**Founders of Freedom in America** David B. Corson,2015-07-07 Excerpt from Founders of Freedom in America A  
Biographical History for the Elementary Grades The authors of this history believe that another text on the subject is justified  
at this time only by the fact that some of the big ideals for which this country stands should receive greater emphasis than  
has been usual These are now more clearly defined than formerly making it desirable that a text designed as this is for the  
fifth and sixth grades shall be a helpful adjunct in teaching them It should include too a treatment of the lives and  
achievements of some of the men and women who have influenced the great movements in our national life during recent  
years The development of the ideals of liberty and the giving of unselfish service for the good of mankind have been stressed  
throughout the book In the preparation of the stories the fact that America has been not only a refuge for those who sought  
to escape persecution but a land of opportunity and of material and moral as well as political progress has been uppermost in  
the minds of the authors Five connecting chapters are included in the book for the purpose of preparing the pupils minds for  
some of the important events of the different periods into which the history is divided The aim is to establish a viewpoint and  
to give an interpretative basis for the subsequent narratives About the Publisher Forgotten Books publishes hundreds of

*Faith and the Founders of the American Republic* Daniel L. Dreisbach, Mark David Hall, 2014 The role of religion in the founding of America has long been a hotly debated question Some historians have regarded the views of a few famous founders such as Benjamin Franklin Thomas Jefferson James Madison and Thomas Paine as evidence that the founders were deists who advocated the strict separation of church and state Popular Christian polemicists on the other hand have attempted to show that virtually all of the founders were pious Christians in favor of public support for religion As the essays in this volume demonstrate a diverse array of religious traditions informed the political culture of the American founding Faith and the Founders of the American Republic includes studies both of minority faiths such as Islam and Judaism and of major traditions like Calvinism It also includes nuanced analysis of specific founders Quaker fellow traveler John Dickinson prominent Baptists Isaac Backus and John Leland and Theistic Rationalist Gouverneur Morris among others with attention to their personal histories faiths constitutional philosophies and views on the relationship between religion and the state This volume will be a crucial resource for anyone interested in the place of faith in the founding of the American constitutional republic from political religious historical and legal perspectives
