Local Knowl Rural Dev Phil Cb:

Creating The Countryside Melanie Dupuis, Peter Vandergeest, 2009 People active in regional environmental crises discuss the destruction conservation and creation of the countryside Integrated Conservation and Development in Tropical America ,2001 **Integrated Rural Development** Jyoti Kumar, 1987 Study in the Indian context *The Politics of Knowledge in Inclusive Development and Innovation* David Ludwig, Birgit Boogaard, Phil Macnaghten, Cees Leeuwis, 2021-10-14 This book develops an integrated perspective on the practices and politics of making knowledge work in inclusive development and innovation While debates about development and innovation commonly appeal to the authority of academic researchers many current approaches emphasise the plurality of actors with relevant expertise for addressing livelihood challenges Adopting an action oriented and reflexive approach this volume explores the variety of ways in which knowledge works paying particular attention to dilemmas and controversies The six parts of the book address the complex interplay of knowledge and politics starting with the need for knowledge integration in the first part and decolonial perspectives on the politics of knowledge integration in the second part The following three parts focus on the practices of inclusive development and innovation through three major themes of learning for transformative change evidence and digitisation The final part of the book addresses the governance of knowledge and innovation in the light of political struggles about inclusivity Exploring conceptual and practical themes through case studies from the Global North and South this book will be of great interest to students scholars and practitioners researching and working in development studies epistemology innovation studies science and technology studies and sustainability studies more broadly *Innovative markets for sustainable agriculture* Food and Agriculture Organization of the United Nations ,2018-07-20 Between 2013 and 2015 the Food and Agriculture Organization of the United Nations FAO and the French National Institute for Agricultural Research INRA undertook a survey of innovative approaches that enable markets to act as incentives in the transition towards sustainable agriculture in developing countries Through a competitive selection process 15 cases from around the world provide insights into how small scale initiatives that use sustainable production practices are supported by market demand and create innovations in the institutions that govern sustainable practices and market exchanges These cases respond to both local and distant consumers concerns about the quality of the food that they eat The book evidences that the initiatives rely upon social values e g trustworthiness health nutrition and food safety food sovereignty promotion of youth and rural development farmer and community livelihoods to adapt sustainable practices to local contexts while creating new market outlets for food products Specifically private sector and civil society actors are leading partnerships with the public sector to build market infrastructure integrate sustainable agriculture into private and public education and extension programmes and ensure the exchange of transparent information about market opportunities The results are i system innovations that allow new rules for marketing and assuring the sustainable qualities of products ii new forms of organization that permit

actors to play multiple roles in the food system e g farmer and auditor farmer and researcher consumer and auditor consumer and intermediary iii new forms of market exchange such as box schemes university kiosks public procurement or systems of seed exchanges and iv new technologies for sustainable agriculture e g effective micro organisms biopesticides and soil analysis techniques The public sector plays a key role in providing legitimate political and physical spaces for multiple actors to jointly create and share sustainable agricultural knowledge practices and products

Australian Aboriginal Studies ,2000 *What About Us? Global Perspectives on Redressing Religious Inequalities* Mariz Tadros,Olumide Adebimpe Aderounmu,Asif Aqeel,Manal Ahmed (Elehemier),Miriam Feldmann Kaye,Mary Gill,Mark Kaahwa,Philip Mader,Matome Jacky Makgoba,Moses Muhumuza,Rebecca Supriya Shah,Timothy Samuel Shah,Katharine Thane,Rifqah Tifloen,Tom Vanwing,2022-10-26 How can we make religious equality a reality for those on the margins of society and politics This book is about the individual and collective struggles of the religiously marginalised to be recognised and their inequalities religious or otherwise redressed It is also about the efforts of civil society governments multilateral actors and scholars to promote freedom of religion or belief whatever shape they take The actors and contexts that feature in this book are as diverse as health workers in Israel local education authorities in Nigeria indigenous movements in India Uganda or South Africa and multilateral actors such as the Islamic Development Bank in Sudan and the World Bank in Pakistan Some of the case studies engage with development discourses and narratives or are undertaken by development actors while other cases operate completely outside the international development paradigm These case studies present some important insights which while highly relevant for their contexts also draw out important insights for academics practitioners activists and others who have an interest in redressing religious inequalities for socioeconomically marginalised populations

