## **Hostage To War:**

**Hostage to War** Tatiana Vassiliev, Anna Trenter, trans. Trenter, 1999-01 The diary of a young Russian girl who after months of starvation when Russia is invaded by the Nazis is transported to a labour camp in Germany **Hostage to War** Tat'jana P. Vasil'eva, 1996 A young Russian girl's autobiographical experience of World War Two The story The powerful memoirs in diary form of a Russian girl who survived World War Two despite being taken to be a labourer in Germany Themes war the individual and society families Multicultural Diary form Autobiography Prize Mildred L Batchelder Honor Book for 1998 Strong active central female character KS3 KS4 S1 S4 **Image Warfare in the War on Terror** N. Roger, 2013-01-11 Roger examines how developments in new media technologies such as the internet blogs camera video phones have fundamentally altered the way in which governments militaries terrorists NGOs and citizens engage with images He argues that there has been a paradigm shift from techno war to image warfare which emerged on 9 11 **War** Beatrice Heuser, 2022 War examines the nature of war and presents a genealogy of Western ideas and practices spanning over 2500 years **Soft War** Michael L. Gross, Tamar Meisels, 2017-06-09 Just war theory focuses primarily on bodily harm such as killing maiming and torture while other harms are often largely overlooked At the same time contemporary international conflicts increasingly involve the use of unarmed tactics employing softer alternatives or supplements to kinetic power that have not been sufficiently addressed by the ethics of war or international law Soft war tactics include cyber warfare and economic sanctions media warfare and propaganda as well as non violent resistance as it plays out in civil disobedience boycotts and lawfare While the just war tradition has much to say about hard war bullets bombs and bayonets it is virtually silent on the subject of soft war Soft War The Ethics of Unarmed Conflict illuminates this neglected aspect of international conflict **The War Report** Stuart Casey-Maslen, 2013-12-05 This is a comprehensive Report on every armed conflict which took place during 2012 It is the first of a new series of annual reports on armed conflicts across the globe offering an unprecedented overview of the nature range and impact of these conflicts and the legal issues they create In Part I the Report describes its criteria for the identification and classification of armed conflicts under international law and the legal consequences that flow from this classification It sets out a list of armed conflicts in 2012 categorising each as international non international or a military occupation with estimates of civilian and military casualties In Part II each of these conflicts are examined in more detail with an overview of the belligerents means and methods of warfare the applicable treaties and rules and any prosecutions for investigations into or robust allegations of war crimes Part III of the Report provides detailed thematic analysis of key legal developments which arose in the context of these conflicts allowing for a more in depth reflection on cross cutting questions and controversies The topics under investigation in this Report include drone strikes the use of explosive weapons small arms forced displacement of civilians detention at Guantanamo Bay and the enforcement of international humanitarian and criminal law in both national and international courts The Report gives a full

and accessible overview of armed conflicts in 2012 It should be the first port of call for everyone working in the field

**Jean Baudrillard: Selected Writings** Jean Baudrillard, 2001 An expanded edition of the first comprehensive overview of Baudrillard's work this new edition adds examples from after 1985

**The Nuremberg Military Tribunals and the Origins of International Criminal Law** Kevin Jon Heller, 2012-10-11 This book provides the first comprehensive legal analysis of the twelve war crimes trials held in the American zone of occupation between 1946 and 1949 collectively known as the Nuremberg Military Tribunals NMTs The judgments the NMTs produced have played a critical role in the development of international criminal law particularly in terms of how courts currently understand war crimes crimes against humanity and the crime of aggression The trials are also of tremendous historical importance because they provide a far more comprehensive picture of Nazi atrocities than their more famous predecessor the International Military Tribunal at Nuremberg IMT The IMT focused exclusively on the major war criminals the Goerings the Hesses the Speers The NMTs by contrast prosecuted doctors lawyers judges industrialists bankers the private citizens and lower level functionaries whose willingness to take part in the destruction of millions of innocents manifested what Hannah Arendt famously called the banality of evil The book is divided into five sections The first section traces the evolution of the twelve NMT trials The second section discusses the law procedure and rules of evidence applied by the tribunals with a focus on the important differences between Law No 10 and the Nuremberg Charter The third section the heart of the book provides a systematic analysis of the tribunals jurisprudence It covers Law No 10's core crimes crimes against peace war crimes and crimes against humanity as well as the crimes of conspiracy and membership in a criminal organization The fourth section then examines the modes of participation and defenses that the tribunals recognized The final section deals with sentencing the aftermath of the trials and their historical legacy

**Encyclopedia of War Crimes and Genocide** Leslie Alan Horvitz, Christopher Catherwood, 2014-05-14 Entries address topics related to genocide crimes against humanity and peace and human rights violations profile perpetrators including Joseph Stalin Pol Pot and Idi Amin and discuss institutions set up to prosecute these crimes in countries around the world

