Napoli,Minna Aslama,2011-02-01 A synergy between academia and activism has long been a goal of both scholars and advocacy organizations in communications research The essays in Communications Research in Action demonstrate for the first time in one volume how an effective partnership between the two can contribute to a more democratic public sphere by helping to break down the digital divide to allow greater access to critical technologies democratizing the corporate ownership of the media industry and offering myriad opportunities for varied articulation of individuals ideas Essays spanning topics such as the effect of ownership concentration on children s television programming the media s impact on community building and the global consequences of communications research will not only be valuable to scholars activists and media policy makers but will also be instrumental in serving as a template for further exploration in collaboration **Journalism Series** University of Missouri,1929

Channeling Violence James T. Hamilton,2021-04-13 If it bleeds it leads The phrase captures television news directors famed preference for opening newscasts with the most violent stories they can find And what is true for news is often true for entertainment programming where violence is used as a product to attract both viewers and sponsors In this book James Hamilton presents the first major theoretical and empirical

examination of the market for television violence Hamilton approaches television violence in the same way that other economists approach the problem of pollution that is as an example of market failure He argues that television violence like pollution generates negative externalities defined as costs borne by others than those involved in the production activity Broadcasters seeking to attract viewers may not fully bear the costs to society of their violent programming if those costs include such factors as increased levels of aggression and crime in society Hamilton goes on to say that the comparison to pollution remains relevant when considering how to deal with the problem Approaches devised to control violent programming such as restricting it to certain times and rating programs according to the violence they contain have parallels in zoning and education policies designed to protect the environment Hamilton examines in detail the microstructure of incentives that operate at every level of television broadcasting from programming and advertising to viewer behavior so that remedies can be devised to reduce violent programming without restricting broadcasters right to compete Types of News Writing Willard Grosvenor Bleyer,1916 *Media/Society* David Croteau,William Hoynes,2018-08-21 The best text to help students understand the often complicated ever changing relationship between media and society Seong Jae Min Pace University Providing a framework for understanding the relationship between media and society this updated Sixth Edition of Media Society helps students develop the skills they need to critically evaluate both conventional wisdom and their own assumptions about the social role of the media The book retains its acclaimed sociological framework but now includes additional discussions of new research and up to date coverage of today s rapidly changing media landscape Now featuring streamlined content and a more engaging narrative this edition offers expanded discussions of the new media world including digitization the internet the spread of mobile media devices the role of user generated content the potential social impact of new media on society and new media s effect on traditional media outlets Give your students the SAGE edge SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review study and further exploration keeping both instructors and students on the cutting edge of teaching and learning Learn more at edge.sagepub.com croteau6e Bundle and Save Bundle this text with Careers in Media and Communication by Stephanie Smith for only 5 more Use ISBN 9781544361246 **The American Printer** ,1916 *Encyclopedia of journalism. 6.
