The Lever of Riches Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long

list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution. He examines such aspects as the role of the state, the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels, the impact of science as well as religion, politics and even nutrition. He questions the importance of such commonly cited factors as the spill over benefits of war, the abundance of natural resources, life expectancy and labor costs. Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity. **The Lever of Riches** with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential.

Deans and Truants Gene Andrew Jarrett, 2013-03-01. For a work to be considered African American literature, does it need to focus on black characters or political themes? Must it represent these within a specific stylistic range? Or is it enough for the author to be identified as African American? In **Deans and Truants**, Gene Andrew Jarrett traces the shifting definitions of African American literature and the authors who wrote beyond those boundaries at the cost of critical dismissal and at times obscurity. From the late nineteenth century to the end of the twentieth, de facto deans and authors as different as William Howells, Alain Locke, Richard Wright and Amiri Baraka prescribed the shifting parameters of realism and racial subject matter appropriate to authentic African American literature, while truant authors such as Paul Laurence Dunbar, George S. Schuyler, Frank Yerby and Toni Morrison, perhaps the most celebrated African American author of the twentieth century, wrote literature anomalous to those standards. Jarrett explores the issues at stake when Howells, the Dean of American Letters, argues in 1896 that only Dunbar's entirely black verse, written in dialect, would succeed. Three decades later, Locke, the cultural arbiter of the Harlem Renaissance, stands in contrast to Schuyler, a journalist and novelist who questions the existence of a peculiarly black or New Negro art. Next, Wright's 1937 blueprint for African American writing sets the terms of the Chicago Renaissance, but Yerby's version of historical romance approaches race and realism in alternative literary ways. Finally, **Deans and Truants** measures the gravitational pull of the late 1960s Black Aesthetic in Baraka's editorial silence on Toni Morrison's first and only short story, *Recitatif*. Drawing from a wealth of biographical, historical and literary sources, **Deans and Truants** describes the changing notions of race, politics and gender that framed and were framed by the authors and critics of African American culture for more than a century.

Racial Worldmaking Mark C. Jerng, 2017-11-07. When does racial description become racism? Critical race studies has not come up with good answers to this question because it has overemphasized the visibility of race. According to dominant theories of racial formation, we see race on bodies and persons and then link those perceptions to unjust practices of racial inequality. **Racial Worldmaking** argues that we do not just see race. We are taught when, where and how to notice race by a set

of narrative and interpretive strategies These strategies are named racial worldmaking because they get us to notice race not just at the level of the biological representation of bodies or the social categorization of persons Rather they get us to embed race into our expectations for how the world operates As Mark C Jerng shows us these strategies find their most powerful expression in popular genre fiction science fiction romance and fantasy Taking up the work of H G Wells Margaret Mitchell Samuel Delany Philip K Dick and others Racial Worldmaking rethinks racial formation in relation to both African American and Asian American studies as well as how scholars have addressed the relationships between literary representation and racial ideology In doing so it engages questions central to our current moment In what ways do we participate in racist worlds and how can we imagine and build one that is anti racist *Rediscovering Frank Yerby* Matthew Teutsch,2020-04-20 Contributions by Catherine L Adams Stephanie Brown Gene Andrew Jarrett John Wharton Lowe Guirdeux Mass Anderson Rouse Matthew Teutsch Donna Lyn Washington and Veronica T Watson *Rediscovering Frank Yerby Critical Essays* is the first book length study of Yerby s life and work The collection explores a myriad of topics including his connections to the Harlem and Chicago Renaissances readership and reception representations of masculinity and patriotism film adaptations and engagement with race identity and religion The contributors to this collection work to rectify the misunderstandings of Yerby s work that have relegated him to the sidelines and ultimately begin a reexamination of the importance of the prince of pulpsters in American literature It was Robert Bone in *The Negro Novel in America* who infamously dismissed Frank Yerby 1916 1991 as the prince of pulpsters Like Bone many literary critics at the time criticized Yerby s lack of focus on race and the stereotypical treatment of African American characters in his books This negative labeling continued to stick to Yerby even as he gained critical success first with *The Foxes of Harrow* the first novel by an African American to sell more than a million copies and later as he began to publish more political works like *Speak Now* and *The Dahomean* However the literary community cannot continue to ignore Frank Yerby and his impact on American literature More than a fiction writer Yerby should be put in conversation with such contemporaneous writers as Richard Wright Dorothy West James Baldwin William Faulkner Margaret Mitchell and more *Foxes of Harrow* Frank Yerby,1976-01-01 *Encyclopedia of African-American Literature* Wilfred D. Samuels,2015-04-22 Presents a reference on African American literature providing profiles of notable and little known writers and their works literary forms and genres critics and scholars themes and terminology and more

