Enchantress From The Stars:

, *Enchantress from the Stars*, *Enchantress from the Stars* Sylvia Louise Engdahl, 2009-07-01 A science fiction story of two worlds colliding Elana a member of an interstellar civilization on a mission to a medieval planet becomes the key to a dangerous plan to turn back an invasion

Reflections on Enchantress from the Stars and Other Essays Sylvia Engdahl, 2019-10-31 Here are the author's collected essays about her Newbery Honor book *Enchantress from the Stars* and other Young Adult and adult science fiction novels plus two autobiographical essays Her comments on *Enchantress* deal with issues she would like all its readers to be aware of This is one of three books of essays that replace *Reflections on the Future* Collected Essays which has grown too long and covers too many topics Most of the essays included appeared there so if you already have that book you don't need this one The other two replacement books including a number of new essays are focused on space and on the human mind

Enchantress from the Stars Sylvia Louise Engdahl, 1991 Three civilizations from different planets in widely varying stages of development clash in what could be either a mutually disastrous or beneficial encounter

Selected Essays on Enchantress from the Stars and More Sylvia Engdahl, 2024-05-22 The lead essay in this collection by the author of Newbery honor book *Enchantress from the Stars* deals with issues that she wants readers of the novel to be aware of Too often misinterpretations arise when the story is thought to be an allegory about relations between different cultures of our own world when it is literally about possible relations between different human species of other worlds that have evolved for vastly different lengths of time The two situations are not comparable and assuming that they are leads some readers to think the book endorses a view of cultural relations that was rejected by anthropologists long ago Though much in the story does apply to relationships between individual people of our world as far as culture is concerned its aim is to counter the all too common science fiction view of extraterrestrial aliens either as hostile or as benevolent beings who will step in to solve Earth's problems Whether or not there really are any aliens how young people think of them affects how they feel about the future of humankind The rest of the essays in this book are about the author's other Young Adult novels and about subjects relevant to them such as the importance of space exploration and the reality of psi powers They have been selected from her collections *Reflections on Enchantress from the Stars and Other Essays* the *Future of Being Human and Other Essays* and *From This Green Earth* Essays on Looking Outward two of which are available only as ebooks Because of their length these collections cannot be issued as paperbacks at reasonable prices so this short sampler has been produced for the benefit of readers who have a strong preference for print books and or audiobook The following essays are included *Reflections on Enchantress from the Stars* *Perspective on the Future* *The Quest of Space Age Young People* *Faith as the Focus of Children of the Star* *Update on the Critical Stage* *The Far Side of Evil's Relevance Today* *A Response to Some Reactions to Journey Between Worlds* *Breaking Out from Earth's Shell* *The Role of Psi in Human Affairs* *The Roots of Disbelief in Human Mind* *Powers* *Transhumanism Is a Dead End* *The Worship of Medical Authority* *Why I Don't*

Read Much Science Fiction **From This Green Earth: Essays on Looking Outward** Sylvia Engdahl, 2024-05-03 Sylvia Engdahl became fascinated by the idea of space travel in 1946 and has believed since the early 1950s that expansion of our species to other worlds is vital to the preservation of Earth and the future survival of humankind. Many of the essays in this book express her conviction that we should not be discouraged by the public's reluctance to support space activity since all past human progress has been brought about by visionaries who did not have the backing of their contemporaries. The shock of realizing during the moon landings that contact with the vast and perhaps peril-fraught universe is no longer mere fiction dampened the enthusiasm of the majority but this was a natural reaction comparable seventeenth-century people's resistance to the idea that Earth is not as formerly thought safely enclosed within crystal spheres that hold up the celestial bodies. It will pass and we need have no doubt that generations who come after us will venture forth from this green Earth and find their way to the stars. The following essays are included: The Once and Future Dream, new Thoughts on the 50th Anniversary of the First Moon Landing, Breaking Out from Earth's Shell, Why Does the History of Outlook Toward Space Matter, Confronting the Universe in the Twenty-First Century, Space and Human Survival, The Only Sensible Way to Deal with Climate Change, Update on the Critical Stage, The Far Side of Evil's Relevance Today, Space Colonization, Faith and Pascal's Wager, Why There Will Never Be an Interplanetary War, Humankind's Future in the Cosmos.

Envoy of the Flame Sylvia Engdahl, 2022-09-19 Ardith Moran is elated by the prospect of contact with extraterrestrial civilizations, elated enough to stake her life on her conviction that they exist after the exploratory expedition's leaders turn back. The last thing she expects is to fall in love with an alien much less for their love to play a key role in saving Earth from tyranny and eventual ruin. As a member of the Anthropological Service, he is willing to make sacrifices and expects her to do the same. Can she, influenced by the legacy of the now legendary Captain of Estel, convince Earthborn people that they can't retreat from the universe? Or will Earth's authorities succeed in killing her to suppress the evidence, only she and her fellow envoys can provide. Please note: The original edition of this book, published in June 2021, which has a woman's face on the cover, has been withdrawn. This is a revised edition published in September 2022.

