Fragmented Gods The Poverty And Potential Of Religion In Canada:

Fragmented Gods Reginald Wayne Bibby, 1990 *Religion and Canadian Society* Lori G. Beaman, 2012 This text offers an outstanding selection of readings that represent an overview of the key issues in the sociology of religion from a uniquely Canadian perspective Masterfully planned and united by clearly articulated themes the second edition moves through three thematic cornerstones contexts identities and strategies Recurring sub themes include the definition of religion the secularization debate the challenge of diversity and the gendered aspects of religious experience Key additions to this edition include a discussion on cultural diversity an exploration of religion and sexuality and a thorough historical overview of religion in Canada Christians in a Secular World Kurt Bowen, 2005-05 A detailed assessment of the degree to which religious commitment or lack thereof affects the psychological state of Canadians and the social fabric of Canada None of the Above Joel Thiessen, Sarah Wilkins-Laflamme, 2020-04-14 Compares secular attitudes characterizing religious nones in the United States and Canada Almost a quarter of American and Canadian adults are nonreligious while teens and young adults are even less likely to identify religiously None of the Above explores the growing phenomenon of religious nones in North America Who are the religious nones Why and where is this population growing While there has been increased attention on secularism in both Europe and the United States little work to date has focused on Canada Joel Thiessen and Sarah Wilkins Laflamme turn to survey and interview data to explore how a nonreligious identity impacts a variety of aspects of daily life in the US and Canada in sometimes similar and sometimes different ways offering insights to illuminate societal and political trends With numbers of nonreligious people even higher in Canada than in the US some believe that secular currents to the north foreshadow what will happen in the US None of the Above asserts that a growing divide between religious and nonreligious populations could engender a greater distance in moral and political values and behaviors At once provocative and insightful this book tackles questions of coexistence religious tolerance and spirituality as American and Canadian society accelerate toward a more secular future **The Fourth Civilization, Volume One** Richard J. Sutcliffe, 2024-11-27 The Fourth Civilization Technology Society and Ethics stimulates its readers to consider the ethical and societal consequences of technologies they already use and others that will become ubiquitous Its discussions and provocative questions integrate history science technology and ethical and religious beliefs examining the past and present and preparing for the future Social changes always follow the adoption of new technologies The plow drove the transition from hunter gatherer to agrarian society and the steam engine began the Industrial Revolution Computing technology now ushers in an Information Age What does ethical decision making look like in a time of rapid transition and beyond What will society be like once things stabilize in a Fourth Civilization if indeed they will How will robots artificial intelligence factory automation and self driving vehicles affect daily life and work Discussions about ideas were not common in an era of specialist technicians They are becoming necessary and routine in a fast changing and more broadly integrative world and

Christianity and Ethnicity in Canada Paul Bramadat,David Seljak,2008-06-14 Over the past decade scholars and policy makers interested in Canadian multiculturalism have begun to take religion much more seriously Moreover Christian communities have become increasingly aware of the impact of ethnic diversity on church life However until very recently almost no systematic academic attention has been paid to the intersection between the ethnic and religious identities of individuals or communities This gap in both our academic literature and our public discourse represents an obstacle to understanding and integrating the large numbers of ethnic Christians most of whom either join existing Canadian churches or create ethnically specific congregations In *Christianity and Ethnicity in Canada* eleven scholars explore the complex relationships between religious and ethnic identity within the nine major Christian traditions in Canada The contributors discuss the ways in which changes in the ethnic composition of these traditions influence religious practice and identity as well as how the nine religious traditions influence communal and individual ethnic identities An introductory chapter by Paul Bramadat and David Seljak provides a thorough discussion of the theoretical historical and empirical issues involved in the study of Christianity and ethnicity in Canada This volume complements *Religion and Ethnicity in Canada* in which the authors address similar issues within the six major non Christian communities in Canada and within Canadian health care education and politics

New Religions As Global Cultures Irving Hexham,Karla Poewe,2018-02-12 Although the Great Anti Cult Crusade links new religious movements to dangerous cults brainwashing and the need for deprogramming Karla Poewe and Irving Hexham argue that many cults are the product of a dynamic interaction between folk religions and the teachings of traditional world religions Drawing on examples from Africa the United States Asia and Europe they suggest that few new religions are really new Most draw on rich if localized cultural traditions that are shaped anew by the influence of technological change and international linkages With the widespread loss of belief in biblical mythology in the nineteenth century new mythologies based on science and elements derived from various non Western religious traditions emerged leading to the growth and popularity of new religions and cults