Impermanent Blackness Korey Garibaldi,2025-02-04 Revisiting an almost forgotten American interracial literary culture that advanced racial pluralism in the decades before the 1960s In *Impermanent Blackness* Korey Garibaldi explores interracial collaborations in American commercial publishing authors agents and publishers who forged partnerships across racial lines from the 1910s to the 1960s Garibaldi shows how aspiring and established Black authors and editors worked closely with white interlocutors to achieve publishing success often challenging stereotypes and advancing racial pluralism in the process *Impermanent Blackness* explores the complex nature of this almost forgotten period of interracial publishing by

examining key developments including the mainstream success of African American authors in the 1930s and 1940s the emergence of multiracial children's literature postwar tensions between supporters of racial cosmopolitanism and of Negro literature and the impact of the Civil Rights and Black Power movements on the legacy of interracial literary culture By the end of the 1960s some literary figures once celebrated for pushing the boundaries of what Black writing could be including the anthologist W S Braithwaite the bestselling novelist Frank Yerby the memoirist Juanita Harrison and others were forgotten or criticized as too white And yet Garibaldi argues these figures at once dreamers and pragmatists have much to teach us about building an inclusive society Revisiting their work from a contemporary perspective Garibaldi breaks new ground in the cultural history of race in the United States Gender and Race in Antebellum Popular Culture Sarah N. Roth, 2014-07-21 In the decades leading to the Civil War popular conceptions of African American men shifted dramatically The savage slave featured in 1830s novels and stories gave way by the 1850s to the less threatening humble black martyr This radical reshaping of black masculinity in American culture occurred at the same time that the reading and writing of popular narratives were emerging as largely feminine enterprises In a society where women wielded little official power white female authors exalted white femininity using narrative forms such as autobiographies novels short stories visual images and plays by stressing differences that made white women appear superior to male slaves This book argues that white women as creators and consumers of popular culture media played a pivotal role in the demasculinization of black men during the antebellum period and consequently had a vital impact on the political landscape of antebellum and Civil War era America through their powerful influence on popular culture *Race, Politics, and Irish America* Mary M. Burke, 2022-11-10 Figures from the Scots Irish Andrew Jackson to the Caribbean Irish Rihanna as well as literature film caricature and beauty discourse convey how the Irish racially transformed multiple times in the slave holding Caribbean on America's frontiers and antebellum plantations and along its eastern seaboard This cultural history of race and centuries of Irishness in the Americas examines the forcibly transported Irish the eighteenth century Presbyterian Ulster Scots and post 1845 Famine immigrants Their racial transformations are indicated by the designations they acquired in the Americas Redlegs Scots Irish and black Irish In literature by Fitzgerald O'Neill Mitchell Glasgow and Yerby an African American author of Scots Irish heritage the Irish are both colluders and victims within America's racial structure Depictions range from Irish encounters with Native and African Americans to competition within America's immigrant hierarchy between Saxon Scots Irish and Celtic Irish Catholic Irish connected presidents feature but attention to queer and multiracial authors public women beauty professionals and performers complicates the Irish whitening narrative Thus Irish Princess Grace Kelly's globally broadcast ascent to royalty paves the way for America's royals the Kennedys The presidencies of the Scots Irish Jackson and Catholic Irish Kennedy signalled their respective cohorts assimilation Since Gothic literature particularly expresses the complicity that attaining power whiteness entails subgenres named Scots Irish Gothic and Kennedy Gothic are identified in Gothic by Brown Poe

James Faulkner and Welty the violence of the colonial Irish motherland is visited upon marginalized Americans including sometimes other Irish groupings History is Gothic in Irish American narrative because the undead Irish past replays within America's contexts of race

