Four Jacobean City Comedies:

Four Jacobean City Comedies Gāmini Salgādo, 1975 The gulling of dupes the seduction of women the practices of sharpers and rogues the idiom of the bustling bawling metropolis dominates these plays London and its court appeared to these dramatists as a striking and comprehensive image of human appetite and folly However though satire may dominate the moralist's censure is often tempered by an affection for the richness and variety of urban life **Four Jacobean City Comedies** Gāmini Salgādo, 1975 *Four Jacobean City Comedies* Gāmini Salgādo, 1985 **Jacobean City Comedy** Brian Gibbons, 2017-03-27 The first decade of the Jacobean age witnessed a sudden profusion of comedies satirizing city life among these were comedies by Ben Jonson John Marston and Thomas Middleton as well as the bulk of the repertory of the newly established children's companies at Blackfriars and Paul's The playwrights self consciously forged a new genre which attracted London audiences with its images of folly and vice in Court and City and hack writing dramatists were prompt to cash in on a new theatrical fashion This study first published in 1980 examines ways in which the Jacobean city comedy reflect on the self consciousness of audiences and the concern of the dramatists with Jacobean society This title will be of interest of students of Renaissance Drama English Literature and Performance **Teaching Shakespeare and Early Modern Dramatists** A. Hiscock, L. Hopkins, 2007-07-02 This collection offers practical suggestions for the integration of non Shakespearean drama into the teaching of Shakespeare It shows both the ways in which Shakespearean drama is typical of its period and of the ways in which it is distinctive by looking at Shakespeare and other writers who influenced and developed the genres in which he worked **Drama and the Market in the Age of Shakespeare** Douglas Bruster, 2005-01-27 Douglas Bruster's provocative study of English Renaissance drama explores its links with Elizabethan and Jacobean economy and society looking at the status of playwrights such as Shakespeare and the establishment of commercial theatres He identifies in the drama a materialist vision which has its origins in the climate of uncertainty engendered by the rapidly expanding economy of London His examples range from the economic importance of cuckoldry to the role of stage props as commodities and the commercial significance of the Troy story in Shakespeare's *Troilus and Cressida* and he offers new ways of reading English Renaissance drama by returning the theatre and the plays performed there to its basis in the material world **Three Restoration Comedies** George Etherege, William Congreve, William Wycherley, 2005-11-24 After the restoration of King Charles II to the British throne in 1660 dramatists experienced new freedom in an age that broke from the strict morality of puritan rule and in which elegance and wit became the chief virtues Irreverent licentious and cynical the three plays collected here hold up a mirror to this dazzling era and satirize the gulf between appearances and reality In Etherege's *The Man of Mode* 1676 the womanizing Dorimant meets his match when he falls in love with the unpretentious Harriet while Wycherley's *The Country Wife* c 1675 depicts the rakish Horner who fakes impotence to fool trusting husbands into giving him easy access to their wives And in Congreve's *Love for Love* 1695 the

extravagant Valentine can only win his beloved Angelica if he loses his inheritance **God Speed the Plough** Andrew McRae,2002-09-12 An interdisciplinary analysis of the history and literature of the land in early modern England

Performing Maternity in Early Modern England Kathryn R. McPherson,2016-12-05 Performing Maternity in Early Modern England features essays that share a common concern with exploring maternity's cultural representation performative aspects and practical consequences in the period from 1540-1690. The essays interrogate how early modern texts depict fertility, conception, delivery and gendered constructions of maternity by analyzing a wealth of historical documents and images in conjunction with dramatic and non-dramatic literary texts. They emphasize that the embodied, repeated and public nature of maternity defines it as inherently performative and ultimately central to the production of gender identity during the early modern period.

Renaissance Revivals Wendy Griswold,1986-10 Renaissance Revivals examines patterns in the London revivals of two English Renaissance theatre genres over the past four centuries. Griswold's focus on revenge tragedies and city comedies illuminates the ongoing interaction between society and its cultural products. No cultural object is ever created anew, she argues, but is instead constructed from existing cultural genres and conventions, the visions and professional needs of the artist and the interests of an audience. Thus every new play is in part a renaissance and every revival is in part an entirely new cultural object.

Abiezer Coppe and the Irrational God Peter Pick,2024-10-06 Abiezer Coppe is one of the most exciting writers of the seventeenth century, full of urgency and passion, righteous indignation, humour, fury, wit and naked sincerity, an extraordinary writer by any measure. He does not fit easily in the canons of Literature but nevertheless has been studied by both historians such as Christopher Hill and literary scholars including Nigel Smith, reprinted in the 20th Century in various forms and even included in the Norton Anthology of English Literature, a tradition he would certainly reject. Within the tradition to which he declares his loyalty, that of the Prophetic religious writers and the Fathers of the Church, he either associates himself with or frequently incorporates writings ascribed to Paul of Tarsus, John of Patmos, King David, Solomon, Hosea, Ezekiel, Daniel, Isaiah and Christ. He is not afraid to speak directly in the voice of God to condemn the hypocrisy and corruption of his era. Coppe's range of expressive strategies has led to confusion among commentators. Thomas Corns justly describes a ludic and simultaneously aggressive idiom. Such extremes are characteristic of highly charged satirical writing such as Coppe's Nashe.

and Swift's extremes are no less although both come from the other side of a profound religious and philosophical divide Coppe's stance and style extraordinary as they are are not without precedent they participate in Bakhtin's Apocalyptic Time the time when everything is about to happen
