Donovan, 2007-12-28 Legal Anthropology An Introduction offers an initial overview of the challenging debates surrounding the cross cultural analysis of legal systems Equal parts review and criticism James M Donovan outlines the historical landmarks in the development of the discipline identifying both strengths and weaknesses of each stage and contribution Legal Anthropology suggests that future progress can be made by looking at the perceived fairness of social regulation rather than sanction or dispute resolution as the distinguishing feature of law

**Law in Culture and Society** Laura Nader, 2023-11-15 As conflict resolution becomes increasingly important to urban and rural peoples around the globe the value of this classic anthology of studies of process structure comparison and perception of the law is acclaimed by policy makers as well as anthropologists throughout the world The case studies include evidence from Africa Europe the Americas and Oceania and they reflect the important shift from a concern with what law is to what law does As conflict resolution becomes increasingly important to urban and rural peoples around the globe the value of this classic anthology of studies of process structure comparison and perception of the law is acclaimed by policy makers as well as anthrop

**Grassroots Law in Papua New Guinea** Melissa Demian, 2023-12-14 The introduction of village courts in Papua New Guinea in 1975 was an ambitious experiment in providing semi formal legal access to the country s overwhelmingly rural population Nearly 50 years later the enthusiastic adoption of these courts has had a number of ramifications some of them unanticipated Arguably the village courts have developed and are working exactly as they were supposed to do adapted by local communities to modes and styles consistent with their own dispute management sensibilities But with little in the way of state oversight or support most village courts have become of necessity nearly autonomous Village courts have also become the blueprint for other modes of dispute management They overlap with other sources of authority so the line between what does and does not constitute a court is now indistinct in many parts of the country Rather than casting this issue as a problem for legal development the contributors to Grassroots Law in Papua New Guinea ask how under conditions of state withdrawal people seek to retain an understanding of law that holds out some promise of either keeping the attention of the state or reproducing the state s authority      *Legal Theory and the Media of Law* Thomas

Vesting, 2018-02-23 As many disciplines in the humanities have experienced a focus on culture s impact in recent decades questions surrounding the significance of media such as writing print and computer networks have become increasingly relevant This book seeks to demonstrate that a media and cultural theory perspective can also be highly productive for legal theory      *Multicentrism as an Emerging Paradigm in Legal Theory* Marek Zirk-Sadowski, Mariusz Jerzy Golecki, Bartosz

Wojciechowski,2009 The contemporary legal theory is gradually departing from traditional theory of the hierarchical legal system Some authors announce the supposed death of the concept of law within the state The so called multicentrism might become an attractive alternative to the traditional monocentric approach The essence of multicentrism may be characterized as coexistence of many adjudicating bodies especially courts whose verdicts are equally effective within the national legal system Such a situation takes place e g within the European legal area where multicentrism could be perceived as the existence of sensitive liaisons entanglements and relations of dependence between the European Court of Human Rights in Strasbourg the European Court of Justice in Luxemburg and national especially constitutional courts in member states The coexistence of many centres of adjudication may thus become a constant feature of the system of regional and global law

**Law and Economic Organization** Katherine S. Newman,1983-12-30 In this important contribution to the comparative study of legal systems the author examines a sample of some sixty pre industrial societies from around the world in an attempt to explain why their legal institutions vary The Future of African Customary Law Jeanmarie Fenrich,Paolo

Galizzi,Tracy E. Higgins,2011-07-18 This book promotes discussion and understanding of customary law and explores its continued relevance in sub Saharan Africa It considers the characteristics of customary law and efforts to ascertain and codify customary law and how this body of law differs in content form and status from legislation and common law Law as

Process Sally Falk Moore,2000 This is a study of the role of law in society using both pre industrial and modern settings It argues that the same social processes which prevent the total regulation of society also reshape and transform efforts at partial regulation **From Primitive to Postcolonial in Melanesia and Anthropology** Bruce M. Knauff,1999 A

prominent scholar surveys the special place of Melanesia in our understanding of human cultural variation **Law as a Social System** Niklas Luhmann,2004 However unlike conventional legal theory this volume seeks to provide an answer in terms of a general social theory a methodology that answers this question in a manner applicable not only to law but also to all the other complex and highly differentiated systems within modern society such as politics the economy religion the media and education This truly sociological approach offers profound insights into the relationships between law and all of these other social systems *Theories of Illness* George Peter Murdock,1980-12-15 An important contribution to medical

anthropology this work defines the principal causes of illness that are reported throughout the world distinguishing those involving natural causation from the more widely prevalent hypotheses advancing supernatural explanations **colonialism**