**Civilians in a World at War, 1914-1918** Tammy M. Proctor, 2010-08-30 World War I heralded a new global era of warfare consolidating and expanding changes that had been building throughout the previous century while also instituting new notions of war The 1914-18 conflict witnessed the first aerial bombing of civilian populations the first widespread concentration camps for the internment of enemy alien civilians and an unprecedented use of civilian labor and resources for the war effort Humanitarian relief programs for civilians became a common feature of

modern society while food became as significant as weaponry in the fight to win Tammy M Proctor argues that it was World War I the first modern global war that witnessed the invention of both the modern civilian and the home front where a totalizing war strategy pitted industrial nations and their citizenries against each other Civilians in a World at War 1914 1918 explores the different ways civilians work and function in a war situation and broadens our understanding of the civilian to encompass munitions workers nurses laundresses refugees aid workers and children who lived and worked in occupied zones on home and battle fronts and in the spaces in between Comprehensive and global in scope spanning the Eastern Western Italian East African and Mediterranean fronts Proctor examines in lucid and evocative detail the role of experts in the war the use of forced labor and the experiences of children in the combatant countries As in many wars civilians on both sides of WWI were affected and vast displacements of the populations shaped the contemporary world in countless ways redrawing boundaries and creating or reviving lines of ethnic conflict Exploring primary source materials and secondary studies of combatant and neutral nations while synthesizing French German Dutch and English language sources Proctor transcends the artificial boundaries of national histories and the exclusive focus on soldiers Instead she tells the fascinating and long buried story of the civilian in the Great War allowing voices from the period to speak for themselves **Dutch Newspapers on War Victims and Their LSD-treatment by Jan Bastiaans** Leo van Bergen, 2023-04-04 In the 1960s it became clear that survivors of the concentration camps had developed psychological complaints They were diagnosed with KZ syndrome Dutch psychiatrist Jan Bastiaans used LSD in his psychotherapeutic sessions with KZ syndrome sufferers who said they greatly benefitted from his treatment This was despite criticism from medical professionals enough proof for journalists regardless of their signature to defend the drug s usage Without the newspapers LSD probably would have disappeared quickly as a medical tool Over time paradoxically the cause related diagnosis KZ syndrome came to encompass more than just Holocaust survivors soldiers hostages survivors of the Japanese camps and the children of Dutch national socialists were all eventually included within the concept It resulted in an enormous rise in patient numbers and a blurring and eventual disappearance of the concept This book explores the contribution of Dutch newspapers to the historical cultural phenomenon of this rising focus on victims and victimhood without which the later acceptance of PTSD a symptom related diagnosis could not be understood The War Against Ukraine and the EU Claudia Wiesner, Michèle Knodt, 2024-04-29 This open access book aims at discussing the manifold consequences that the War against Ukraine bears for the European Union and EU Studies It takes stock of the fact that the Russian Attack on Ukraine and the ensuing War not only affects the Global Order but also has challenged a number of established narratives and convictions for the European Union and its member states The EU now needs to position itself in the changing world order Concretely it needs to deal with a number of membership applications internal and external challenges to liberal democracy and the development of its strategic autonomy in a number of decisive policy fields The book convenes experienced scholars with chapters covering the following themes and fields

Theories approaches and concepts in EU studies and IR the EU and the changing European and Global Order the War and defence of liberal democracy Membership Politics Energy Policy      The Ethics of War and Peace Helen Frowe,2013-03

