*The SAGE Handbook of Qualitative Geography* Dydia DeLyser, 2010 The process of learning qualitative research has altered dramatically and this Handbook explores the growth change and complexity within the topic and looks back over its history to assess the current state of the art and indicate possible future directions Moving beyond textbook rehearsals of standard issues the book examines key methodological debates and conflicts approaching them in a critical discursive manner **Sexual Revolutions in Cuba** Carrie Hamilton, 2012-03-12 In *Sexual Revolutions in Cuba* Carrie Hamilton delves into the relationship between passion and politics in revolutionary Cuba to present a comprehensive history of sexuality on the island from the triumph of the Revolution in 1959 into the twenty first century Drawing on an unused body of oral history interviews as well as press accounts literary works and other published sources Hamilton pushes beyond official government rhetoric and explores how the wider changes initiated by the Revolution have affected the sexual lives of Cuban citizens She foregrounds the memories and emotions of ordinary Cubans and compares these experiences with changing policies and wider social political and economic developments to reveal the complex dynamic between sexual desire and repression in revolutionary Cuba Showing how revolutionary and prerevolutionary values coexist in a potent and sometimes contradictory mix Hamilton addresses changing patterns in heterosexual relations competing views of masculinity and femininity same sex relationships and homophobia AIDS sexual violence interracial relationships and sexual tourism Hamilton s examination of sexual experiences across generations and social groups demonstrates that sexual politics have been integral to the construction of a new revolutionary Cuban society **Violence in Rural South Africa, 1880-1963** Sean

Redding, 2023-02-21 Violence was endemic to rural South African society from the late nineteenth century to the mid twentieth century But acts of violence were not inherent in African culture rather violence resulted from the ways in which Africans navigated the hazardous social and political landscape imposed by white rule Focusing on the Eastern Cape province Sean Redding investigates the rise of large scale lethal fights among men increasingly coercive abduction marriages violent acts resulting from domestic troubles and witchcraft accusations within families and communities and political violence against state policies and officials Many violent acts attempted to reestablish and reinforce a moral social and political order among Africans However what constituted a moral order changed as white governance became more intrusive land became scarcer and people reconstructed their notions of traditional culture State policies became obstacles around which Africans had to navigate by invoking the idea of tradition using the state s court system alleging the use of witchcraft or engaging in violent threats and acts Redding s use of multiple court cases and documents to discuss several types of

violence provides a richer context for the scholarly conversation about the legitimation of violence in traditions family life and political protest *New Intimacies, Old Desires* Oishik Sircar, Dipika Jain, 2017-06-21 In the last 15 years queer movements in many parts of the world have helped secure the rights of queer people These moments have been accompanied by the brutal rise of crony capitalism the violent consequences of the war on terror the hyper juridification of politics the financialization managerialization of social movements and the medicalization of non heteronormative identities practices How do we critically read the celebratory global proliferation of queer rights in these neoliberal times This volume responds to the complicated moment in the history of queer struggles by analysing laws state policies and cultures of activism to show how new intimacies between queer sexuality and neoliberalism that celebrate modernity and the birth of the liberated sexual citizen are in fact reproducing the old colonial desire of civilizing the native By paying particular attention to the problematics of race religion and class this volume engages in a rigorous self reflexive critique of global queer politics and its engagements confrontations and negotiations with modernity and its investments in liberalism legalism and militarism with the objective of queering the ethics of our queer politics Published by Zubaan *The Spatial, the Legal and the Pragmatics of World-Making* David Delaney, 2010-07-12 Critical legal geography is practised by an increasing number of scholars in various disciplines but it has not had the benefit of an overarching theoretical framework that might overcome its currently rather ad hoc character The Spatial the Legal and the Pragmatics of World Making remedies this situation Presenting a balanced convergence of contemporary socio legal and critical geographic scholarship David Delaney offers a ground breaking contribution to the fast growing field of legal geography Drawing on strands of critical social studies that inform both of these areas this book has three primary components First it introduces a framework of interpretation and analysis centred on the productive neologisms nomosphere and nomoscapes Nomosphere refers to the cultural material environs that are constituted by the reciprocal materialization of the legal and the legal signification of the socio spatial Nomoscapes are the spatio legal expression and the socio material realization of ideologies values pervasive power orders and social projects They are extensive ensembles of legal spaces within and through which lives are lived and here these neologisms are related to the more familiar notions of governmentality and performativity Second these neologisms are explored and applied through a series of illustrations and extensive case studies Demonstrating their utility for scholars and students in relevant disciplines these empirical studies concern the public and the private property and land tenure governance the domestic and the international and legal spatial confinements and containments Third these studies contribute to an ongoing theorization of the experiential situated pragmatics of world making The role of nomospheric projects and counter projects techniques and operations is therefore emphasized Much of what is experientially significant about how the world is as it is and what it is like to be in the world directly implicates the dynamic interplay of space law meaning and power The Spatial the Legal and the Pragmatics of World Making provides the interpretive resources necessary for discerning and understanding the

