**Transitional Justice, Peace and Accountability** Jessica Lincoln, 2011-03-18 The book looks at the outreach and communication strategies employed by internationalised courts to try to understand the wider impact of international justice This book critically examines the role of outreach within international justice focusing specifically on the role of outreach at the Special Court for Sierra Leone SCSL It contributes to understanding of the relationship between international courts and the affected populations an area currently underexplored and little understood The assumption that justice brings peace underpins much of the thinking and indeed action of international justice yet little is known if this is actually the case Significant questions surrounding the link between peace and justice remain do trials deter would be war criminals is justice possible for the most heinous crimes can international justice replace local justice This book explores these questions in relation to recent developments in

international justice that have both informed and shaped the creation of the hybrid tribunal in Sierra Leone Through empirical analysis Transitional Justice Peace and Accountability answers these questions and provides an insight into individual and community perceptions of international justice This book will be of much interest to students of transitional justice war crimes peace and conflict studies human rights international law and IR in general **Teaching for Peace and Social Justice in Myanmar** Mary Shepard Wong, 2022-06-02 Bringing together scholars and educators based in Myanmar the USA the UK Denmark and Thailand this book presents new perspectives and research on the struggle for social justice and peace in Myanmar at this critical juncture It shows how actors from diverse backgrounds and regions of Myanmar are drawing from their identities evoking their agency and using critical pedagogy to advance social justice and peace The chapters provide the compelling life stories of the authors specific examples of what they are doing and insights of how their work might be applied to other contexts The topics discussed include addressing structural violence peace curriculum development identity based conflict teaching the history of the country promoting inclusion civic education critical pedagogy teacher agency and agendas of research funding for peacebuilding The foreword and afterword written by well known scholars of Myanmar address the relevance and importance of the book vis a vis the current social and political crisis following the February 2021 military coup Building a Future on Peace and Justice Kai Ambos, Judith Large, Marieke Wierda, 2008-12-04 Results of the 2007 Nuremberg Conference on Peace and Justice Tensions between peace and justice have long been debated by scholars practitioners and agencies including the United Nations and both theory and policy must be refined for very practical application in situations emerging from violent conflict or political repression Specific contexts demand concrete decisions and approaches aimed at redress of grievance and creation of conditions of social justice for a non violent future There has been definitive progress in a world in which blanket amnesties were granted at times with little hesitation There is a growing understanding that accountability has pragmatic as well as principled arguments in its favour Practical arguments as much as shifts in the norms have created a situation in which the choice is increasingly seen as which forms of accountability rather than a stark choice between peace and justice It is socio political transformation not just an end to violence that is needed to build sustainable peace This book addresses these dilemmas through a thorough overview of the current state of legal obligations discussion of the need for a holistic approach including development analysis of the implications of the coming into force of the ICC and a series of hard case studies on internationalized and local approaches devised to navigate the tensions between peace and justice Legacies of the International Criminal Tribunal for the Former Yugoslavia Carsten Stahn, Carmel Agius, Serge Brammertz, Colleen Rohan, Rafael Braga Da Silva, 2020 This edited volume provides a multidisciplinary perspective on the contribution of the International Criminal Tribunal for the former Yugoslavia ICTY to law memory and justice It explores some of the accomplishments challenges and critiques of the ICTY as well as some of its less visible legacies Peace and Justice at the International Criminal Court Errol P. Ratner, 2015-01-15 In a world full of armed conflict and human misery global justice remains one of the most compelling missions of our time Understanding the promises and limitations of global justice demands a careful appreciation of international law the web of binding norms and institutions that help govern the behaviour of states and other global actors This book provides a new interdisciplinary approach to global justice one that integrates the work and insights of international law and contemporary ethics It asks whether the core norms of international law are just appraising them according to a standard of global justice derived from the fundamental values of peace and the protection of human rights Through a combination of a careful explanation of the legal norms and philosophical argument Ratner concludes that many international law norms meet such a standard of justice even as distinct areas of injustice remain within the law and the verdict is still out on others Among the subjects covered in the book are the rules on the use of force self determination sovereign equality the decision making procedures of key international organizations the territorial scope of human rights obligations including humanitarian intervention and key areas of international economic law Ultimately the book shows how an understanding of international law's moral foundations will enrich the global justice debate while exposing the ethical consequences of different rules
