Water-Related Death Investigation Kevin L. Erskine, Erica J. Armstrong, 2010-10-25 All too often police called to the scene of a water related death may consider it an accidental drowning before they even arrive But the investigation of these types of deaths requires the same careful and thorough documentation as in other potentially non natural deaths and these efforts must be carried through all stages of investigation Water

SPUMS Journal, 1995 **Back from the Deep** Doug Horner, 2024-03-12 The dramatic story of an unlikely search and recovery duo who help law enforcement and grieving families with their uncanny knack for locating bodies underwater A powerful debut for fans of deeply reported stories that follow real people with obsessional passions and of authors like Tracy Kidder Sebastian Junger and Patrick Radden Keefe When the police and FBI exhaust their abilities and options and when grieving families run out of resources their last best hope has been an Idaho couple who have spent their retirement years pursuing lost causes and have located 130 victims from lakes and rivers across the United States and

Canada Gene and Sandy Ralston a married Idaho couple in their mid 70s are self taught underwater search and recovery specialists who volunteer their time and equipment And yet the Ralstons are counted among the best in the world The Ralstons have an uncanny knack for finding bodies in deep water and can regularly find a missing person within hours sometimes even minutes of launching their boat Law enforcement and emergency response agencies seek out their peculiar expertise but when the Ralstons home phone rings it s usually a family member of a missing person Someone reaching out after the local police and volunteer groups have called off the official search Someone who heard from a friend of a friend about a couple from Idaho who will travel thousands of miles at the drop of a hat charging only their travel costs to help complete strangers

The Encyclopedia & Guide to Diving with a Full Face Mask Matthew W. Robinson,2012-10 Diving is an exciting sport as well as a requirement of some vocations such as commercial diving military diving public safety diving and scientific diving In sport diving most learn to dive with a half mask to cover their eyes and nose A second stage regulator supplies their breathing gas air This method of diving is safe simple and time tested over the last half century The diving scenarios that appear throughout this guide are actual situations that occurred to divers The author spoke with these divers and recorded their experiences for the educational benefit of the reader The scenarios are described as the author interpreted each of the experiences All the divers and the people that might be

associated with their dive experience should not be faulted for any bad situations they came to be in Every person has had some type of mishap in life and the purpose for sharing these scenarios is to teach and help avoid future incidents that might cost someone their life Manual of Forensic Taphonomy James T. Pokines, Ericka N. L'Abbe, Steven A. Symes, 2021-12-30

The main goals in any forensic skeletal analysis are to answer who is the person represented individualization how that person died trauma pathology and when that person died the postmortem interval or PMI The analyses necessary to generate the biological profile include the determination of human nonhuman or nonosseous origin the minimum number of individuals represented age at death sex stature ancestry perimortem trauma antemortem trauma osseous pathology odontology and taphonomic effects the postmortem modifications to a set of remains The Manual of Forensic Taphonomy Second Edition covers the fundamental principles of these postmortem changes encountered during case analysis Taphonomic processes can be highly destructive and subtract information from bones regarding their utility in determining other aspects of the biological profile but they also can add information regarding the entire postmortem history of the remains and the relative timing of those effects The taphonomic analyses outlined provide guidance on how to separate natural agencies from human caused trauma These analyses are also performed in conjunction with the field processing of recovery scenes and the interpretation of the site formation and their postdepositional history The individual chapters categorize these alterations to skeletal remains illustrate and explain their significance and demonstrate differential diagnosis among them Such observations may then be combined into higher order patterns to aid forensic investigators in determining what happened to those remains in the interval from death to analysis including the environment s in which the remains were deposited including buried terrestrial surface marine freshwater or cultural contexts Features Provides nearly 300 full color illustrations of both common and rare taphonomic effects to bones derived from actual forensic cases Presents new research including experimentation on recovery rates during surface search timing of marine alterations trophy skulls taphonomic laboratory and field methods laws regarding the relative timing of taphonomic effects reptile taphonomy human decomposition and microscopic alterations by invertebrates to bones Explains and illustrates common taphonomic effects and clarifies standard terminology for uniformity and usage within in the field While the book is primarily focused upon large vertebrate and specifically human skeletal remains it effectively synthesizes data from human ethological geological paleontological paleoanthropological archaeological artifactual and zooarchaeological studies Since these taphonomic processes affect other vertebrates in similar manners The Manual of Forensic Taphonomy Second Edition will be invaluable to a broad set of forensic and investigative disciplines **Encyclopedia of Caribbean Archaeology** Basil A. Reid, R. Grant Gilmore III, 2014-03-04 Encyclopedia of Caribbean Archaeology offers a comprehensive overview of the available archaeological research conducted in the region Beginning with the earliest native migrations and moving through contemporary issues of heritage management the contributors tackle the usual questions of colonization adaptation and

evolution while embracing newer research techniques such as geoinformatics archaeometry paleodemography DNA analysis and seafaring simulations Entries are cross referenced so that readers can efficiently access data on a variety of related topics The introduction includes a survey of the various archaeological periods in the Caribbean as well as a discussion of the region s geography climate topography and oceanography It also offers an easy to read review of the historical archaeology providing a better understanding of the cultural contexts of the Caribbean that resulted from the convergence of European Native American African and then Asian settlers

Manual of Forensic Taphonomy James Pokines, Steven A. Symes, 2013-10-08 Forensic taphonomy is the study of the postmortem changes to human remains focusing largely on environmental effects including decomposition in soil and water and interaction with plants insects and other animals While other books have focused on subsets such as forensic botany and entomology Manual of Forensic Taphonomy is the first update of

Encyclopedia of the Archaeology of Ancient Egypt Kathryn A. Bard, 2005-11-03 This is the first reference work in English ever to present a systematic coverage of the archaeology of this region from the earliest finds of the Palaeolithic period through to the fourth century AD