Defender of the Flame Sylvia Engdahl, 2013-04-15 Starship pilot Terry Radnor is elated to be among those chosen to defend the secret colony Maclairn against enemies who pose a threat to the spread of paranormal human mind powers. He commits himself wholly to the goal of that world, not guessing how far his effort to protect it will take him from everything else he cares about: his promising career as a Fleet officer, contact with people who share his newly discovered psi capability, his wife and unborn child. Torn away against his will after learning a secret too deep for its disclosure to be risked, he is forced into exile from all that has previously mattered to him and must build a perilous new life far from Maclairn, grounded without hope of fulfilling his earlier pledge. Yet a mysterious and extraordinary destiny has been predicted for Terry, and against all odds fate puts him in place to confront the colony's greatest peril.

Children of the Star: The Complete Trilogy Sylvia Engdahl, 2012-06-15 An omnibus edition containing the

complete trilogy This Star Shall Abide known in the UK as Heritage of the Star Beyond the Tomorrow Mountains and The Doors of the Universe Noren can see that his world is not as it should be it is wrong that only the Scholars and their representatives the Technicians can use metal tools and Machines It s wrong that only those few have access to the impenetrable City which he has always longed to enter Above all it is wrong for the Scholars to have sole power over the distribution of knowledge Unable to believe in the Prophecy that promises these restrictions will someday end he declares it to be a fraud and defies the High Law under which they are enforced His family and the girl to whom he is betrothed reject him Yet he cannot turn back from the path that leads him to the mysterious fate awaiting heretics But the more he learns of the grim truth about his people s deprivations the less possible it seems that their world can be changed And once he discovers what really happened in their past he becomes convinced that it is up to him to restore their rightful heritage To do so however will mean giving up all else that matters to him for it will demand more drastic steps than anyone has imagined

Promise of the Flame Sylvia Engdahl,2022-02-25 Three hundred people isolated on a raw new planet in the hope that their psi powers will become the foundation of a culture that can someday shape the future of humankind If they don t starve first If they don t lose heart in the face of hardships beyond any they imagined And if their kids can be reared to believe in the dream and advance both their technology and their psi powers from one generation to the next Starship Captain Jesse Sanders hasn t expected to be responsible for the settlement Peter is the leader the visionary on whose inspiration they all depend But Peter has his hands full not only with maintaining morale but with grueling ordeals of his own So the job of ensuring the colony s survival falls on Jesse And in the end he must stake his life in a desperate attempt to prevent the loss of all they have gained This is a sequel to Stewards of the Flame but it can be read independently Unlike Engdahl s other earlier novels it is not a YA book and is not appropriate for middle school readers Journey Between Worlds Sylvia Engdahl,2006-03-01 Melinda Ashley has a plan for her life and a trip to Mars isn t part of it When she receives a spaceliner ticket as a high school graduation gift from her dad she is dismayed but reluctantly agrees to go with him in part because she s infuriated by her fiance s high handed declaration that she can t Her outlook begins to change when she meets Alex Preston a second generation Martian colonist who is going home after college on Earth Alex believes settling Mars is important He s looking forward to the role he expects to play in the colony s future Melinda finds this hard to understand yet she is more and more drawn to him and while on Mars to his family Torn between what she has always wanted and upsetting new feelings she wonders if she can ever again be content It takes tragedy and a terrifying experience on the Martian moon Phobos to make her aware of what really matters to her Stewards of the Flame Sylvia Engdahl,2022-02-25 When starship captain Jesse Sanders is detained by a dictatorial medical regime on the colony planet Undine he is plunged into a life involving ordeals and joys unlike anything he has ever imagined Herald of the Flame Sylvia Engdahl,2014-10-15 As captain of his own starship Estel Terry Steward born Terry Radnor is committed to spreading acceptance of psi powers and other advanced

