Kako Pomoci Bolesnima:

Socijalna politika Hrvatske Vlado Puljiz, Gojko Bežovan, Teo Matković, dr. Zoran Šućur, Siniša Zrinščak, 2008 *Glasnik zakona i naredaba za Bosnu i Hercegovinu* Bosnia and Herzegovina, 1893 *Psychological Trauma and the Legacies of the First World War* Jason Crouthamel, Peter Leese, 2016-11-17 This transnational interdisciplinary study of traumatic neurosis moves beyond the existing histories of medical theory welfare and symptomatology The essays explore the personal traumas of soldiers and civilians in the wake of the First World War they also discuss how memory and representations of trauma are transmitted between patients doctors and families across generations The book argues that so far the traumatic effects of the war have been substantially underestimated Trauma was shaped by gender politics and personality To uncover the varied forms of trauma ignored by medical and political authorities this volume draws on diverse sources such as family archives and narratives by children of traumatized men documents from film and photography memoirs by soldiers and civilians This innovative study challenges us to re examine our approach to the complex psychological effects of the First World War

Гласник закона и наредаба за Босну и Херцеговину Bosnia and Herzegovina, 1893 **Caring for the Socially Marginalised in Interwar Europe, 1919-1939** Michele Mioni, Stefano Petrungaro, 2024-11-07 This book investigates the mixed economy of welfare that assisted socially marginalised people in interwar Europe namely the state local authorities and a combination of voluntary and informal actors While literature has traditionally emphasised the key role of the state the cooperation between public authorities and private actors has always been a staple of social policy in Europe throughout history The interwar years prominently featured these entanglements between the increased public sphere of action and the voluntary sector Focusing on three thematic areas warfare and its effects boundaries of aid and institutional segregation and gender and religion the authors present case studies from various European countries between 1919 and 1939 All contributions explore the variegated world that composed the so called mixed economy of welfare By shifting the emphasis to the collaborations and frictions between social marginals non state actors and public authorities on a local national and transnational level the book challenges too simplistic distinctions between public and private initiatives and reveals the cultural political and practical common traits that featured in European care for marginals across a variety of geographical variations and socio political contexts **Kosovo kako viđeno, tako rečeno** ,2004 **Jugoslavenska njiva** ,1917

Mjesečnik ,1909 Komunalna higijena Grujica Žarković, Sergije Ramzin, 1953 **The Wars of Yesterday** Katrin Boeckh, Sabine Rutar, 2018-01-31 Though persistently overshadowed by the Great War in historical memory the two Balkan conflicts of 1912 1913 were among the most consequential of the early twentieth century By pitting the states of Greece Bulgaria Serbia and Montenegro against a diminished Ottoman Empire and subsequently against one another they anticipated many of the horrors of twentieth century warfare even as they produced the tense regional politics that helped spark World War I Bringing together an international group of scholars this volume applies the social and cultural insights of

the new military history to revisit this critical episode with a central focus on the experiences of both combatants and civilians during wartime
