definitions Acknowledgment of the psychology body connection of an emotional disturbance primarily and the appearance of a related physical disease The presentation of health formulas in which signs and planets that represent a disease are clearly distinguished from those that represent the mind and body parts affected To demonstrate how the formulas work disease patterns from charts have been included and associated birth chart data so readers can erect charts and see for themselves what is being explained The inclusion of Esoteric and Eastern spiritual notions and terms This expands exoteric astrology into wider fields of knowledge

**Some Principles of Horoscopic Delineation** Charles E.O. Carter,2009-06 Most text books including the one for which I am personally responsible are mainly of an analytical character and do not attempt to guide the reader far along the path that leads to proficiency in horoscopic delineation In fact few attempts have been made to attack this problem and for a good reason it is so difficult Delineation is an art and it cannot be taught as one teaches merely factual knowledge It comes with experience if the student have the right inborn aptitudes that is all that can be said However there seems to me to be a sort of border land that lies beyond the realms of purely text book teaching and yet is within the scope of instruction No one can make a student into a good delineator and on the other hand almost anyone with moderate teaching ability can inculcate the alphabet of astrology between these two extremes there is a field wherein I think experience can help inexperience and some general principles can be formulated and explained This is what I have attempted here illustrating my ideas in separate chapters that deal with important classes of psychological condition This book is designed to follow The Principles of Astrology and may be read in conjunction with The Astrological Aspects and The Encyclopaedia of Psychological Astrology Charles E O Carter

**The Zodiac and the Soul** Charles E.O. Carter,2010-05 In this book Charles Carter 1887 1968 shows how the Zodiac of twelve constellations describes an ideal world In other words how the soul the ideal reveals itself in astrological terms In the process Carter invents a new form of rulerships based on the traditional exaltations which includes the outer planets Carter also teases us with his unpublished system of numerology which was based on 12 rather than the usual 10 As astrology is based around the numbers 2 3 4 and 12 not 5 or 10 a base 12 number system is of immediate interest Realizing his subject was abstract and unlikely to appeal to all Carter also includes innovative ideas on directing and on transits The result is a book that fascinates on many levels Charles E O Carter one of the leading astrologers of the 20th century was President of the Astrological Lodge at the Theosophical Society from 1920 to 1952 He was first Principal of the Faculty of Astrological Studies which he helped found in

1948 He edited The Astrologer s Quarterly from 1926 until 1959 The Zodiac and the Soul was first published in 1928 with revisions in 1947 1960 and 1968 the year of his death
