Kaiser Wilhelm II New Interpretations The Corfu Papers:

Kaiser Wilhelm II New Interpretations John C. G. Röhl, Nicolaus Sombart, 2005-09-15 As assessment of the Kaiser's character and its implications on Imperial German history Wilhelm II Lamar Cecil, 2017-11-01 Wilhelm II 1859 1918 King of Prussia and German Emperor from 1888 to 1918 reigned during a period of unprecedented economic cultural and intellectual achievement in Germany Unlike most European sovereigns of his generation Wilhelm was no mere figurehead and his imprint on imperial Germany was profound In this book and a second volume historian Lamar Cecil provides the first comprehensive biography of one of modern history's most powerful and most misunderstood rulers Wilhelm II Prince and Emperor 1859 1900 concentrates on Wilhelm's youth As Cecil shows the future ruler's Anglo German genealogy his education and his subsequent service as an officer in the Prussian army proved to be unfortunate legacies in shaping Wilhelm's behavior and ideas Throughout his thirty year reign Wilhelm's connection with his subjects was tenuous He surrounded himself with a small coterie of persons drawn from the government the military and elite society most of whom were valued not for their ability but for their loyalty to the crown They in turn contrived to keep Wilhelm isolated from outside influences learned to be accomplished in catering to his prejudices and strengthened his conviction that the government should be composed only of those who agreed with him The day to day conduct of Germany's affairs was left in the hands of these loyal followers for the Kaiser himself did not at all enjoy work Rejoicing instead in pageantry and the superficial trappings of authority he was particular about what he did and what he read eliminating anything that was unpleasant difficult or tedious He never learned to listen to reason or to make decisions in a sound informed manner he was customarily inclined to act solely on the basis of his personal feelings Many people believed him to be mad Even courtiers who admired Wilhelm recognized that he was responsible for the diplomatic embarrassment in which Germany found itself by 1914 and that the Kaiser's maladroitness endangered the prestige of the Hohenzollern crown His is the story of a bizarre and incapable sovereign who never doubted that he possessed both genius and divine inspiration Originally published in 1989 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *Wilhelm II: Emperor and exile, 1900-1941* Lamar Cecil, 1989 Traces the early years in the life of Wilhelm II German emperor before the First World War focusing on his genealogy education and service as an officer in the Prussian Army **The Kaiser's Confidante** Richard Jay Hutto, 2017-01-26 New York City native Mary Esther Lee 1837 1914 first married in 1864 the Prince von Noer brother of the Queen of Denmark and was created a princess in her own right after his death An active philanthropist to Protestant causes she then married Count Alfred von Waldersee whose close ties to the Prussian court made her an intimate friend of Kaiser Wilhelm II and a mentor and valued friend to his young wife Although she preferred to remain in the

background Mary's influence caused intense jealousy by those at court who resented her friendship with the kaiser and kaiserin This biography chronicles the remarkable life of an American woman whose wealth and influence enabled her to rise to power in the Prussian royal court **A History of Modern Germany** Martin Kitchen, Lauren Faulkner Rossi, 2023-08-28

A HISTORY OF MODERN GERMANY A History of Modern Germany provides a comprehensive account of the social political and economic history of Germany from 1800 to the present Written in an engaging and accessible narrative style this popular textbook offers an expansive view of the nation's complex and fragmented past tracing the development of the German national consciousness through Napoleonic rule the unification of Germany the German Empire the Weimar Republic the Third Reich post war division the collapse of Communism reunification and the first two decades of the 21st century Throughout the text the authors discuss the tensions prompted by structural changes within Germany long term shifts in demographics social and economic reforms and more Now in its third edition A History of Modern Germany offers richer coverage of German cultural history the German Democratic Republic modernization class religion and gender Updated chapters explore continuity in imperial projects from Bismarck to Hitler memory and commemoration since 1945 the distinct but intertwined histories of the two Germanys between 1949 and 1989 and the experience of diversity after the Second World into the post unification era A History of Modern Germany 1800 to the Present Third Edition is an excellent textbook for undergraduate students taking courses in modern German history or modern European history as well as general readers with an interest in the subject **For King and Country** Heather Jones, 2021-09-23 This is a ground breaking history of the British monarchy in the First World War and of the social and cultural functions of monarchism in the British war effort Heather Jones examines how the conflict changed British cultural attitudes to the monarchy arguing that the conflict ultimately helped to consolidate the crown's sacralised status She looks at how the monarchy engaged with war recruitment bereavement gender norms as well as at its political and military powers and its relationship with Ireland and the empire She considers the role that monarchism played in military culture and examines royal visits to the front as well as the monarchy's role in home front morale and in interwar war commemoration Her findings suggest that the rise of republicanism in wartime Britain has been overestimated and that war commemoration was central to the monarchy's revered interwar status up to the abdication crisis **All the World at War** James Charles Roy, 2024-05-31 While battles and wars and the clash of

