-18. This volume focuses on the relationship between time, narrative and the fixed image. As such it highlights renewed interest in the temporality of the fixed image, probably one of the most important trends in the formal and semiotic analysis of visual media in the past decade. The various essays discuss paintings, the illustrated covers of books, comics or graphic novels, photo stories, postcards, television and video art as well as aesthetic practices that defy categorization such as Chris Marker's masterpiece *La Jetée*. The range of works and practices examined is reflected in the different theoretical approaches and methods used, with an emphasis on semiology and narratology and to a lesser extent aesthetics and psychoanalysis. The interest of this book however does not stem exclusively from the range and scope of the artefacts examined or the methodological issues that are addressed; its fundamental importance rests in the contributors' readiness to question the differentiation between fixed and moving images, which all too often provides a convenient if not altogether convincing starting point for image analysis. The originality and value of the contribution that *Time, Narrative and the Fixed Image / Temps, Narration et image fixe* makes to the body of theoretical writing on visual media lies in this challenging and comprehensive approach.
