Hortus Deliciarum Garden Of Delights:

Herrad of Landsberg: Hortus deliciarum (Garden of delights) Alexandre Straub,1977 **Garden of Delights** Herrad (of Landsberg, Abbess of Hohenburg),A. Straub,G. Keller,1977-01-01 **Hortus Deliciarum** Rui Sasaki,2004 **The Enclosed Garden and the Medieval Religious Imaginary** Liz Herbert McAvoy,2021 During the Middle Ages the arresting motif of the walled garden especially in its manifestation as a sacred or love inflected hortus conclusus was a common literary device Usually associated with the Virgin Mary or the Lady of popular romance it appeared in myriad literary and iconographic forms largely for its aesthetic decorative and symbolic qualities This study focuses on the more complex metaphysical functions and meanings attached to it between 1100 and 1400 and in particular those associated with the gardens of Eden and the Song of Songs Drawing on contemporary theories of gender gardens landscape and space it traces specifically the resurfacing and reworking of the idea and image of the enclosed garden within the writings of medieval holy women and other female coded texts In so doing it presents the enclosed garden as generator of a powerfully gendered hermeneutic imprint within the medieval religious imaginary indeed as an alternative language used to articulate those highly complex female coded approaches to God that came to dominate late medieval religiosity The book also responds to the eco turn in our own troubled times that attempts to return the non human to the centre of public and private discourse The texts under scrutiny therefore invite responses as both literary and garden spaces where form often reflects content and where their authors are also diligent gardeners the apocryphal Lives of Adam and Eve for example the horticulturally inflected Hortus Deliciarum of Herrad of Hohenburg and the green philosophies of Hildegard of Bingen s Scivias the visionary writings of Gertrude the Great and Mechthild of Hackeborn collaborating within their Helfta nunnery the Middle English poem Pearl and multiple reworkings of the deeply problematic and increasingly sexualized garden enclosing the biblical figure of Susanna **Liturgical Drama and the Reimagining of Medieval Theater** Michael Norton,2017-08-31 The expression liturgical drama was formulated in 1834 as a metaphor and hardened into formal category only later in the nineteenth century Prior to this invention the medieval rites and representations that would forge the category were understood as distinct and unrelated classes as liturgical rites no longer celebrated or as theatrical works of dubious quality This ground breaking work examines liturgical drama according to the contexts of their presentations within the manuscripts and books that preserve them Medieval, Renaissance and Enlightenment Women Philosophers M.E. Waithe,1989-12-31 aspirations the rise of western monasticism was the most note worthy event of the early centuries The importance of monasteries cannot be overstressed as sources of spirituality learning and auto nomy in the intensely masculinized militarized feudal period Drawing their members from the highest levels of society women s monasteries provided an outlet for the energy and ambition of strong willed women as well as positions of considerable authority Even from periods relatively inhospitable to learning of all kinds the memory has been preserved of a good number of women of education Their

often considerable achievements and influence however generally lie outside even an expanded definition of philosophy. Among the most notable foremothers of this early period were several whose efforts signal the possibility of later philosophical work. Radegund in the sixth century established one of the first Frankish convents thereby laying the foundations for women's spiritual and intellectual development. From these beginnings women's monasteries increased rapidly in both number and influence both on the continent and in Anglo Saxon England. Hilda d. 680 is well known as the powerful abbess of the double monastery of Whitby. She was eager for knowledge and five English bishops were educated under her tutelage. She is also accounted the patron of Caedmon the first Anglo Saxon poet of religious verse. The Anglo Saxon nun Lioba was versed in the liberal arts as well as Scripture and canon law.

The Resurrection of the Body in Western Christianity, 200-1336 Caroline Walker Bynum, 2017-11-21 A classic of medieval studies. The Resurrection of the Body in Western Christianity 200-1336 traces ideas of death and resurrection in early and medieval Christianity. Caroline Walker Bynum explores problems of the body and identity in devotional and theological literature suggesting that medieval attitudes toward the body still shape modern notions of the individual. This expanded edition includes her 1995 article 'Why All the Fuss About the Body: A Medievalist's Perspective' which takes a broader perspective on the book's themes. It also includes a new introduction that explores the context in which the book and article were written as well as why the Middle Ages matter for how we think about the body and life after death today.

Medieval Architecture Nicola Coldstream, 2002 Medieval architecture comprises much more than the traditional image of Gothic cathedrals and the castles of chivalry. A great variety of buildings synagogues halls and barns testify to the diverse communities and interests in western Europe in the centuries between 1150 and 1550. This book looks at their architecture from an entirely fresh perspective shifting the emphasis away from such areas as France towards the creativity of other regions including central Europe and Spain. Treating the subject thematically Coldstream seeks out what all buildings both religious and secular have in common and how they reflect the material and spiritual concerns of the people who built and used them. Furthermore the author considers how and why after four centuries of shaping the landscapes and urban patterns of Europe medieval styles were superseded by classicism.

Resurrection, Hell and the Afterlife Mark Finney, 2016-02-22 This book begins by arguing that early Greek reflection on the afterlife and immortality insisted on the importance of the physical body whereas a wealth of Jewish texts from the Hebrew Bible Second Temple Judaism and early Pauline Christianity understood post mortem existence to be that of the soul alone. Changes begin to appear in the later New Testament where the importance of the afterlife of the physical body became essential and such thoughts continued into the period of the early Church where the significance of the physical body in post mortem existence became a point of theological orthodoxy. This book will assert that the influx of Greco Romans into the early Church changed the direction of Christian thought towards one which included the body. At the same time the ideological and polemical thrust of an eternal tortuous afterlife for the wicked became essential.
