gradually be transcended Each chapter starts with a sketch of a particular concept whose humanistic yet quantum mechanical context lets us identify with it and be mystified by it From the concepts of sound and light to the concepts of consciousness and coexistence each concept tale depicts a personal expression of our mutual worldview Third each one of the ten chapters concludes with a short sci fi story These stories project the theme further and subtly point to each other As we connect the dots from one story to another the outline reveals a world that makes us wonder whether we are headed toward its future or whether we will bypass it as an alternate universe In one story we meet the inventor of mind reading technology while in another story we meet an artificial life form that will be made possible by this technology Yet another story is about the time traveling mind of an astrophysicist whose life s work has impacts on whole timelines as revealed by a different story In the end it all comes together with the final piece of the puzzle completing not only the short story series but also the novel as a whole Each three part chapter is a triad with a distinct purpose in mind We begin the journey with our own curiosity This basic emotion allows us to open the door to that which we are so curiously seeking Essentially that covers everything In questioning the entirety of existence we commence with the premise that it is the element of life that sends us on a quest for meaning So we review the trend of life s evolution on Earth from its roots to the present day and follow this trend into the distant future The process of evolutionary development leads us to a recipe for one s own personal progress which is comprised of physical mental and spiritual ingredients It soon becomes clear that a species can change only insofar as its individual members embrace this change And we realize that our choice in the matter has impacts not only on our own future but also on the future of everyone who shares our timeline In some ways Concept Progress is a modern commentary of Charles Darwin s revolutionary theory of evolution In other ways it is an encouraging observation of our humble human existence As we widen the time scale and follow an evolutionary trend from biological social and cosmic angles the concepts of evolution and progress slowly but surely become synonymous

Star Trek: Designing Starships Volume 4: Discovery Ben Robinson, Marcus Riley, Matt McAllister, 2019-09-03 A chronological history of the Klingon fleet from the Star Trek television programs and films including the TV series Star Trek Discovery

The Literary Galaxy of Star Trek James F. Broderick, 2006-04-18 How is the android Data like Shakespeare s character Hamlet Is the vengeful Khan original series episode Space Seed and the film Star Trek II The Wrath of Khan an echo of Captain Ahab in Moby Dick The links between Star Trek and literature are vast themes and characters that reflect those in classic literature characters that quote literature in their dialog and an enormous body of nonfiction books novels articles that have grown from the saga Finally like literature Star Trek seeks to help in the human endeavor of understanding the world and its place in the universe This book explores all of those connections The Next Generation s Captain Picard frequently quotes Shakespeare Captain Janeway from Voyager reenacts literature in holodeck novels Jake Sisko son of Deep Space Nine s Commander Benjamin Sisko becomes an award winning writer Beginning with Captain James T Kirk s first appearance in the original series then continuing through four

subsequent series and ten movies this book draws parallels between Star Trek stories and literary classics such as Hamlet Paradise Lost Ulysses Dracula and the New Testament and works by the likes of Booker T Washington Edgar Allan Poe and William Shakespeare Appendices list the literary works discussed and the episodes and movies mentioned each giving the chapters where references can be found