mind capabilities throughout the colonies of humankind Barred from contact with his beloved planet Maclairn he now journeys from world to world heralding the hopeful future about which he alone knows the full truth But the opponents of mind powers are gaining strength and on Earth the persecution of people who develop such abilities is increasing Soon targeted by bounty hunters Terry risks everything that matters to him in a desperate attempt to defeat Maclairn s enemies not guessing that if he lives long enough he is destined for an even greater role in human history than he has played as a defender of its cause **This Star Shall Abide aka Heritage of the Star** Sylvia Engdahl,2010-01-01 This book is known in the UK as Heritage of the Star Noren can see that his world is not as it should be it is wrong that only the Scholars and their representatives the Technicians can use metal tools and Machines It s wrong that only those few have access to the impenetrable City which he has always longed to enter Above all it is wrong for the Scholars to have sole power over the distribution of knowledge Unable to believe in the Prophecy that promises these restrictions will someday end he declares it to be a fraud and defies the High Lew under which they are enforced His family and the girl to whom he is betrothed reject him Yet he cannot turn back from the path that leads him to the mysterious fate awaiting heretics This classic science fiction novel is enjoyed by readers age 12 and up as well as by teens and adults who go on to read the other two books in the Children of the Star trilogy Originally published in hardcover by Atheneum in the US and by Gollancz in the UK under the title Heritage of the Star it was the winner of a Christopher Award given for affirmation of the highest values of the human spirit *Children's Books and Their Creators* Anita Silvey,1995 Unique in its coverage of contemporary American children s literature this timely single volume reference covers the books our children are or should be reading now from board books to young adult novels Enriched with dozens of color illustrations and the voices of authors and illustrators themselves it is a cornucopia of delight 23 color 153 b w illustrations **Read for Your Life** Gladys Hunt,Barbara Hampton,1992 Most teens already know what wealth and just plain fun books contain What is sometimes missing is the encouragement to make time for reading in the middle of a busy life Getting excited about books is contagious and so is the reading habit The whole family needs all the encouragement it can get especially teenagers Read for Your Life is more than inspiration to read Gladys Hunt discusses how to read a book what makes a good book what questions to ask and how to discern between good better and best She has a way of making you want to read while helping you to make the most of the opportunity To help you choose what to read Barbara Hampton has reviewed more than 300 books Her recommendations run the gamut from classics like A Tale of Two Cities to contemporary fiction like A Ring of Endless Light from literary greats like Sir Arthur Conan Doyle and Alan Paton to moderns like Katherine Paterson and Chaim Potok The book contains Pointers on becoming a more perceptive reader Tips on how to enjoy poetry fantasy and fiction An annotated list of over 300 book recommendations Hundreds of plot synopses A complete index to authors and titles **The Far Side of Evil** Sylvia Engdahl,2003-03-01 On completion of her training as an agent of the interstellar federation s Anthropological Service Elana is sent to a world whose people may soon

destroy their civilization Since not enough is understood about the situation to justify any interference with their evolution the Service has no power to act its agents must go as helpless observers posing as natives in the hope of gaining knowledge that may help to save other worlds This passive role proves intolerable to the young inexperienced agent assigned to the same city as Elana a city under totalitarian rule After falling in love with a local girl who has become Elana s closest friend he identifies too completely with the natives and unwittingly endangers the entire world by a well meant but ill advised attempt to intervene Forced to assume responsibility for undoing the damage Elana finds that only she at great cost can prevent an immediate war of annihilation Although this novel has the same heroine as the author s Newbery Honor book *Enchantress from the Stars* it is not a sequel but a completely separate and very different story not intended for readers below high school age which is also enjoyed by adults The two books are in no way dependent on each other and can be read in either order

Dreams and Decisions: Student text Carl Bernard Smith,1980 *The Planet-Girded Suns: Our Forebears' Firm Belief in Inhabited Exoplanets* Sylvia Engdahl,2012-06-01 Interest in exoplanets the worlds of other stars is not new From the late 17th century until the end of the 19th almost all educated people believed that the stars are suns surrounded by inhabited planets a belief that was expressed not in science fiction but in serious speculation both scientific and religious as well as in poetry Only during the first half of the 20th century was it thought that life bearing exoplanets are rare This is not a science book rather it belongs to the category known as History of Ideas First published by Atheneum in 1974 it tells the story of the rise fall and eventual renewal of widespread conviction that we are not alone in the universe In this 2012 updated edition the chapters dealing with modern speculation have been revised to reflect the progress science has made during the past 40 years including the actual detection of planets orbiting other stars However it is not intended to be more than a brief introduction to today s views its focus is on little known facts about those of the past Why should we care what our forebears believed Now the question of ET life is a matter for investigation by science Yet it s significant that most educated people of past centuries were convinced that other inhabited worlds exist without any scientific evidence whatsoever This historical fact reveals that human beings have an instinctive sense of kinship with the wider universe and a desire to see the realms that lie beyond this one small planet and perhaps eventually to go there Our ancestors conceived of such voyages only in a spiritual sense as occurring after death But we who have taken our first small steps into space are aware that our descendants may set foot on the worlds of other suns Just as in the 17th century people were initially upset by the new knowledge that the stars are suns scattered in space rather than lights fixed to a nearby sphere the growing awareness that Earth is not safely isolated from whatever lies beyond makes many of our contemporaries uneasy Thus today s predominant feelings about spaceships are ambivalent Nevertheless if an impulse toward belief that we are not alone in the universe is indeed an innate characteristic of human beings as the past spread of belief in inhabited exoplanets suggests we can be sure that those who follow us will not turn back from becoming spacefarers
