Kandinsky The Complete Writings On Art:

Kandinsky Kenneth C. Lindsay, Peter Vergo, 1994-03-22 The importance of Kandinsky's art and thought in the history of modern art combined with the completeness, careful scholarship and crisp design of this volume make it especially useful. Choice Of all the giants of twentieth century art Wassily Kandinsky 1866-1944 was the most prolific writer. Here available for the first time in paperback are all of Kandinsky's writings on art, newly translated into English. Editors Kenneth C. Lindsay and Peter Vergo have taken their translations directly from Kandinsky's original texts and have included select interviews, lecture notes and newly discovered items along with his more formal writings. The pieces range from one-page essays to the book-length treatises *On the Spiritual in Art* 1911 and *Point and Line to Plane* 1926 and are arranged in chronological order from 1901 to 1943. The poetry, good enough to stand on its literary merits, is presented with all the original accompanying illustrations. And the book's design follows Kandinsky's intentions, preserving the spirit of the original typography and layout. Kandinsky was nearly thirty before he bravely gave up an academic career in law for his true passion, painting. Though his art was marked by extraordinarily varied styles, Kandinsky sought a pure art throughout, one which would express the soul or inner necessity of the artist. His uncompromising search for an art which would elicit a response to itself rather than to the object depicted resulted in the birth of nonobjective art, and in these writings Kandinsky offered the first cogent explanation of his aims. His language was characterized by its desire for vivification of the infusion of life into mundane things. Considered as a whole, Kandinsky's writings exceed all expectations of what an artist should accomplish with words. Not only do his ideas and observations make us rethink the nature of art and the way it reflects the aspirations of his era, but they touch on matters vital to the situation of the human soul.

Wassily Kandinsky Kenneth C. Lindsay, 1982 The Icon and the Square Maria Taroutina, 2018-11-26 In *The Icon and the Square* Maria Taroutina examines how the traditional interests of institutions such as the crown, the church and the Imperial Academy of Arts temporarily aligned with the radical leftist and revolutionary avant-garde at the turn of the twentieth century through a shared interest in the Byzantine past, offering a counternarrative to prevailing notions of Russian modernism. Focusing on the works of four different artists: Mikhail Vrubel, Vasily Kandinsky, Kazimir Malevich and Vladimir Tatlin, Taroutina shows how engagement with medieval pictorial traditions drove each artist to transform his own practice, pushing beyond the established boundaries of his respective artistic and intellectual milieu. She also contextualizes and complements her study of the work of these artists with an examination of the activities of a number of important cultural

associations and institutions over the course of several decades As a result The Icon and the Square gives a more complete picture of Russian modernism one that attends to the dialogue between generations of artists curators collectors critics and theorists The Icon and the Square retrieves a neglected but vital history that was deliberately suppressed by the atheist Soviet regime and subsequently ignored in favor of the secular formalism of mainstream modernist criticism Taroutina's timely study which coincides with the centennial reassessments of Russian and Soviet modernism is sure to invigorate conversation among scholars of art history modernism and Russian culture

Conceptual Revolutions in Twentieth-Century Art David W. Galenson, 2009-09-14 From Picasso's Cubism and Duchamp's readymades to Warhol's silkscreens and Smithson's earthworks the art of the twentieth century broke completely with earlier artistic traditions A basic change in the market for advanced art produced a heightened demand for innovation and young conceptual innovators from Picasso and Duchamp to Rauschenberg and Warhol to Cindy Sherman and Damien Hirst responded not only by creating dozens of new forms of art but also by behaving in ways that would have been incomprehensible to their predecessors Conceptual Revolutions in Twentieth Century Art presents the first systematic analysis of the reasons for this discontinuity David W Galenson whose earlier research has changed our understanding of creativity combines social scientific methods with qualitative analysis to produce a fundamentally new interpretation of modern art that will give readers a far deeper appreciation of the art of the past century and of today than is available elsewhere

The Forbidden Image Alain Besançon, 2000 This book discusses the privileging and prohibition of religious images over two and a half millennia in the West

The Art Book Tradition in Twentieth-Century Europe Kathryn Brown, 2017-07-05 Investigating the complex history of visual art's engagement with literature this collection demonstrates that the art of the book is a fully interdisciplinary and distinctly modern form The essays in the collection develop new critical approaches to the analysis of twentieth century bookworks and explore ways in which European writers and painters challenged the boundary between visual and linguistic expression in the content production and physical form of books The Art Book Tradition in Twentieth Century Europe offers a detailed examination of word image relations in forms ranging from the *livre d'artiste* to personal

diaries and almanacs It analyzes innovative attempts to challenge familiar hierarchies between texts and images to fuse different expressive media and to reconceptualize traditional notions of ekphrasis Giving consideration to the material qualities of books the works discussed in this collection also test and celebrate the act of reading while locating it in the context of other sensory experiences Essays examine works by Dufy Matisse Beckett Kandinsky Braque and Ponge among other European artists and writers active during the twentieth century

The Spiritual Dynamic in Modern Art C.
 Spretnak,2014-10-22 This book demonstrates that numerous prominent artists in every period of the modern era were expressing spiritual interests when they created celebrated works of art This magisterial overview insightfully reveals the centrality of an often denied and misunderstood element in the cultural history of modern art

Many-Valued Aesthetics
 Hauke Ohls,2024-08-02 Yes No Perhaps are the most written words in Mary Bauermeister s artworks Together they stand for the concept of many valued aesthetics in the German artist s oeuvre an aesthetic that Bauermeister developed using many valued logic Hauke Ohls brings the artist s central groups of works in context with each other as well as with the neo avant garde of the post war period in Europe and the USA He shows that the development of Bauermeister s art may appear disparate but her canvas and relief works drawings and writing pictures lens boxes and stone pictures are characterized by a reciprocal relationship of combinations and interconnections Through the ubiquitous use of meta references the entire oeuvre ultimately appears as an interconnected assemblage
