Karma Of Materialism Trans German:

Karma of Materialism Rudolf Steiner, 1985-07-15 We have the power to transform our public schools not through government mandates or the newest teacher proof text series and not through what many educators call best practices Our schools can be transformed by applying Waldorf inspired practices into the public school setting This little known but well established form of education can be an invaluable source of ideas and strategies to teachers administrators and teacher educators Rudolf Steiner had a special interest in the education of children and saw schooling as a way to achieve social renewal He initiated Waldorf schools to counteract certain trends of his time which continue to move toward an increasingly mechanistic analytical and intellectual educational environment Waldorf students do not learn in a fragmentary ways nor is the curriculum prepackaged Their education is centered in creativity and social values forming a solid foundation for learning the skills needed to integrate into the society and the workplace Mary Goral explores ways that Waldorf principles can be applied in public schools to educate children for life rather than simply to meet the demands of rigid one size fits all programs such as No Child Left Behind She points out ways that Waldorf methods require teachers and parents to engage more fully with students to practice ways of self development and to build a greater sense of community Using the concrete example of the Waldorf inspired Cadre a group of public school teachers who have agreed to go on such a journey take risks and learn new skills along with their students Dr Goral shows how teachers can bring many of the benefits of Waldorf education into the public setting with remarkable results Transformational Teaching provides important and inspirational reading for those who wish to transform their local public schools into places of learning that truly focus on the educational and life needs of children and the communities in which they live Light for the New Millennium Rudolf Steiner, Helmuth von Moltke, Eliza Von Moltke, 2014-06-04 Containing a wealth of material on a variety of subjects Light for the New Millennium tells the story of the meeting of two great men and their continuing relationship beyond the threshold of death Rudolf Steiner 1861 1925 the seer scientist of the spirit and cultural innovator and Helmuth von Moltke 1848 1916 a renowned military man Chief of the General Staff of the German army during the outbreak of World War I In 1914 following disagreements with the Kaiser Moltke was dismissed from his post This led to a great inner crisis in the General that in turn drew him closer to Steiner When Moltke died two years later Steiner maintained contact with his excarnated soul receiving communications that he passed on to Moltke s wife Eliza These remarkable and unique messages are reproduced here in full together with relevant letters from the General to his wife The various additional commentaries essays and documents give insights to themes of continuing significance for our time including the workings of evil karma and reincarnation life after death the new millennium and the end of the last century the hidden causes of World War I the destiny of Europe and the future of Rudolf Steiner's science of the spirit Also included are Moltke's private reflections on the causes of the Great War the document that could have changed world history a key interview with Steiner for Le Matin an introduction and notes by T H Meyer and studies by J rgen von Grone Jens Heisterkamp and Johannes Tautz