practices and projects involved in this interplay      **Sex in Transition** Amanda Lock Swarr, 2012-12-06 Honorable Mention 2013 Ruth Benedict Book Prize presented by the Association for Queer Anthropology Honorable Mention 2014 Distinguished Book Award presented by the Section on Sexualities of the American Sociological Association Winner of the 2013 Sylvia Rivera Award in Transgender Studies presented by the Center for Gay and Lesbian Studies Sex in Transition explores the lives of those who undermine the man woman binary exposing the gendered contradictions of apartheid and the transition to democracy in South Africa In this context gender liminality a way to describe spaces between common conceptions of man and woman is expressed by South Africans who identify as transgender transsexual transvestite intersex lesbian gay and or eschew these categories altogether This book is the first academic exploration of challenges to the man woman binary on the African continent and brings together gender queer and postcolonial studies to question the stability of sex It examines issues including why transsexuals sex transitions were encouraged under apartheid and illegal during the political transition to democracy and how butch lesbians and drag queens in urban townships reshape race and gender Sex in Transition challenges the dominance of theoretical frameworks based in the global North drawing on fifteen years of research in South Africa to define the parameters of a new transnational transgender and sexuality studies      **A Companion to Feminist Geography** Lise Nelson, Joni Seager, 2025-07-28 A Companion to Feminist Geography captures the breadth and diversity of this vibrant and substantive field Shows how feminist geography has changed the landscape of geographical inquiry and knowledge since the 1970s Explores the diverse literatures that comprise feminist geography today Showcases cutting edge research by feminist geographers Charts emerging areas of scholarship such as the body and the nation Contributions from 50 leading international scholars in the field Each chapter can be read for its own distinctive contribution      **Mobility, Sexuality and AIDS** Felicity Thomas, Mary Haour-Knipe, Peter Aggleton, 2009-10-16 Mobility Sexuality and AIDS recognises the complex relationships between individual circumstances different forms of migration and the different ways in which communities and states respond It will be invaluable for students and academics of migration development studies anthropology sociology geography and public health      **South African Homelands as Frontiers** Steffen Jensen, Olaf Zenker, 2018-02-02 This book explores what happened to the homelands in many ways the ultimate apartheid disgrace after the fall of apartheid The nine chapters contribute to understanding the multiple configurations that currently exist in areas formerly declared homelands or Bantustans Using the concept of frontier zones the homelands emerge as areas in which the future of the South African postcolony is being renegotiated contested and remade with hyper real intensity This is so because the many fault lines left over from apartheid its loose ends so to speak between white and black between different ethnicities between rich and poor or differentiated by gender generation and nationality between traditions and modernities or between wilderness and human habitation are particularly acute and condensed in these so called communal areas Hence the book argues that it is particularly in these settings that the postcolonial promise of liberation and freedom must face its

test As such the book offers highly nuanced and richly detailed analyses that go to the heart of the diverse dilemmas of post apartheid South Africa as a whole but simultaneously also provides in condensed form an extended case study on the predicaments of African postcoloniality in general This book was originally published as a special issue of the Journal of Southern African Studies At Home with Apartheid Rebecca Ginsburg, 2011-08-30 Despite their peaceful bucolic appearance the tree lined streets of South African suburbia were no refuge from the racial tensions and indignities of apartheid s most repressive years In *At Home with Apartheid* Rebecca Ginsburg provides an intimate examination of the cultural landscapes of Johannesburg s middle and upper middle class neighborhoods during the height of apartheid c 1960 1975 and incorporates recent scholarship on gender the home and family More subtly but no less significantly than factory floors squatter camps prisons and courtrooms the homes of white South Africans were sites of important contests between white privilege and black aspiration Subtle negotiations within the domestic sphere between white mostly female householders and their black domestic workers also primarily women played out over and around this space These seemingly mundane private conflicts were part of larger contemporary struggles between whites and blacks over territory and power Ginsburg gives special attention to the distinct social and racial geographies produced by the workers detached living quarters designed by builders and architects as landscape complements to the main houses Ranch houses Italianate villas modernist cubes and Victorian bungalows filled Johannesburg s suburbs What distinguished these neighborhoods from their precedents in the United States or the United Kingdom was the presence of the ubiquitous back rooms and of the African women who inhabited them in these otherwise exclusively white areas The author conducted more than seventy five personal interviews for this book an approach that sets it apart from other architectural histories In addition to these oral accounts Ginsburg draws from plans drawings and onsite analysis of the physical properties themselves While the issues addressed span the disciplines of South African and architectural history feminist studies material culture studies and psychology the book s strong narrative powerful oral histories and compelling subject matter bring the neighborhoods and residents it examines vividly to life **The Urban Roots of Democracy and Political Violence in Zimbabwe** Timothy

