Coppa, 2002-11-30 Concentrating on the most important popes this work provides an overview of one of the oldest and most influential institutions in the world Notable popes are analyzed in comprehensive entries divided into five historical sections Early Medieval Renaissance and Reformation Early Modern Modern Section introductions place the popes in historical perspective and include general bibliographic references for the entire age Individual essays provide specific bibliographic references Unlike multivolume references that cover all of the popes this source focuses exclusively on popes who played crucial roles not only in the institution of the papacy itself but also in European and world events Beginning with Peter and ending with John Paul II the contributors to this volume offer a wealth of information They provide insight into the institution of the papacy and its outstanding members Combining fact explanation and analysis the essays provide readers with a detailed understanding of the ways in which the papacy and these individuals have influenced world events throughout the centuries

Dictionary of Popes and the Papacy Bruno Steimer, 2001 This first installment of the Encyclopedia of Theology and Church is the best one volume reference work on the popes and the papacy Part one covers every pope and antipope part two discusses the institution of the Vatican and the papacy *The Pope Encyclopedia* Matthew Bunson, 1995 Containing more than 2 000 entries in handy alphabetical format this provocative illustrated book explores the whole lively and entertaining history of the Vatican and its rulers Politics and the Papacy in the Modern World Frank J. Coppa, 2008-06-30 The outbreak of the French Revolution and the Industrial Revolution at the turn of the nineteenth century transformed the world and ushered in the modern age whose currents challenged the traditional political order and the prevailing religious establishment The new secular framework presented a potential threat to the papal leadership of the Catholic community which was profoundly affected by the rush towards modernization In the nineteenth century the transnational church confronted a world order dominated by the national state until the emergence of globalization towards the close of the twentieth century Here Coppa focuses on Rome's response to the modern world exploring the papacy's political and diplomatic role during the past two centuries He examines the Vatican's impact upon major ideological developments over the years including capitalism nationalism socialism communism modernism racism and anti-Semitism At the same time he traces the continuity and change in the papacy's attitude towards church state relations and the relationship between religion and science Unlike many earlier studies of the papacy which examine this unique institution as a self contained unit and concentrate upon its role within the church this study examines this key religious institution within the broader

framework of national and international political diplomatic social and economic events Among other things it explores such questions as the limits to be placed on national sovereignty the Vatican s critique of capitalism and communism the morality of warfare and the need for an equitable international order *The Pope Encyclopedia* Matthew Bunson,1999-06-01 *The Great Popes Through History* Frank J. Coppa,2002 Unlike other references that cover all the popes or the papacy in general with only examples from various popes the two volume encyclopedia presents longer and more detailed articles about those deemed to have most influenced the development of the church and the course of history The arrangement is by period early from Peter through Pelagius 590 medieval from Gregory I through Boniface VIII 1303 Renaissance and Reformation from Benedict XI through Pius IV 1565 early modern from Pius V through Clement XIV 1774 and modern from Pius VI through John Paul II The two volumes are pagged and indexed together Bibliographies are entry specific Annotation copyrighted by Book News Inc Portland OR **The Papacy: Gaius-Proxies** Philippe Levillain,John W. then throughout the United States The Spirit of Enthusiasm examines the historical development of the American Catholic Charismatic Renewal from the early influences of the Spanish Cursillo movement through the initial baptism in the spirit event at Duquesne University in 1967 and the Renewal's subsequent development through the end of the 20th century The influence of the Second Vatican Council on the movement and changes both within the movement itself as well as in its relationship with the church are explored Similarities to and differences from the Protestant Pentecostal movement of the 20th century and the nature of Charismatic spirituality are also examined
