Zimbabwe. Parliament,2012     **The Translocal Geography of Lodging in Urban Zimbabwe** Miriam R. Grant,Arja Vainio-Mattila,2024-11-16 This book will argue that lodging is a hugely ignored largely invisible but critical sector of housing provision and economic contributor of burgeoning African cities It further connects the rural and the urban challenging traditional definitions of locationally bound communities Lodgers create micro local and translocal communities and the lodging system offers livelihood strategies Rather than engage in the dominant portrayal of rural urban as binary dichotomous space we maintain that lodging represents and supports the translocal community and relational networks of the extended family as it seeks to maximize access to resources     **Imire** Catherine Buckle,2018-02-03 A lion in the garden and a crocodile in the swimming pool an otter called Potter and a hippo called Maggie that lived in the dam and snacked on half a loaf of bread and a bottle of beer Hand rearing elephants and leopards Norman Travers was a decorated war hero and visionary conservationist Norman and Gill Travers built up Imire Game Park in Zimbabwe at a time when the country was ravaged by war When black rhinos were being decimated by poaching Norman introduced them to Imire reared the calves and released them back to the wild winning a Wildlife Oscar for his efforts A humorous account of a remarkable man who loved life and his family loved animals and above all loved his country     **New International Encyclopedia** ,1916

**Zimbabwe** Deborah Helen Potts, Deborah Potts, 1993 *Rick the Rhino* Dr. Ross Gordon Cooper, 2015-07-18 Rhino occupy a unique part of the food chain and wide niches in specific ecosystems in which they have developed their own behaviour patterns and interactions with other species They form an essential part of the animal kingdom and their loss would have significant ramifications for other dependant flora and fauna The large numbers of rhino orphans and the loss of pregnant females are decimating wild rhino populations This decline is mainly due to poaching for their horns that are made of keratin and which have no proven medical benefit to humans Greedy markets in China Vietnam and Yemen and criminal syndicates offer extremely high prices for rhino horn making it more valuable than gold Whilst tackling the poachers head on is essential it is sadly not enough and vigorous education programmes need to be put in place to inform people of the ecological economic aesthetic and touristic value of rhino This book is dedicated to the plight all rhino species face including museum specimens and fossils *In Pursuit of Doris Lessing* Claire Sprague, 1990-06-14 The phenomenon of Doris Lessing's global reputation and readership is addressed for the first time in *In Pursuit of Doris Lessing* through a series of essays that also provide a provocative overview of Lessing's long career from *The Grass Is Singing* the first of a series of African and woman centered politically radical works to her latest galactic and politically conservative works Nine different Lessings emerge from these essays forcing us to question received propositions about the universality of literature and the stability of the text and uncovering and recovering in the process the pungent variable controversial Lessing who has been and remains as international and transcultural as she is African and English
