Religion and War from Antiquity to Early Modernity Irene Polinskaya,Alan James,Ioannis

Papadogiannakis,2024-11-28 Responding to the profound challenges of our times this book provides a comparative and cross cultural exploration of the role of religion in war in a long historical perspective from the second millennium BCE and even earlier up to early modernity Individual chapters focus on the ancient Near East the Mediterranean basin Europe and North Africa Widely diverse case studies explore the historic link between the conduct of war and the growing complexity of human society conditioned by the ownership of ideological authority The book explores how in most historical societies this authority was religious Written by experts from different disciplinary perspectives the volume challenges common assumptions about the historical relationship between religion and war and extends our understanding of the dangers and complexities of today s world

War and Religion Arnaud Blin,2019-03-19 The resurgence of violent terrorist organizations claiming to act in the name of God has rekindled dramatic public debate about the connection between violence and religion and its history Offering a panoramic view of the tangled history of war and religion throughout Europe and the Mediterranean War and Religion takes a hard look at the tumultuous history of war in its relationship to religion Arnaud Blin examines how this relationship began through the concurrent emergence of the Mediterranean empires and the great monotheistic faiths

Moving through the Middle Ages and the Renaissance and into the modern era Blin concludes with why the link between violence and religion endures For each time period Blin shows how religion not only fueled a great number of conflicts but also defined the manner in which wars were conducted and fought **War and Religion** Jeffrey M. Shaw Ph.D., Timothy J. Demy,2017-03-27 This three volume reference provides a complete guide for readers investigating the crucial interplay between war and religion from ancient times until today enabling a deeper understanding of the role of religious wars across cultures Containing some 500 entries covering the interaction between war and religion from ancient times the three volume War and Religion An Encyclopedia of Faith and Conflict provides students with an invaluable reference source for examining two of the most important phenomena impacting society today This all inclusive reference work will serve readers researching specific religious traditions historical eras wars battles or influential individuals across all time periods The A Z entries document ancient events and movements such as the First Crusade that began at the end of the 10th century as well as modern day developments like ISIS and Al Qaeda Subtopics throughout the encyclopedia include religious and military leaders or other key people ideas and weapons and comprehensive examinations of each of the major religious traditions views on war and violence are presented The work also includes dozens of primary source documents each introduced by a headnote that enable readers to go directly to the source of information and better grasp its historical significance The in depth content of this set benefits high school and college students as well as scholars and general readers **War and Religion after Westphalia, 1648-1713** David Onnekink,2016-03-03 Many historians consider the Peace of Westphalia which ended the Thirty Years War in 1648 to mark a watershed in European international relations It is generally agreed that Westphalia brought to an end more than a century of religious conflicts and marked the beginning of a new era in which secular power politics was the prime motivating factor in international relations and warfare The purpose of this volume is to question this assumption and reconceptualise the relationship between war foreign policy and religion during the period 1648 to 1713 Some of the contributions to the volume directly challenge the idea that religion ceased to play a role in war and foreign policy Others confirm the traditional view that religion did not play a dominant role after 1648 but seek to re evaluate its significance and thereby redefine religious influences on policy in this period By exploring this issue from various perspectives the volume offers a unique opportunity to reassess the influence of religion in international politics It also yields deeper insights into concepts of secularisation and complements the research of many social and cultural historians who have begun to challenge the idea of a decline in the influence of religion in domestic politics and society By matching the relationship between conflict and religion with this scholarship a more nuanced appreciation of the European situation begins to emerge **The European Wars of Religion** Wolfgang Palaver,Harriet Rudolph,Dietmar

Regensburger,2016-12-05 In recent years religion has resurfaced amongst academics in many ways replacing class as the key to understanding Europe s historical development This has resulted in an explosion of studies revisiting issues of

religious change confessional violence and holy war during the early modern period But the interpretation of the European wars of religion still remains largely defined by national boundaries tied to specific processes of state building as well as nation building In order to more thoroughly interrogate these concepts and assumptions this volume focusses on terms repeatedly used and misused in public debates such as religious violence and holy warfare within the context of military conflicts commonly labelled religious wars The chapters not only focus on the role of religion but also on the emerging state as a driver of the escalation of violence in the so called age of religious war By using different methodological and theoretical approaches historians philosophers and theologians engage in an interdisciplinary debate that contributes to a better understanding of the religio political situation of early modern Europe and the interpretation of violent conflicts interpreted as religious conflicts today By adopting a multi disciplinary approach new and innovative perspectives are opened up that question if in fact religion was a primary driving force behind these conflicts

