Consciousness and the Cosmos Philip S. Berg, 2013 With his signature penetration of non traditional thought Kabbalist Rav Berg investigates quantum physics astrology and the Bible and uncovers a link between them Within the pages of *Consciousness and the Cosmos* Rav Berg delves into subjects ranging from extraterrestrials to parallel universes and the tree of life Throughout it all he posits that random chance is non-existent Things that happen through a conjunction of events whether moments apart or centuries removed are intimately related Through the information presented we come to understand that Time is the distance between Cause and Effect If one can go back in time and change the cause the seed then one can change the effect the tree This book reveals how to use consciousness to travel through time and space and how to tap the forces of intelligence that pervade our cosmos For readers who are interested in science and question the Bible and for readers who cherish the Bible and question science this book provides a logical bridge Humanity is at the center we affect everything that happens Rav Berg unveils a kabbalistic view of the universe which proposes that mankind is not only a participant but a determinant of all energy activity

Zohar Chadash Revealed: Kabbalah of Consciousness Mark Siet, 2019-02 Herein you will learn about the Kabbalah of Consciousness Through Torah study you will come to see that however obscure

the references are we can always relate them to Consciousness Zohar Chadash Revealed is the study of select passages of Torah that are meant to bring out the mystery in ways in which will shine the light upon Consciousness The entire point of these mystical writings are to connect Torah with Consciousness The text speaks for itself but where it is unclear the commentary will fill in the blanks Now Torah study should have a specific purpose other than immersing us in the holy language It should also teach us about ourselves and what we can do to make our world a better place Throughout this book you will find ways in which to connect your thoughts to those of Torah in ways that make sense Imagine practicing the eternal keys of inspiration by reading with purpose the ancient text The sages of Torah are here to explain things to us and where they leave off the commentary will add another level of learning Here is where you will practice immersing yourself in the mystery Once you realize that Consciousness has but one purpose to unite you with God you will proceed with confidence knowing that what you are learning has always been a part of you and is now being awakened or remembered How do we do this We listen and connect what we know to that we are learning Kabbalah is listening on every level of our being It is listening with the expectation of learning more about the mystery Think about it Consciousness The very act of thinking It all comes down to reflection Now this reflection brings us to that mirror that shows us the pictures we are making It shows us in real time and in future time All of this is a part of Consciousness What we can conceive of is only limited by what we can believe in what we can convince ourselves of as being true now just for now but as a template for filling our future with good All of this arises from a phrase And God said Let the waters under the heaven be gathered together unto one place and let the dry land appear And it was so Genesis 1 9 The waters are Consciousness It is a deep secret that is revealed about the ebb and flow of Consciousness including its movement from the spiritual into the actualization of what it has become All of this you will find within However the best is yet to come It is your own thoughts that will make this book a treasure for a lifetime of contemplation By making some of this material available for the first time in English it opens up a world of inquiry that otherwise would remain hidden One more thing Through the verses explained and their commentary you will begin to see the greater design of Torah in a whole new light This is perhaps the most amazing thing of all to come out of reading this book Yes it will leave you wanting more but it will also teach you to bring forth the hidden knowledge that each of us contains within Then you will develop a sense of discovery that is unquenchable Once you learn the hidden keys of Consciousness it is Kabbalah that will open the doors for you You will listen will everything within you If you seek the higher knowledge the secrets Sod of Torah this book is a wealth of information Within these pages you not only learn the answers to the hidden mysteries you also how to make those same inquiries yourself You not only eat the fish you become an expert fisherman Enter into the worlds without end that are presented here Receive with joy the ancient wisdom that is made new each day Soar with learning that never peaks and always goes beyond It is simple and yet oh so sublime Take the adventure of a lifetime and learn how to keep on going

Kabbalah Mysticism for Spiritual Awakening Guy Berchik, 2024-03-07

Kabbalah means a receiving and in our context a receiving of a higher conscious experience that ultimately leads to spiritual awakening which is a permanent state of mind where the emotions awaken to a higher experience of consciousness while the fabricated self that the mind creates surrenders as a consequence. Along with a discussion about what happens in enlightenment or spiritual awakening and how to develop the mind using the path of Kabbalah, this book also discusses the meaning of God, an explanation of the Infinite as it applies to one's own personal experience, the question of Will and the Male and Female parts of the Godhead, along with elucidating some difficult concepts and stories of the Bible and applying them to the Sphiroth of the Kabbalistic Tree of Life. Lastly, this book provides some advice on how to raise children to be mystics and how to recognize a suitable mate or Shiduch using the Sphiroth system of the Tree of Life of Kabbalah.

The Kabbalah of the Soul Leonora Leet, 2003-03-25 Reveals the transformative spiritual work by which the soul can reach ever higher dimensions of consciousness. Relates the soul levels of the Zohar to the various paths the soul may travel toward ultimate realization. Introduces a new meditative technique called the Transformative Moment. Throughout the history of the Jewish esoteric tradition, humankind has been understood to play a pivotal role in the perfection of the cosmos, uniting the finite with the infinite in the perfection of divine personality. Working from an original synthesis of the major kabbalistic traditions of cosmology derived from the Bible, the Zohar, and the school of Isaac Luria, Leonora Leet has erected a new framework for understanding the mechanism of the transformative spiritual work that enables the human soul to reach increasingly higher dimensions of consciousness. This analysis extends the frontiers of Leet's prior works on the Kabbalah to provide a new illumination of human possibilities. Leet first considers the false temptations of worldly power and pleasure that lead to the fall of the soul and then the means of its redemption. She develops a powerful meditative technique called the Transformative Moment, whose workings are exemplified by Jacob and Joseph and that allow the individual to progress through all the higher levels of the soul, even possibly to attain the miraculous powers of the legendary spiritual masters. She further correlates the hierarchy of soul levels with Ezekiel's Throne vision to show the various paths the soul may travel toward self-realization: sex, love, power, knowledge, holiness, and unification. The first four paths relate to the four-faced living creatures, Chayot of Ezekiel's Throne vision: the bull, ox, lion, eagle, and man. The final two paths correlate to the prophet and the envisioned man on the throne, he recognizes to be his divine higher self, the knowledge that defines the secret doctrine of the whole of the Jewish mystical tradition, culminating in the Kabbalah.

Kabbalistic Panpsychism Hyman M. Schipper, 2021-09-24 From a scientific and philosophical point of view, there is arguably no phenomenon as intractable as the origin and nature of consciousness. This volume provides a comprehensive account of the Kabbalistic understanding of consciousness adduced from ancient Jewish mystical texts and the writings of key sixteenth to twentieth-century Kabbalistic and Chassidic luminaries.

Consciousness is Story-Shaped Richard Rosenbaum, 2025-04-21 Why do we conceptualize our experience primarily in terms of stories? This monograph is a groundbreaking exploration of how narrative structures mirror the architecture of

human thought Drawing from disciplines as diverse as narratology philosophy psychology and cognitive science it meticulously examines Joseph Campbell s theory of the monomyth positing its isomorphism with the Categories of Judgment that Immanuel Kant considered innate to human cognition The book presents a compelling case that stories represent a reflection of cognitive processes arguing that humans inherently interpret the world and their experiences through a narrative schema deeply ingrained in our consciousness Rooted in cognitive semiotics it analyzes in detail the structural similarities between narrative and cognition Offering a novel understanding of the fundamental narrative nature of human thought and its implications for how we perceive and interact with the world this book is essential for scholars in narratology and semiotics writers and anyone fascinated by storytelling
