Framing Effects In Taxation An Empirical Study Using The German Income Tax Schedule:

Framing Effects in Taxation Stefan Traub, 2012-12-06 On October 24th 1994 the pro government German newspaper Die Welt reported that the Minister of Family Affairs Mrs Hannelore Ransch member of the ruling Christian Democratic Union CD U withdrew her candidacy for a second term after serving a four year term While Chancellor Helmut Kohl and other party colleagues officially expressed their regret for this move the conservative press openly announced their relief A symbolic photo of Ransch was published together with the article In the background two direction indicators are discernable one pointing to the emergency exit and the other to the escape route What led up to this state of affairs Some months before Ransch had triggered off a storm of public indignation due to her proposal to partly replace the present German child benefit system by tax fines for the childless To be exact the minister's idea was to distinctly increase child allowance and child benefit and to bill childless families for this measure that is childless couples and singles should have to pay off a tax surcharge christened *Zukunftsbetrag* contribution to the future However only the second part of her proposal the tax fine made it to the headlines compare for example *Frankfurter Allgemeine Zeitung* February 19th 1994 and *Die Welt* March 28th 1994

Government Budgeting and Financial Management in Practice Gerald J. Miller, 2017-09-25 The right turn in U S politics has increased conflict over both ends and means in government budgeting and financial management Overlapping and competing views of the way the world works drive finance officials practice Taking a new look at public financial management that acknowledges the multiple competing realities *Government Budgeting and Financial Management in Practice Logics to Make Sense of Ambiguity* examines transaction cost economics and other small government managed by the market techniques as the latest reincarnation of public budgeting and financial management orthodoxy Gerald J Miller reviews new research on the continuing validity of the political dimension of government finance decisions and the multiple intensely argued constructions of reality the finance official must make sense of Miller discusses major advances in interpretive approaches to budgeting and finance and how they dominate writing in the broader field of public administration He also examines the effects of the explosion of information systems new budget techniques nonconventional ways of spending and new technologies The book uses a question as the motivating force to understand some facets of today's government budgeting finance and financial management where do the critical assumptions come from to drive financial management Miller takes the history of reform developments in the field and the logics finance officials say they use as sources for these assumptions and examines what they reveal about constructions of the government finance world Exploring new avenues of financial management thinking the book discusses ambiguity and interpretations that move the unclear preferences ends and goals toward consensus The author identifies an alternative approach to research that explains important facets of financial management This approach is drawn directly from practice events and problems in public organizations and from the creedal bent of many political actors in competition Priority of Needs? Bernhard Kittel, Stefan

Traub,2024-03-29 This book develops an empirically informed normative theory of need based justice summarizing core findings of the DFG research group FOR2104 Need based Justice and Distributive Procedures In eleven chapters scholars from the fields of economics political science philosophy psychology and sociology cover the identification and rationale of needs the recognition and legitimacy of needs the dynamics and stability of procedures of distributions according to needs and the consequences and sustainability of need based distributions These four areas are studied from the perspective of two mechanisms of need objectification the social objectification by the discursive generation of mutual understanding transparency and the factual objectification by the transfer of decisions to uninvolved experts expertise The volume addresses academics in the fields of justice research ethics political theory social choice and welfare framing individual and group decision making inequality and redistribution as well as advanced students in the contributing disciplines

Handbook of Public Sector Economics Donijo Robbins,2017-09-25 The Handbook of Public Sector Economics builds an understanding of the role of public economics in public administration public policy and decision making The handbook introduces a wide variety of current issues related to the public provision and production of goods and services The volume documents the history of economics and fiscal doctrine explores the theory of public goods and the structures from which resources are collected and expanded and analyzes heavily debated issues of economics that are important to current and future practitioners of public policy and administration It focuses on the effects of fiscal policy on savings and investment consumer behavior labor supply wealth property and trade Written in a simple and straightforward style the initial chapters establish the foundation of public economics with the subsequent chapters addressing the collection and distribution of government resources and market reactions to fiscal policies **Journal of Housing Research** ,2006 Need-Based

Distributive Justice Stefan Traub,Bernhard Kittel,2020-04-29 This book explores the foundations and potential of a theory of need based distributive justice supported by experimental evidence The core idea is that need based distributive justice may have some legitimacy advantages over other important principles of distribution like equality and equity and therefore involves less dispute over the distribution and redistribution of scarce resources In seven chapters eleven scholars from the fields of philosophy psychology sociology political science and economics outline the normative and positive building blocks of such a theory by critically reviewing the literature on distributive justice from their respective disciplinary perspectives They address important theoretical and practical issues concerning the rationality of needs identification at the individual level and the recognition of needs at the societal level They also investigate whether and how the dynamics of distribution procedures that allocate resources according to the need principle leads to social stability focusing on the economic incentives that arise from need based redistribution The final chapter provides a synthesis and outlines a framework for a theory of justice based on ten hypotheses derived from the insights presented The Economic Psychology of Tax Behaviour

Erich Kirchler,2007-06-21 Tax evasion is a complex phenomenon which is influenced not just by economic motives but by

psychological factors as well Economic psychological research focuses on individual and social representations of taxation as well as decision making In this 2007 book Erich Kirchler assembles research on tax compliance with a focus on tax evasion and integrates the findings into a model based on the interaction climate between tax authorities and taxpayers The interaction climate is defined by citizens trust in authorities and the power of authorities to control taxpayers effectively depending on trust and power either voluntary compliance enforced compliance or no compliance are likely outcomes Featuring chapters on the social representations of taxation decision making and self employed income tax behaviour this book will appeal to researchers in economic psychology behavioural economics and public administration **Finances**

Publiques ,2001 Framing Effects in Taxation Stefan Traub,1999-10-19 The subject of this work is framing effects in the perception of taxation Its purpose is to demonstrate that the framing of the tax system i e describing the tax system either in terms of gains or losses can significantly alter peoples preferences for taxation In order to investigate such framing effects empirically a large survey among the personnel of several North German firms was conducted The first part of the book gives a comprehensive survey of the literature concerned with framing effects a task that has not yet been done and also provides new insights into the theory of framing The second part reports on the results gained from our empirical investigation It is shown that people indeed are susceptible to framing effects in the way hypothesized The results strongly support Richard Thaler s endowment effect hypothesis
