David Yamane

Karl Lagerfeld Escape From Circumstances:

Escape from Circumstances Karl Lagerfeld, 2000 *Escape from Circumstances* can be described as a school of seeing In the past Karl Lagerfeld's photographic work has been characterised by the following subjects landscape body parts and architecture These topics are reflected in some of his books in *Partipris* and *Casa Malaparte* to name but a few This study seems to be the logical consequence of this pursuit and the key to his current creative power In full bleed plates Lagerfeld presents the different forms of nature alongside elements of the human body The human body stands as a model for various types of buildings which are in an ideal case in harmony with the human being and nature The arrangement of these pictures illustrate the anthropomorphic form in its natural and artificial environments *Gun Curious* David Yamane, 2024-06-01

More than ever it feels like cultural and political divisions over firearms are tearing the United States apart Guns are an undeniable and contradictory presence in America both widely owned and controversial This book does something remarkable it promotes insight over animosity in understanding the complex reality of guns in America It challenges firearms skeptics entertains enthusiasts and informs the uncommitted by taking readers on a surprising journey inside gun culture A lifelong liberal from the San Francisco Bay Area David Yamane became a new gun owner as a 42 year old and embarked on an immersive twelve year study of American gun culture Weaving together his personal experiences and sociological observations to explain why guns make sense to those who own them he illuminates defensive gun ownership the risk of negative outcomes associated with firearms and what responsible gun ownership looks like in the twenty first century This book lowers the heat on America's inflamed arguments about firearms and models the civil discussions we desperately need