When is it right to go to war When is a war illegal What are the rules of engagement What should happen when a war is over How should we view terrorism The Ethics of War and Peace is a fresh and contemporary introduction to one of the oldest but still most relevant ethical debates It introduces students to contemporary Just War Theory in a stimulating and engaging way perfect for those approaching the topic for the first time Helen Frowe explains the core issues in Just War Theory and chapter by chapter examines the recent and ongoing philosophical debates on theories of self defence and national defence Jus ad Bellum Jus in Bello and Jus post Bellum the moral status of combatants the principle of non combatant immunity the nature of terrorism and the moral status of terrorists Each chapter concludes with a useful summary discussion questions and suggestions for further reading to aid student learning and revision The Ethics of War and Peace is the ideal textbook for students studying philosophy politics and international relations      **Officers of the British Forces in Canada During the War of 1812-15** L. Homfray Irving,1908      A History of the Laws of War: Volume 3 Alexander Gillespie,2011-10-07 This unique work of reference traces the origins of the modern laws of warfare from the earliest times to the present day Relying on written records from as far back as 2400 BCE and using sources ranging from the Bible to Security Council Resolutions the author pieces together the history of a subject which is almost as old as civilisation itself The author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and ascribing rules to them protecting civilians who are either inadvertently or intentionally caught up between them and controlling the use of particular classes of weapons that may be used in times of conflict Thus it is that this work is divided into three substantial parts Volume 1 on the laws affecting combatants and captives Volume 2 on civilians and Volume 3 on the law of arms control This third volume deals with the question of the control of weaponry from the Bronze Age to the Nuclear Age In doing so it divides into two parts namely conventional weapons and Weapons of Mass Destruction The examination of the history of arms control of conventional weapons begins with the control of weaponry so that one side could achieve a military advantage over another This pattern which only began to change centuries after the advent of gunpowder was later supplemented by ideals to control types of conventional weapons because their impacts upon opposing combatants were inhumane By the late twentieth century the concerns over inhumane conventional weapons were being supplemented by concerns over indiscriminate conventional weapons The focus on indiscriminate weapons when applied on a mass scale is the core of the second part of the volume Weapons of Mass Destruction are primarily weapons of the latter half of the twentieth century Although both chemical and biological warfare have long historical lineages it was only after the Second World War that technological developments meant that these weapons could be applied to cause large scale damage to non combatants thi is unlike uclear weapons which are a truly modern invention Despite being the newest Weapon of Mass

Destruction they are also the weapon of which most international attention has been applied although the frameworks by which they were contained in the last century appear inadequate to address the needs of current times As a work of reference this set of three books is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself

**War and Individual Rights** Kai Draper, 2016 Kai Draper begins his book with the assumption that individual rights exist and stand as moral obstacles to the pursuit of national no less than personal interests That assumption might seem to demand a pacifist rejection of war for any sustained war effort requires military operations that predictably kill many noncombatants as collateral damage and presumably at least most noncombatants have a right not to be killed Yet Draper ends with the conclusion that sometimes recourse to war is justified In making his argument he relies on the insights of John Locke to develop and defend a framework of rights to serve as the foundation for a new just war theory Notably missing from that framework is any doctrine of double effect Most just war theorists rely on that doctrine to justify injuring and killing innocent bystanders but Draper argues that various prominent formulations of the doctrine are either untenable or irrelevant to the ethics of war Ultimately he offers a single principle for assessing whether recourse to war would be justified He also explores in some detail the issue of how to distinguish discriminate from indiscriminate violence in war arguing that some but not all noncombatants are liable to attack

*Judges, Law and War* Shane Darcy, 2014-08-07 International courts and judicial bodies play a formative role in the development of international humanitarian law Judges Law and War examines how judicial bodies have influenced the substantive rules and principles of the law of armed conflict and studies the creation application and enforcement of this corpus of laws Specifically it considers how international courts have authoritatively addressed the meaning and scope of particular rules the application of humanitarian law treaties and the customary status of specific norms Key concepts include armed conflicts and protected persons guiding principles fundamental guarantees means and methods of warfare enforcement and war crimes Consideration is also given to the contemporary place of judicial bodies in the international law making process the challenges presented by judicial creativity and the role of customary international law in the development of humanitarian law

**War Remains** Yasmine Khayyat, 2023-05-15 War Remains traces the poetics of ruination and resistance in select contemporary Lebanese wartime literature cultural production and sites of memory Drawing upon work from southern Lebanon and Beirut Khayyat examines how war remains are employed as a resistant trope in the intellectual spaces of war s aftermath She focuses on Southern Counterpublics a collective of poets novelists activists artists and ordinary citizens and their war inspired creative productions that speak to the ruins capacity to be reframed recycled and recontested Khayyat argues that the ruins of war can be thought of as a generative milieu for resistant thought and action An ambitious and provocative work War Remains ventures to the so called margins to archive the texture and substance rendered invisible

when studies of memory rely solely on data furnished by official narratives and military accounts of war

**War crimes and crimes against humanity in the Rome Statute of the International Criminal Court** Christine Byron, 2013-07-19 This book provides a critical analysis of the definitions of war crimes and crimes against humanity as construed in the Rome Statute of the International Criminal Court Each crime is discussed from its origins in treaty or customary international law through developments as a result of the jurisprudence of modern ad hoc or internationalised tribunals to modifications introduced by the Rome Statute and the Elements of Crimes The influence of human rights law upon the definition of crimes is discussed as is the possible impact of State reservations to the underlying treaties which form the basis for the conduct covered by the offences in the Rome Statute Examples are also given from recent conflicts to aid a real life discussion of the type of conduct over which the International Criminal Court may take jurisdiction This will be relevant to postgraduates academics and professionals with an interest in the International Criminal Court and the normative basis for the crimes over which the Court may take jurisdiction
