Fourth Of July Orchestra Score:

All Made of Tunes James Peter Burkholder, 1995-01-01 Charles Ives is famous for using borrowed material in his music Almost two hundred individual works or movements spanning his entire career and representing more than a third of his output incorporate music by other composers or from his own previous work In this book the eminent Ives scholar J Peter Burkholder identifies the different kinds of quotations in Ives s music explores the complex musical aesthetic and psychological motivations behind the borrowings and shows the purpose techniques and effects that characterize each one Burkholder catalogues fourteen distinct ways that Ives borrowed ranging from direct quotation to paraphrase variation collage modeling and stylistic allusion Arguing that these borrowing procedures were compositional strategies he provides a new perspective on Ives s process of composition In addition by tracing the development of Ives s borrowing practices through his career he contributes to an understanding of the composer s stylistic evolution And by showing how much of Ives s music uses borrowing procedures that are common to many composers he reveals that Ives is not as far removed from the classic romantic tradition as has been thought Finally Burkholder s comprehensive treatment of Ives s borrowing techniques offers a new perspective on the entire field of musical borrowing *The National Union Catalog* ,1968 **Library of**