Rural Extension, Education and Training Abstracts ,1985 **The Philippine Agricultural Scientist** ,2008

Industrial Crops Improvement Nitish Kumar,2025-01-24 This book explores the different conventional and biotechnological techniques for enhancing the productivity of industrial crops The growth of the industrial crop sector has become a widespread global phenomenon that helps rural livelihoods and propels economic development Contrary to staple crops industrial crops are cultivated with the intention of being sold for a high profit Industrial crops are a crucial component of plans to increase food security because they offer the required stability during periods of economic or climatic crises In order to maintain their livelihood and food security many farm households balance the advantages and disadvantages of producing food crops and industrial crops Avoiding land use rivalry with crops grown for food and feed production is crucial when considering growing industrial crops on agricultural soils The past several years have seen a rise in the awareness of scholars and decision makers regarding the immediate and long term effects of climatic variables on economic food security social and political results In order to sustain food production with more climate resilient crops for future generations genetic variety both natural and artificial is crucial Therefore addressing the problem of finding a compromise between

increasing crop production under a specific set of conditions and reducing the chance of crop failure when conditions change is important and difficult. An assortment of meteorological conditions is used to grow industrial crops. Many are subsistence farmers who run extremely tiny farms with very little agricultural input to produce products that can be sold. It is a significant problem to preserve the variety of these crops and handle all crop culture related difficulties. By offering the knowledge required to minimize the dangers of industrial crop breeding through managing genetic diversity, the author believes that this book will primarily address a need that has not yet been met in this and other grower groups. 1968

A Critical Dictionary of English Literature, and British and American Authors, Living and Deceased, from the Earliest Accounts to the Middle of the Nineteenth Century Samuel Austin Allibone, 1892

CB Review, 1989

The Economics of Integrated Pest Management of Insects David W. Onstad, Philip Crain, 2019-09-02

The book begins by establishing an economic framework upon which to apply the principles of IPM. Then it looks at the entomological applications of economics, specifically economic analyses concerning chemical, biological, cultural, and genetic control tactics, as well as host plant resistance and the cost of sampling. Lastly, it evaluates whether the control provided by a traditional IPM system is sufficient or if changes to the system design would yield greater benefits.

The Hindu Kush Himalaya Assessment Philippus Wester, Arabinda Mishra, Aditi Mukherji, Arun Bhakta Shrestha, 2019-01-04

This open access volume is the first comprehensive assessment of the Hindu Kush Himalaya HKH region. It comprises important scientific research on the social, economic, and environmental pillars of sustainable mountain development and will serve as a basis for evidence-based decision making to safeguard the environment and advance people's well-being. The compiled content is based on the collective knowledge of over 300 leading researchers, experts, and policymakers brought together by the Hindu Kush Himalayan Monitoring and Assessment Programme (HIMAP) under the coordination of the International Centre for Integrated Mountain Development (ICIMOD). This assessment was conducted between 2013 and 2017 as the first of a series of monitoring and assessment reports under the guidance of the HIMAP Steering Committee. Eklavya Sharma (ICIMOD), Atiq Raman (Bangladesh), Yuba Raj Khatriwada (Nepal), Linxiu Zhang (China), Surendra Pratap Singh (India), Tandong Yao (China), and David Molden (ICIMOD and Chair of the HIMAP SC). This First HKH Assessment Report consists of 16 chapters which comprehensively assess the current state of knowledge of the HKH region, increase the understanding of various drivers of change and their impacts, address critical data gaps, and develop a set of evidence-based and actionable policy solutions and recommendations. These are linked to nine mountain priorities for the mountains and people of the HKH.

consistent with the Sustainable Development Goals This book is a must read for policy makers academics and students interested in this important region and an essentially important resource for contributors to global assessments such as the IPCC reports *Political Science, Government & Public Policy Series* Universal Reference System,1970
