Karma And Creativity:

Karma and Creativity Christopher Key Chapple, 1986-06-30 The conception of karma in the religious traditions of India has prompted numerous interpretations many of which equate karma with notions of fate Karma and Creativity presents a perspective on karma that emphasizes the efficacy of human activity in bringing about desired results from upholding societal order to the attainment of spiritual liberation Karma is examined in light of several classical Indian texts Special attention is given to the concept of mind only in both Hinduism and Buddhism The study focuses on the positive approach to action first learned by the sage Vasisin the Mahabharata and then taught by him to Sri Rama in the Yogavasis It concludes with an exploration of the theological and ethical implications of action and creativity The International Handbook of Creativity James C. Kaufman, Robert J. Sternberg, 2006-04-03 What constitutes a creative person Is it someone who can perform many tasks innovatively Is it someone who exhibits creative genius in one area Is it someone who utilizes her creativity for good and moral causes Is it someone who uses his creativity to help his company or country succeed Different cultures have different perspectives on what it means to be creative yet it is nearly always the American or Western perspective that is represented in the psychological literature The goal of The International Handbook of Creativity is to present a truly international and diverse set of perspectives on the psychology of human creativity Distinguished scholars from around the world have written chapters for this book about the history and current state of creativity research and theory in their respective parts of the world The 2006 book presents a wide array of international perspectives and research

Buddhism, Christianity and the Question of Creation

Perry Schmidt-Leukel, 2016-12-05 Is the world created by a divine creator Or is it the constant product of karmic forces The issue of creation was at the heart of the classic controversies between Buddhism and Hindu Theism In modern times it can be found at the centre of many polemical debates between Buddhism and Christianity Is this the principal barrier that separates Buddhism from Christianity and other theistic religions The contributions to Part One explore the various aspects of traditional and contemporary Buddhist objections against the idea of a divine creator as well as Christian possibilities to meet the Buddhist critique Part Two asks for the potential truth on both sides and suggests a surprising way that the barrier might be overcome This opens a new round of philosophical and theological dialogue between these two major traditions with challenging insights for both Contributors Jos I Cabezon John P Keenan Armin Kreiner Aasulv Lande John D Arcy May Eva K Neumaier Perry Schmidt Leukel Ernst Steinkellner
