Schaefer, 2013-10-08 Through a study of the church of Santa Prassede Mary M Schaefer offers a compelling examination of the golden ages for women active in ecclesial ministries critically measuring feminist claims and providing evidence contrary to the official Roman position that women have never been ordained in the Catholic Church The ninth century church of Santa Prassede has been studied intensively in recent years yet no scholar has yet recognized the significance of the balanced male and female imagery both men and women disciples Peter and Paul as family friends Praxedes and her sister as house church leaders in the post apostolic period assisted by bishop Pius I and Pope Paschal s mother Theodora episcopa for example Praxedes identification as presbyteras by a Roman priest historian in 1655 and by the Benedictine prior of the church in 1725 prompts analysis of women s ordination rites in churches of East and West Santa Prassede preserves one of the largest intact programs of church decoration in Rome up to 1200 Schaefer investigates its scriptural and liturgical sources and in turn reexamines its foundation myth With the story of the church Schaefer provides a detailed study of women in pastoral office especially diaconas presbyteras and episcopal abbesses from the first through twelfth centuries in the West Women in Pastoral Office also shows how the liturgy as well as the vita of Praxedes and her sister Pudentiana whose fourth century church is located down the hill shaped this outstanding commission of the builder

Pope Paschal I 817 824      **A Calendar of the Letters of Willa Cather** Willa Cather, 2002-01-01 An infamous clause in Willa Cather's will forbidding publication of her letters and other papers has long caused consternation among Cather scholars. For Cather, a complex and private person who seldom made revelatory public pronouncements, personal letters provide or would provide an especially valuable key to understanding. But because of the terms of her will, that key is not readily available. Cather's letters will not come into public domain until the year 2017. Until then, even quotation, let alone publication in full, is prohibited. Janis P. Stout has gathered over eighteen hundred of Cather's letters, all the letters currently known to be available, and provides a brief summary of each, as well as a biographical directory identifying correspondents and a multisection index of the widely scattered letters organized by location, by correspondent, and by names and titles mentioned. This book will be an essential resource for Cather scholars.      *Statius: Silvae Book II* Statius, 2011-02-17 With the exception of a poem on the unscripted death of a lion in the Colosseum, Book II of Statius' *Silvae* is largely domestic in theme. It reflects the more private side of Roman culture: its pleasures, houses, gardens, friendships, and personal losses. It concludes with a provocative tribute to the poet Lucan. Despite its variety, the book is carefully constructed as a unit, and this edition, which is suitable for use with advanced students, puts the book into its context in the history of Greek and Roman poetry. The commentary takes into account the important work done on the text of the *Silvae* in the past two decades, as well as the new perspectives brought to bear on Flavian culture by historians and archaeologists. It explores Statius' use of the short poem as a playful engagement with literary tradition that also reflects changing ideas of Roman cultural identity.      P. Papini Stati Silvarum liber secundus Publius Papinius Statius, 2011 With the exception of a poem on the unscripted death of a lion in the Colosseum, Book II of Statius' *Silvae* is largely domestic in theme. Jacobs, 2015-12-16 Over the past forty years, state, provincial, and local governments in the United States and Canada have provided foreign automakers with approximately 4.80 billion in incentives in order to lure light-vehicle assembly plants to their areas. This has included tax abatements, infrastructure construction, land giveaways, job training programs, and other subsidies. As of early 2015, ten foreign vehicle makers operated 20 light-vehicle plants in developed North America. Despite the fact that all ten of these automakers have pursued a similar pattern—first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America—each has followed its own specific historical development path.

and has created its own unique growth trajectory This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015 In addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the United States and Canada This includes the first foreign automaker to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant Its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in North America and worldwide

*The Fragility of Power* Stefano Rebeggiani, 2018-09-10 Statius narrative of the fraternal strife of the Theban brothers Eteocles and Polynices has had a profound influence on Western literature and fascinated generations of scholars and readers This book studies in detail the poem's view of power and its interaction with historical contexts Written under Domitian and in the aftermath of the civil war of 69 CE the Thebaid uses the veil of myth to reflect on the political reality of imperial Rome The poem offers its contemporary readers including the emperor a cautionary tale of kingship and power Rooted in a pessimistic view of human beings and human relationships the Thebaid reflects on the harsh necessity of monarchical power as the only antidote to a world always on the verge of returning to chaos While humans and especially kings are fragile and often the prey of irrational passions the Thebaid expresses the hope that an illuminated sovereign endowed with clementia mercy may offer a solution to the political crisis of the Roman empire Statius narrative also responds to Domitian's problematic interaction with the emperor Nero whom Domitian regarded as both a negative model and a secret source of inspiration With *The Fragility of Power* Stefano Rebeggiani offers thoughtful parallels between the actions of the Thebaid and the intellectual activities and political views formulated by the groups of Roman aristocrats who survived Nero's repression He argues that the poem draws inspiration from an initial phase in Domitian's regime characterized by a positive relationship between the emperor and the Roman elite Statius creates a number of innovative strategies to negotiate elements of continuity between Domitian and Nero so as to show that while Domitian recuperated aspects of Nero's self presentation he was no second Nero Statius poem interacts with aspects of imperial ideology under Domitian Statius allusions to the stories of Phaethon and Hercules engage Domitian's use of solar symbols and his association with Hercules This book also shows that the Thebaid adapts previous texts in particular Lucan's *Bellum Civile* in order to connect the

mythical subject of its narrative with the historical experience of civil war in Rome in 69 CE By moving past recent solely aesthetic readings of the Thebaid The Fragility of Power offers a serious and thoughtful addition to the recent scholarship in Statian studies **The Autocar** ,1967 Sage and Emperor Philip A.