civilizations are as old as time itself there is little doubt that the conflagration of 1914-1918 was something unique and terrifyingly new There was not a corner of the globe that did not feel its effects some more than others but the scope of its impact on economies populations food supplies the character of governments in general and the day to day lives of numberless ordinary people were such as the world had never experienced nor expected Little did anyone dream that the assassination of relatively minor figures of the Habsburg royal family Archduke Ferdinand of Austria and his wife carried out by an unknown Serbian teenager on the street corner of an obscure town called Sarajevo that few had ever heard of could

possibly provide a spark that would plunge the entire European continent into an industrialized war of catastrophic destruction But it did the two shots that youth fired were surely heard around the world and several million people would perish or be maimed as a result The story of World War I has been told by many different writers historians and participants in many different ways especially so before and during the centennial of its events that just concluded All the World at War stands apart from many of these standard studies It presents a familiar story from points of view that many readers might find surprising unexpected details different perspectives atypical and generally insightful observations from contemporaries often obscure to modern readers who witnessed the events and personalities that pushed the war along from phase to phase The narrative is chronologically arranged beautifully written with something new or intriguing on every page This is a unique and finely paced account of The War to End all Wars that didn't

On a Knife Edge Holger Afflerbach, 2022-10-20 A fundamental reassessment of German politics and strategy during the First World War and why it was that Germany lost

Alfred von Tirpitz and German Right-Wing Politics, 1914-1930 Raffael Scheck, 2023-08-21 In a skillful combination of biographical case study and contextual analysis Scheck presents a readable often thrilling account of the troubled transition period before the Nazi catastrophe Drawing from a vast base of previously unused documents the book traces the conspiracies and public campaigns of Great Admiral Alfred von Tirpitz a key figure of the German right By focusing on Tirpitz known as a supreme politician and manipulator of public opinion Scheck explains the political and ideological problems contributing to the breakdown of the conservative German right and to the success of the National Socialists in the early 1930s

The Origins of World War I Richard F. Hamilton, Holger H. Herwig, 2003-02-24 This work poses a straightforward yet at the same time perplexing question about World War I Why did it happen Several of the oft cited causes are reviewed and discussed The argument of the alliance systems is inadequate lacking relevance or compelling force The arguments of mass demands those focusing on nationalism militarism and social Darwinism it is argued are insufficient lacking indications of frequency intensity and process how they influenced the various decisions The work focuses on decision making on the choices made by small coteries in Austria Hungary Germany Russia France Britain and elsewhere The decisions made later by leaders in Japan the Ottoman Empire Italy the Balkans and the United States are also explored The final chapters review the basic causes once again An alternative position is advanced one focused on elites and coteries their backgrounds and training and on their unique agendas

A Cultural Theory of International Relations Richard Ned Lebow, 2008-12-11 An original theory of politics and international relations based on ancient Greek ideas of human motivation

The Lost History of 1914 Jack Beatty, 2015-02-03 Challenges beliefs that World War I was inevitable documenting largely forgotten events in each of the warring countries to reveal how several factors may have prevented the war or caused a different outcome

Sexuality in Austria Anton Pelinka, 2017-07-05 Scholars have increasingly been investigating human sexuality as an important field of social history in particular national cultures This volume examines

both continuities and changing patterns of sexual behavior in Austria Joint Force Quarterly ,1998 **China Goes to Sea** Andrew S. Erickson,Lyle J Goldstein,Carnes Lord,2009-07-01 In modern history China has been primarily a land power dominating smaller states along its massive continental flanks But China s turn toward the sea is now very much a reality as evident in its stunning rise in global shipbuilding markets its vast and expanding merchant marine the wide offshore reach of its energy and minerals exploration companies its growing fishing fleet and indeed its increasingly modern navy Yet for all these achievements there is still profound skepticism regarding China s potential as a genuine maritime power Beijing must still import the most vital subcomponents for its shipyards maritime governance remains severely bureaucratically challenged and the navy evinces at least as of yet little enthusiasm for significant blue water power projection capabilities This volume provides a truly comprehensive assessment of prospects for China s maritime development by situating these important geostrategic phenomena within a larger world historical context China is hardly the only land power in history to attempt transformation by fostering sea power Many continental powers have elected or been impelled to transform themselves into significant maritime powers in order to safeguard their strategic position or advance their interests We examine cases of attempted transformation from the Persian Empire to the Soviet Union and determine the reasons for their success or failure Too many works on China view the nation in isolation Of course China s history and culture are to some extent exceptional but building intellectual fences actually hinders the effort to understand China s current development trajectory Without underestimating the enduring pull of China s past as it relates to threats to the country s internal stability and its landward borders this comparative study provides reason to believe that China has turned the corner on a genuine maritime transformation If that proves indeed to be the case it would be a remarkable if not singular event in the history of the last two millennia The President's First Year Douglas Alan Cohn,2016-01-15 A fascinating new angle on presidential history assessing the performances of the presidents in their freshman year of the toughest job in the world Grouped by the issues the new presidents confronted in their first years in office the book takes readers into the history thought processes and results on a case by case basis including how the presidents subsequent actions proved that they learned or didn t learn from their mistakes From George Washington to Barack Obama The President s First Year details the challenging first twelve months of all our presidents tenures **Colonial Genocide and Reparations Claims in the 21st Century** Jeremy Sarkin,2008-11-30 More and more the descendants of indigenous victims of genocide land expropriation forced labor and other systematic human rights violations committed by colonial powers are seeking reparations under international law from the modern successor governments and corporations As the number of colonial reparations cases increases courts around the world are being asked to apply international law to determine whether reparations are due for atrocities and crimes that might have been committed long ago but whose lasting effects are alleged to injure the modern descendants of the victims Sarkin analyzes the thorny issues of international law raised in such suits by focusing on groundbreaking cases in which he is