Beyond “Holy Wars” Christoffer H. Grundmann,2014-04-23 The 9 11 al Qaeda attacks on the U S in 2001 shocked the world not only because of their viciousness but also because of the disillusionment that holy wars are a phenomenon of the past Holy wars rather are a reality in today s world too threatening global peace like never before In this volume Christoffer Grundmann pleads for the cultivation of religious literacy and interreligious dialogue First he attempts to regain an adequate understanding of religion by showing the incompatibility of abstract concepts of religion with religions actually lived So Grundmann suggests perceiving religion as the lived relationship toward an Ultimate Given that interreligious dialogue is communication about diverse ways of relating to the Ultimate the religiously embedded primarily Jewish philosophy of encounter and dialogical thinking with its personalistic nature comes into focus here as uniquely suited for such communication Even though interreligious encounter implies risk Christians cannot but engage in it fearlessly says Grundmann because they trust that the risen Christ will reveal himself anew as the one he really is wherever and whenever Christians take part in dialogue with people of other faiths

Jakob Herzog, Albert Hauck, Samuel Macauley Jackson, Charles Colebrook Sherman, George William Gilmore, 1911 Stress of War, Conflict and Disaster George Fink, 2010-11-25 Stress is a universal phenomenon that impacts adversely on most people Following on the heels of Stress Science Neuroendocrinology and Stress Consequences Mental Neuropsychological and Socioeconomic this third derivative volume will provide a readily accessible and affordable compendium that explains the phenomenon of stress as it relates physically and mentally to war conflict and disaster The first section will be dedicated to study of the link between stress and various forms of conflict Specific instances of conflict will be discussed the Gulf wars Korea Hiroshima bombing the Holocaust 9 11 Northern Ireland terrorism in general torture The second section will explore the stress impact of more general physical disasters such as airline and vehicle accidents earthquakes floods and hurricanes The final section will focus on the clinical relationship between conflict stress and various mental diseases PTSD suicide disaster syndrome etc as well as the adverse impact of stress on human physical health in general Comprised of about 100 top articles selected from Elsevier's Encyclopedias of Stress the volume will provide a valuable desk reference that will put relevant articles readily at the fingertips of all scientists who consider stress Chapters offer impressive and unique scope with topics addressing the relationship between stress generated by war conflict and disaster and various physical mental disorders Richly illustrated with over 200 figures dozens in color Articles carefully selected by one of the world's most preeminent stress researchers and contributors represent the most outstanding scholarship in the field with each chapter providing fully vetted and reliable expert knowledge Fighting Words Hector Avalos, Is religion inherently violent If not what provokes violence in the name of religion Do we mischaracterize religion by focusing too much on its violent side In this intriguing original study of religious violence Prof Hector Avalos offers a new theory for the role of religion in violent conflicts Starting with the premise that most violence is the result of real or perceived scarce resources Avalos persuasively argues that religion creates new scarcities on the basis of unverifiable or illusory criteria Through a careful analysis of the fundamental texts of Judaism Christianity Islam and Hinduism Dr Avalos explains how four scarce resources have figured repeatedly in creating religious violence sacred space e g the perception by three world religions that Jerusalem is sacred the creation of holy scriptures believed to be privileged revelations of God's will group privilege stemming from such beliefs as a chosen people or predestination which also creates a group of outsiders and salvation by which concept some are accepted and others rejected Thus Avalos shows religious violence is often the most unnecessary violence of all since the scarce resources over which religious conflicts ensue are not actually scarce or need not be scarce Comparing violence in religious and nonreligious contexts Avalos makes the compelling argument that if we condemn violence caused by scarce resources as morally objectionable then we must consider even more objectionable violence provoked by alleged scarcities that cannot be proven to exist He also examines the Nazi Holocaust and the Stalinist Terror which have been attributed to the pernicious effects of atheism or secular humanism By contrast Avalos pinpoints underlying religious factors as the cause of these

horrific instances of genocidal violence This serious philosophical examination of the roots of religious violence adds much to our understanding of a perennial source of widespread human suffering Hector Avalos Ames IA is associate professor of Religious Studies at Iowa State University the author of five books on biblical studies and religion the former editor of the Journal for the Critical Study of Religion and executive director of the Committee for the Scientific Examination of Religion

The Jewish Imperial Imagination Yaniv Feller,2023-11-09 Leo Baeck 1873 1956 was a rabbi public intellectual and the official leader of German Jewry during the Holocaust The Jewish Imperial Imagination shows the myriad ways in which the German imperial enterprise left its imprint on his religious and political thought and on modern Judaism more generally This book is the first to explore Baeck s religious thought as political and situate it within the imperial context of the period which is often ignored in discussions of modern Jewish thought Baeck s work during the Holocaust is analysed in depth drawing on unpublished manuscripts written in Nazi Germany and in the Theresienstadt Ghetto In the process Yaniv Feller raises new questions about the nature of Jewish missionizing and the German Jewish imagination of the East as a space for colonisation He thus develops the concept of the Jewish imperial imagination moving beyond a simple dichotomy of ascribing to or resisting hegemonic narratives