Media-Made Dixie Jack Kirby, 1986 In *Media Made Dixie* Jack Kirby shows how the American public's perceptions of the South have been influenced even controlled by the mass communications media In this newly updated edition Kirby surveys major movies radio and television shows plays popular histories and music from the turn of the century through the 1980s He documents a progression in the national image of the South from the cracker wasteland of Erskine Caldwell's *God's Little Acre* to the antebellum wonderland of Hollywood's Shirley Temple Bojangles Robinson musicals from William Styron's searching account of the Old South in *Confessions of Nat Turner* to the New South ingenuity of Jimmy Carter and Ted Turner and from the regressive back roads of television's *The Dukes of Hazzard* to the complex reconciliation found in Alice Walker's and Steven Spielberg's *The Color Purple*

The Celluloid South Edward D. C. Campbell, 2003-03-03 The southern as much a Hollywood genre as the western is the subject of *The Celluloid South* For decades the film industry to provide profit making entertainment offered the public movies that neither raised difficult issues nor offended a majority of the ticket buyers As a result Hollywood romanticized the south particularly the antebellum era in hundreds of films like *Uncle Tom's Cabin* *Gone With the Wind* *Birth of a Nation* and *Jezebel* During the 1920s and especially the Depression the moonlight and magnolia romances increased to such an extent that Hollywood has been struggling since the late forties to rid films of the traditional images of the southern In his exploration of the southern Edward D C Campbell Jr examines the film plots and images their social literary and historical origins and their impact on the creation of a popular mythology of the south The unrealistic but seemingly harmless characterizations of a planter society and agricultural economy and especially slavery have hindered the region's self assessment and warped the nation's perspective on race Campbell looks beyond the productions themselves however to advertising techniques and the reactions of the viewers and reviewers in his examination of the southern its popularity and its decline and its influence of the public's conception of history contemporary conditions and black white relations *The Celluloid South* is not a study of film per se but of film as a reflection of society and the ramifications inherent in popular entertainment Readers interested in southern history popular culture or cinema studies as well as movie fans will find *The Celluloid South* a fascinating look at Hollywood's development of the southern myth Thirty one film stills illustrate the text

The Postwar African American Novel Stephanie Brown, 2011-03-14 Americans in the World War II era bought the novels of African American writers in unprecedented numbers But the names on the books lining shelves and filling barracks trunks were not the now familiar Richard Wright and Ralph Ellison but Frank Yerby Chester Himes William Gardner Smith and J Saunders Redding In this book Stephanie Brown recovers the work of these innovative novelists overturning conventional wisdom about the writers of the period and the trajectory of African American literary history She also questions the assumptions about the relations between race and

genre that have obscured the importance of these once influential creators Wright's *Native Son* 1940 is typically considered to have inaugurated an era of social realism in African American literature And Ellison's *Invisible Man* 1952 has been cast as both a high mark of American modernism and the only worthy stopover on the way to the Black Arts Movement of the 1960s But readers in the late 1940s purchased enough copies of Yerby's historical romances to make him the best selling African American author of all time Critics meanwhile were taking note of the generic experiments of Redding Himes and Smith while the authors themselves questioned the obligation of black authors to write protest instead penning campus novels war novels and in Yerby's case costume dramas Their status as lesser lights is the product of retrospective bias Brown demonstrates and their novels established the period immediately following World War II as a pivotal moment in the history of the African American novel

Twentieth Century-Fox Peter Lev, 2013-03-15 When the Fox Film Corporation merged with Twentieth Century Pictures in 1935 the company posed little threat to industry juggernauts such as Paramount and MGM In the years that followed however guided by executives Darryl F Zanuck and Spyros Skouras it soon emerged as one of the most important studios Though working from separate offices in New York and Los Angeles and often of two different minds the two men navigated Twentieth Century Fox through the trials of the World War II boom the birth of television the Hollywood Blacklist and more to an era of exceptional success which included what was then the highest grossing movie of all time *The Sound of Music* Twentieth Century Fox is a comprehensive examination of the studio's transformation during the Zanuck Skouras era Instead of limiting his scope to the Hollywood production studio Lev also delves into the corporate strategies distribution models government relations and technological innovations that were the responsibilities of the New York headquarters Moving chronologically he examines the corporate history before analyzing individual films produced by Twentieth Century Fox during that period Drawn largely from original archival research Twentieth Century Fox offers not only enlightening analyses and new insights into the films and the history of the company but also affords the reader a unique perspective from which to view the evolution of the entire film industry
