addresses a range of contentious issues facing the consumptive wildlife tourism sector across a number of destinations in Europe North America Africa India Arabia and Oceania Practices such as baited bear hunting trophy hunting of threatened species and hunting for conservation are debated along with the impact of this type of tourism on indigenous communities and on wider societies Research on all aspects of consumptive wildlife tourism is included which for the purposes of the book is defined to include all tourism that involves the intended killing of wildlife for sport purposes and may include the harvest of wildlife products This includes among others recreational hunting big game hunting and safari operations traditional indigenous hunting game bird shooting hunting with hounds freshwater angling and saltwater game fishing etc This is the first book to specifically address tourist aspects of consumption of wildlife It will appeal to tourism and recreation academics and students tourism industry operators community tourism planners and wildlife managers The Regional Travel Guide
