**Myths and Realities** John Whedbee,2005 Myths and Realities creates a comprehensive picture of human life and culture while at the same time placing it within the larger cosmic context In recent decades all areas of human knowledge have expanded to an unprecedented degree so the overall context of human existence is at last beginning to emerge In order to present such a wide ranging portrait Myths and Realities looks at history and human nature from several different viewpoints giving special attention to four major topics culture science religion and war Science is a major contributor because it is the most reliable means of acquiring knowledge Religion is part of the wider subject of beliefs in general and these have been given particular consideration because any kind of ideology or belief tends to distort the worldview War has been mankind s constant companion but without its underlying mythology it would lose all glory and romance It would just be senseless savagery Although man has many distinctive qualities one of his most remarkable characteristics is his capacity to believe in all kinds of nonsensical notions In fact the human animal will believe practically anything so long as it makes absolutely no sense at all

Library Bulletin ,1958      The Atlantic Monthly ,1958      Books Are Made Out of Books Michael Lynn Crews,2024-10-08

Cormac McCarthy told an interviewer for the New York Times Magazine that books are made out of books but he was famously unwilling to discuss how his own writing draws on the works of other writers Yet his novels and plays masterfully appropriate and allude to an extensive range of literary works demonstrating that McCarthy was well aware of literary tradition and deliberately situating himself in a knowing relationship to precursors In Books Are Made Out of Books Michael Lynn Crews thoroughly mines McCarthy s literary archive to identify over 150 writers and thinkers that McCarthy referenced in early drafts marginalia notes and correspondence Crews organizes the references into chapters devoted to McCarthy s published works the unpublished screenplay *Whales and Men* and McCarthy s correspondence This updated edition now examines McCarthy s final publications the novel *The Passenger* and its play like coda *Stella Maris* For each work Crews identifies authors artists or other cultural figures that McCarthy referenced gives the source of the reference in McCarthy s papers provides context for the reference as it appears in the archives and explains the significance of the reference to the novel or play that McCarthy was working on This groundbreaking exploration of McCarthy s literary influences vastly expands our understanding of how one of America s foremost authors engaged with the ideas images metaphors and language of other thinkers and made them his own

**School Desegregation** ,1975 Lost Worlds Leonard Cottrell,2015-03-11 Between 5 000 and 6 000 years ago in a few favored areas of the world humankind mastered the formulas that released it from the Stone Age For the first time in history people became civilized This globe and time trotting book vividly describes how a number of major civilizations the Mayans the Egyptians the Khmers the Etruscans and more emerged thrived faded but left a mark on our collective imagination and culture Memories of some of these civilizations linger in the form of legends Some left monuments whose meaning seemed inscrutable to later ages Still others vanished under desert sands floods or tropical jungles This sharply observed and meticulously researched book unearths the stories and the cultures that make us who we are today *Civilization in the 21st Century* , **The Living Galaxy** Eugenio Mieli,Andrea Maria Francesco Valli,Claudio Maccone,2025-02-14 This book describes the possible distribution of life in the Milky Way Our description is mathematical in order to be extrapolated from what we know that happened on Earth to what might have happened on the huge number of extrasolar planets existing in the Milky Way Galaxy We use the statistical Drake equation which identifies parameters for calculating the total number of life forms at all levels While the original Drake equation 1961 contained seven factors only we extend the number of factors to 50 thus incorporating much of the scientific knowledge about the Evolution of Life available in 2024 As such this book aims at being a narrative of a series of events starting with pre life epochs and extending them into the present and into the future This book while well rooted in scientific and mathematical models depicts the drama of life whether it emerges and thrives or succumbs and vanishes It s a tale of attempts defeats and progress unfolding not along the scale of Human Lifetimes but rather along the scale of Galactic Civilizations billion years long The Atlantic ,1958 A Historical Survey of the Yellow River and the River Civilizations Jianxiong Ge,Yunsheng Hu,2021-01-04 This book explores the relationship between rivers and ethics in China with a particular focus on the health of the Yellow River and China s sustainable development Though the book falls into the category of East Asian History it is an interdisciplinary academic work that addresses not only history but also culture human geography and physical geography It traces the changes in the Yellow River over time and examines the origin and developmental course of Chinese civilization which has always been closely intertwined with the Yellow River It also draws comparisons between the Yellow River and the Yangtze Nile Tigris Euphrates and Indus rivers to provide insights into how they have contributed to civilizations At the same time it discusses the lessons learned from people s taming the Yellow River Most significantly the book explores the relationship between humans and the environment from an ethical standpoint making it an urgent reminder of the crucial role that human activities play in environmental issues concerning the Yellow River so as to achieve a sustainable development for China s mother river The intended audience includes academic readers researching East Asian and Chinese history culture geography human geography historical geography the