involved as legal advisor to the paramount chief of the Herero people of Namibia In 2001 the Herero became the first ethnic group to seek reparations under the legal definition of genocide by bringing multi billion dollar suits against Germany and German companies in a number of U S federal courts under the Alien Torts Claim Act of 1789 The Herero genocide conducted in German South West Africa present day Namibia between 1904 and 1908 is recognized by the UN as the first organized state genocide in world history Although the Herero were subjected to Germany s First Genocide they have unlike the victims of the Holocaust received no reparations from Germany By machine gun massacres starvation poisoning and forced labor in Germany s first concentration camps the German Schutztruppe systematically exterminated as many as 105 000 Herero women and children composing most of the Herero population Sarkin considers whether these historical events constitute legally defined genocide crimes against humanity and other international crimes He evaluates the legal status of indigenous polities in Africa at the time and he explores the enduring impact in Namibia of the Germany s colonial campaign of genocide He extrapolates the Herero case to global issues of reparations apologies and historical human rights violations especially in Africa

Knowing One's Enemies Ernest R. May, 2014-07-14 In essays that illuminate not only the recent past but shortcomings in today s intelligence assessments sixteen experts show how prospective antagonists appraised each other prior to the World Wars This cautionary tale warns that intelligence agencies can do certain things very well but other things poorly if at all Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Biography Between Structure and Agency Volker Berghahn, Simone Lässig, 2008-09-01 While bookstore shelves around the world have never ceased to display best selling life and letters biographies in prominent positions the genre became less popular among academic historians during the Cold War decades Their main concern then was with political and socioeconomic structures institutions and organizations or more recently with the daily lives of ordinary people and small communities The contributors to this volume all well known senior historians offer self critical reflections on problems they encountered when writing biographies themselves Some of them also deal with topics specific to Central Europe such as the challenges of writing about the lives of both victims and perpetrators Although the volume concentrates on European historiography its strong methodological and conceptual focus will be of great interest to non European historians wrestling with the old structure versus agency question in their own work Contributors Volker R Berghahn Hartmut Berghoff Hilary Earl Jan Eckel Willem Frijhoff Ian Kershaw Simone Lässig Karl Heinrich Pohl John C G R hl Angelika Schaser Joachim Radkau Cornelia Rauh K hne Mark Roseman Christoph Strupp and Michael Wildt

Theodore Rex Edmund Morris, 2002-10-01 NEW YORK TIMES BESTSELLER A

shining portrait of a presciently modern political genius maneuvering in a gilded age of wealth optimism excess and American global ascension San Francisco Chronicle WINNER OF THE LOS ANGELES TIMES BOOK PRIZE FOR BIOGRAPHY Theodore Rex is one of the great histories of the American presidency worthy of being on a shelf alongside Henry Adams's volumes on Jefferson and Madison Times Literary Supplement Theodore Rex is the story never fully told before of Theodore Roosevelt's two world-changing terms as President of the United States A hundred years before the catastrophe of September 11 2001 TR succeeded to power in the aftermath of an act of terrorism Youngest of all our chief executives he rallied a stricken nation with his superhuman energy charm and political skills He proceeded to combat the problems of race and labor relations and trust control while making the Panama Canal possible and winning the Nobel Peace Prize But his most historic achievement remains his creation of a national conservation policy and his monument millions of acres of protected parks and forest Theodore Rex ends with TR leaving office still only fifty years old his future reputation secure as one of our greatest presidents