Training Disciplined Soldiers for Christ Tim W. Callaway,2013-04-17 The comparative scarcity of academic attention given Prairie Bible Institute located at Three Hills Alberta Canada serves as the primary motivation behind this book This work should therefore be regarded as an attempt to contribute to and refine the very small amount of research available regarding how Prairie Bible Institutes first half century should be understood and interpreted by students of North American church history Drawing on an insiders perspective of PBI former PBI staff kid Tim W Callaway challenges the adequacy and accuracy of Canadian scholar Dr John G Stackhouse Jr s inference that the kind of sectish evangelicalism that typified PBI in the twentieth century was substantially different from the characteristics that define the traditional understanding of American fundamentalism The undertaking contained in these

pages advances the perspective that Prairie Bible Institute during the L E Maxwell era did in fact reflect the influence and attributes of American fundamentalism to a far greater extent than what Stackhouse allowed for in his research

Handbook of Global Contemporary Christianity ,2015-03-20 The Handbook of Global Contemporary Christianity Themes and Developments in Culture Politics and Society maps the transformations as well as the continuities of the largest of the major religions engaging with the critical global issues which relate to the faith in a fast changing world International experts in the area offer contributions focusing on global movements regional trends and developments Christianity the state politics and polity and Christianity and social diversity Collectively the contributors provide a comprehensive treatment of health of the religion as Christianity enters its third millennium in existence and details the challenges and dilemmas facing its various expressions both old and new The volume is a companion to the Handbook of Contemporary Global Christianity Movements Institutions and Allegiance The Fourth Civilization, Volume Two Rick Sutcliffe,2024-12-05 The Fourth Civilization Technology Society and Ethics stimulates its readers to consider the ethical and societal consequences of technologies they already use and others that will become ubiquitous Its discussions and provocative questions integrate history science technology and ethical and religious beliefs examining the past and present and preparing for the future Social changes always follow the adoption of new technologies The plow drove the transition from hunter gatherer to agrarian society and the steam engine began the Industrial Revolution Computing technology now ushers in an Information Age What does ethical decision making look like in a time of rapid transition and beyond What will society be like once things stabilize in a Fourth Civilization if indeed they will How will robots artificial intelligence factory automation and self driving vehicles affect daily life and work Discussions about ideas were not common in an era of specialist technicians They are becoming necessary and routine in a fast changing and more broadly integrative world and this book attempts to practice what it preaches Let it inform provoke and become a part of New Renaissance literature inspiring its readers to become ethically informed New Renaissance people in the Fourth Civilization information age The Teachings of Modern Christianity on Law, Politics, and Human Nature John Witte (Jr.),John Witte, Frank S. Alexander,2006 This is a major project to be undertaken as part of a broad initiative of the Pew Charitable Trusts and the University of Notre Dame on the role of Christianity in modern society John Witte is one of the editors of the forthcoming Sex Marriage and the Family A Reader in World Religions Minorities and Reconstructive Coalitions Willie Gin,2017-07-06 Through comparative and historical analysis the book shows that reconstructive coalitions such as labor and pan Christian moral movements affect minority incorporation and bring Catholics and Protestants together under new identities and significantly improving Catholic standing It provides overviews of the history of Catholics in Australia Canada and the United States while at the same time advancing unique arguments about the impact of coalitions on minority politics Pilgrims in Lotus Land Robert K. Burkinshaw,1995-05-05 Burkinshaw traces the growth of conservative Protestantism in British Columbia from its clashes

with liberal Protestants in the early twentieth century through the post World War II years when a bewildering variety of smaller groups including Baptist and Pentecostal denominations as well as Mennonite Reformed and Evangelical Free churches became important to the 1970s when the majority of worshipping Protestants belonged to evangelical groups He examines the factors that made evangelicalism more adaptable to changes in the geographic ethnic and social distribution of the province's population and argues that while the evangelical movement in BC was influenced by American fundamentalism it was not simply an extension of the American campaign He also examines the impact of evangelicals on provincial politics most particularly their role in the rise of the Social Credit Party Burkinshaw provides a wealth of new information on the phenomenon of twentieth century evangelicalism and challenges us to rethink the nature of religious conservatism

