Reactivations Philip Auslander, 2018-05 Most people agree that witnessing a live performance is not the same as seeing it on screen however most of the performances we experience are in recorded forms Some aver that the recorded form of a performance necessarily distorts it or betrays it focusing on the relationship between the original event and its recorded versions By contrast *Reactivations* focuses on how the audience experiences the performance as opposed to its documentation How does a spectator access and experience a performance from its documentation What is the value of performance documentation The book treats performance documentation as a specific discursive use of media that arose in the middle of the 20th century alongside such forms of performance as the Happening and that is different both discursively and as a practice from traditional theater and dance photography Philip Auslander explores the phenomenal relationship between the spectator who experiences the performance from the document and the document itself The document is not merely a secondary iteration of the original event but a vehicle that gives us meaningful access to the performance itself as an artistic work

social and cultural dimensions of popular music *Sounds, Societies, Significations* Rima Povilionienė, 2017-01-10 This edited book covers many topics in musicological literature gathering various approaches to music studies that encapsulate the vivid relation music has to society. It focusses on repertoires and geographical areas that have not previously been well frequented in musicology. As readers will see, music has many roles to play in society. Music can be a generator of social phenomena or a result of them; it can enhance or activate social actions or simply cohabit with them. Above all, music has a stable position within society in that it actively participates in it. Music can either describe or prescribe social aspects; musicians may have a certain position/role in society, e.g. the popstar as fashion leader, spokesman for political issues etc. Depending on the type of society, music may have a certain meaning or function; music does not mean the same thing everywhere in the world. Lastly, music can define a society and it is not uncommon for it to best define a particular historical moment. Case studies in this work provide visibility for musical cultures that are rarely exposed in the dominant musicological discourse. Several contributions combine musicological analysis with insider musician points of view. Some essays in the collection address the cultural clash between certain types of music, musicians and the respective institutional counterparts, while certain contributing authors draw on experimental research findings. Throughout this book, we see how musics are socially significant and at the same time that societies are musically significant too. Thus, the book will appeal to musicologists, cultural scholars and semioticians amongst others. *The Worlds of Japanese Popular Culture* Dolores P. Martinez, 1998-10-13 Dolores Martinez heads an international team of scholars in this lively discussion of Japanese popular culture. The book's contributors include Japanese as well as British, Icelandic and North American writers offering a diversity of views of what Japanese popular culture is and how it is best approached and understood. They bring an anthropological perspective to a broad range of topics including sumo, karaoke, manga, vampires, women's magazines, soccer and morning television. Through these topics, many of which have never previously been addressed by scholars, the contributors also explore several deeper themes: the construction of gender in Japan, the impact of globalisation and modern consumerism and the rapidly shifting boundaries of Japanese culture and identity. This innovative study will appeal to those interested in Japanese culture, sociology and cultural anthropology. ***Karaoke Around the World*** Tōru Mitsui, Shūhei Hosokawa, 1998

Beyond the Multiplex Barbara Klinger, 2023-09-01 Since the mid-eighties, more audiences have been watching Hollywood movies at home than at movie theaters, yet little is known about just how viewers experience film outside of the multiplex. This is the first full-length study of how contemporary entertainment technologies and media, from cable television and VHS to DVD and the Internet, shape our encounters with the movies and affect the aesthetic, cultural and ideological definitions of cinema. Barbara Klinger explores topics such as home theater, film collecting, classic Hollywood movie reruns, repeat viewings and Internet film parodies, providing a multifaceted view of the presentation and reception of films in U.S. households. Balancing industry history with theoretical and cultural analysis, she finds that today cinema's powerful social

presence cannot be fully grasped without considering its prolific recycling in post theatrical venues especially the home Since the mid eighties more audiences have been watching Hollywood movies at home than at movie theaters yet little is known about just how viewers experience film outside of the multiplex This is the first full length study of how contemporary enterta

Islands of Discontent Laura Hein, Mark Selden, 2003-04-09 Exploring contemporary Okinawan culture politics and historical memory this book argues that the long Japanese tradition of defining Okinawa as a subordinate and peripheral part of Japan means that all claims of Okinawan distinctiveness necessarily become part of the larger debate over contemporary identity The contributors trace the renaissance of the debate in the burst of cultural and political expression that has flowered in the past decade with the rapid growth of local museums and memorials and the huge increase in popularity of distinctive Okinawan music and literature as well as in political movements targeting both U S military bases and Japanese national policy on ecological developmental and equity grounds A key strategy for claiming and shaping Okinawan identity is the mobilization of historical memory of the recent past particularly of the violent subordination of Okinawan interests to those of the Japanese and American governments in war and occupation Its intertwining themes of historical memory nationality ethnicity and cultural conflict in contemporary society address central issues in anthropology sociology contemporary history Asian Studies international relations cultural studies and post colonial studies Contributions by Matt Allen Linda Isako Angst Asato Eiko Gerald Figal Aaron Gerow Laura Hein Michael Molasky Steve Rabson James E Roberson Mark Selden and Julia Yonetani
