Four Hundred Years Of University Printing And Publishing In Cambridge 1584 1984:

Cambridge University Press 1584-1984 Michael H. Black, 2000-03-30 In 1984 the Press celebrated 400 years of continuous printing and publishing This history now published as a paperback provides a readable introduction to that unique period with a foreword by Gordon Johnson which comments on the continuing achievement of the Press The story is of the development of the printing and publishing arm of the University of Cambridge from the medieval system of resident stationers to the modern international printing and publishing house The narrative is set within the development of the University in the history of the book trade as a whole and in the intellectual and political history of England **A History of the University of Cambridge: Volume 4, 1870-1990** Christopher Brooke, Christopher N. L. Brooke, Damian Riehl Leader, Victor Morgan, Peter Searby, 1988 This is the fourth volume of A History of the University of Cambridge and explores the extraordinary growth in size and academic stature of the University between 1870 and 1990 Though the University has made great advances since the 1870s when it was viewed as a provincial seminary it is also the home of tradition a federation of colleges one over 700 years old one of the 1970s This book seeks to penetrate the nature of the colleges and of the federation and to show the way in which university faculties and departments have come to vie with the colleges for this predominant role It attempts to unravel a fascinating institutional story of the society of the University and its place in the world It explores in depth the themes of religion and learning and of the entry of women into a once male environment There are portraits of seminal and characteristic figures of the Cambridge scene and there is a sketch inevitably selective but wide ranging of many disciplines an extensive study in intellectual and academic history Cambridge University Archives D. M. Owen, 2011-06-02 A list of all the materials deposited in the Cambridge University Archives before June 1987 Four Hundred Years of University Printing and Publishing in Cambridge, 1584-1984 Cambridge University Library, 1984* A History of Cambridge University Press: Volume 3, New Worlds for Learning, 1873-1972 David McKitterick, 1992 The third and final volume of A History of Cambridge University Press covering 1873 1972 **A History of Cambridge University Press: Volume 2, Scholarship and Commerce, 1698-1872** David McKitterick, 1992 The second volume of the history of Cambridge University Press covering the 1690s to 1872 **Debrett's Bibliography of Business History** Stephanie Zarach, 1987-06-18 **Printing Anglo-Saxon from Parker to Hicces and Wanley** Peter J. Lucas, 2024-04-30 This book offers something new a full length study of printing Anglo Saxon Old English from 1566 to 1705 combining analysis of content and form of production It starts from the end product and addresses the practical issues of providing for printing Anglo Saxon authentically and why this was done The book tells a story that is largely Cambridge orientated until Oxford made an impact largely thanks to Franciscus Junius from Leiden There is a catalogue of all books containing Anglo Saxon with full details of their use of manuscript or printed sources This information allows us to see how knowledge of Anglo Saxon grew and developed **Print Culture, Agency, and Regionality in the Hand Press Period** Rachel Stenner, Kaley

Kramer,Adam James Smith,2022-04-06 Print Culture Agency and Regionality in the Hand Press Period illuminates the diverse ways that people in the British regional print trades exerted their agency through interventions in regional and national politics as well as their civic commercial and cultural contributions Works printed in regional communities were a crucial part of developing narratives of local industrial technological and ideological progression By moving away from understanding of print cultures outside of London as provincial however this book argues for a new understanding of region as part of a network of places emphasising opportunities for collaboration and creation that demonstrate the key role of regions within larger communities extending from the nation to the emerging sense of globality in this period Through investigations of the men and women of the print trades outside of London this collection casts new light on the strategies of self representation evident in the work of regional print cultures as well as their contributions to individual regional identities and national narratives

A History of the University of Cambridge: Volume 2, 1546-1750 Victor Morgan,Damian Riehl Leader,Peter Searby,1988 This volume brings to completion the four volume A History of the University of Cambridge and is a vital contribution to the history not only of one major university but of the academic societies of early modern Europe in general Its main author Victor Morgan has made a special study of the relations between Cambridge and its wider world the court and church hierarchy which sought to control it in the aftermath of the Reformation the country that is the provincial gentry and the wider academic world Morgan also finds the seeds of contemporary problems of university governance in the struggles which led to and followed the new Elizabethan Statutes of 1570 Christopher Brooke General Editor and part author has contributed chapters on architectural history and among other themes a study of the intellectual giants of the late seventeenth and early eighteenth centuries