Macdonald, Brian P. Clarke, 2017-11-30 Canadians were once church goers During the post war boom of the 1950s Canadian churches were vibrant institutions with attendance rates even higher than in the United States but the following decade witnessed emptying pews What happened In *Leaving Christianity* Brian Clarke and Stuart Macdonald quantitatively map the nature and extent of Canadians' disengagement with organized religion and assess the implications for Canadian society and its religious institutions Drawing on a wide array of national and denominational statistics they illustrate how the exodus that began with disaffected baby boomers and their parents has become so widespread that religiously unaffiliated Canadians are now the new majority While the old mainstream Protestant churches have been the hardest hit the Roman Catholic Church has also experienced a significant decline in numbers especially in Quebec Canada's civil society has historically depended on church members for support and a massive drift away from churches has profound implications for its future *Leaving*

Christianity documents the true extent of the decline the timing of it and the reasons for this major cultural shift Alive to God J. I. Packer, Loren Wilkinson, 1992 If in an earlier generation people sometimes were said to be so heavenly minded that they were no earthly good begins Carl F H Henry in our day the very opposite is more apt to be the case At the same time the hunger for spiritual vitality is growing What then is the nature of spiritual experience and how can it be integrated into Christian and academic disciplines

Global Religions Mark Juergensmeyer, 2003-03-20 Can Islam be located on a map Is Europe the center of the Christian world Is India a Hindu nation While decades ago these questions were often answered in the affirmative the truth has never been that simple Not only are adherents of particular faiths spread across the globe but there are many variations of a particular faith practiced side by side This has only become more true in recent years as the pace of globalization has quickened The essays collected here provide brief and accessible introductions to the major world religions in their global contexts The volume begins with an introduction to the globalization of religion by Mark Juergensmeyer and is followed by individual essays on Christianity Islam Judaism Hinduism Buddhism and local religious societies The book concludes with three essays reflecting on the global religious scene Taken together these essays provide a concise authoritative and highly readable introduction to the state of worldwide religion in the 21st century

Growing Up Canadian Peter Beyer, Rubina Ramji, 2013-06-01 A significant number of Canadian raised children from post 1970s immigrant families have reached adulthood over the past decade As a result the demographics of religious affiliation are changing across Canada Growing Up Canadian is the first comparative study of religion among young adults of Muslim Hindu and Buddhist immigrant families Contributors consider how relating to religion varies significantly depending on which faith is in question how men and women have different views on the role of religion in their lives and how the possibilities of being religiously different are greater in larger urban centres than in surrounding rural communities Interviews with over two hundred individuals aged 18 to 26 reveal that few are drawn to militant politicized religious extremes how almost all second generation young adults take personal responsibility for their religion and want to understand the reasons for their beliefs and practices The first major study of religion among this generation in Canada Growing Up Canadian is an important contribution to understanding religious diversity and multiculturalism in the twenty first century Contributors include Peter Beyer Kathryn Carri re Wendy Martin and Lori Beaman University of Ottawa Rubina Ramji Cape Breton University Nancy Nason Clark and Cathy Holtmann University of New Brunswick Shandip Saha Athabasca University John H Simpson University of Toronto and Marie Paule Martel Reny Concordia University

Urban Ministry Manuel Ortiz, Harvie M. Conn, 2025-06-06 No 3 in the Academy of Parish Clergy Top Ten Books of the Year The city presents serious challenges that cry out for answers poverty racism human exploitation and government corruption How can the church move ahead in the midst of these demands with the gospel of hope Here in one comprehensive volume Harvie Conn and Manuel Ortiz two noted scholars and proven practitioners of urban ministry address the vital work of the church in the city Their dual goal to

understand the city and God's work in it Through four great waves of development Conn and Ortiz trace the history of the city around the world Then they tackle the critical issue of a biblical basis for urban mission How does the Bible view the city Are we closer to God in the country than the city Does the Bible have an anti urban bias These questions are given a thorough analysis that unveils God's urban mandate as reflected in both Old and New Testaments From this foundation the authors unpack the multifaceted nature of the city as place as process as center as power and as a place of change and stability They move us beyond fragmented stereotypes to a new way of seeing that is holistic enough for a fully biblical ministry to develop In addition Conn and Ortiz lay out what the social sciences have to offer urban mission including ethnographic and demographic studies and they focus on the particular issues and needs of urban leadership including a plan for developing and mentoring leaders while equipping the laity for ministry in the city This is the essential text for bringing God's kingdom to the city through the people of God