Scarnecchia, 2008 The author further proposes that this recourse to political violence top down nationalism and the abandonment of urban democratic traditions are all hallmarks of a particular type of nationalism equally unsustainable in Zimbabwe then as it is now **BOOK JACKET** *Homes and Homecomings* K. H. Adler, Carrie Hamilton, 2011-07-12 In *Homes and Homecomings* an international group of scholars provide inspiring new historical perspectives on the politics of homes and homecomings Using innovative methodological and theoretical approaches the book examines case studies from Africa Asia the Americas and Europe Provides inspiring new historical perspectives on the politics of homes and homecomings Takes an historical approach to a subject area that is surprisingly little historicised Features original research from a group of international scholars The book has an international approach that focuses on Africa Asia the Americas and East and West

Europe Contains original illustrations of homes in a variety of historical contexts *Welcome to Greater Edendale* Marc Epprecht, 2016-11-01 In the coming decades the bulk of Africa's anticipated urban population growth will take place in smaller cities. Failure to manage environmental and public health problems in one such aspiring city Edendale has fostered severe pollution, seemingly intractable poverty and gender inequalities that directly fuel one of the worst HIV/AIDS pandemics in the world. A nuanced and timely presentation of South African responses to changing times, conditions, opportunities and state interventions. *Welcome to Greater Edendale* reconstructs nearly two centuries of contestation over land, governance, human rights, identity, housing, sanitation, public health and the meaning of development. Bringing gender and health issues to the foreground, Marc Epprecht reveals many unexpected or forgotten triumphs against environmental injustice but also unsettling continuities between colonial apartheid and post-apartheid policies to spur economic growth. Sheltered from the glare of national media and often overlooked by scholars, smaller cities like Edendale attract political patronage, corruption and violent protests while rapid climate change promises to further strain their infrastructure, social services and public health. A challenging, innovative and thoughtful examination of the history and politics of South Africa. *Welcome to Greater Edendale* questions the common assumptions embedded in environmental policy, gender relations, democracy and the neoliberal model of development in which so many African cities are ensnared. Sorcery and Sovereignty Sean Redding, 2006 Publisher description **New Perspectives on Gender and Migration** Nicola Piper, 2013-09-13 This book discusses recent theoretical and empirical developments in international migration from a gender perspective. Its main objective is to analyse the diversification and stratification of gendered migratory streams with regard to skill level, labour market integration and legal status. In turn, a migrant's position in relation to these axes influences access to entitlements and rights. Conceptually, the book builds upon the recent shift in scholarly research on migration with women-centred research shifting more toward the analysis of gender. Migration is now viewed as a gendered phenomenon that requires more sophisticated theoretical and analytical tools than sex as a dichotomous variable. Theoretical formulations of gender as relational and as spatially and temporally contextual have begun to inform gendered analyses of migration. The contributions to this book elaborate in more detail the broader social factors that influence migrating women's and men's roles, access to resources, facilities and services. Empirically, all major regions are discussed, pointing to common trends such as the increasing significance of the regionalization of migration flows as well as some noteworthy differences. **Unstable Ground** Rosalind C. Morris, 2025-03-04 What has gold done to people? What has it made them do? The Witwatersrand in South Africa, once home to the world's richest goldfields, is today scattered with abandoned mines into which informal miners known as zama zamas venture in an illicit, often deadly search for ore. Based on field research conducted across more than twenty-five years around these mines, *Unstable Ground* reveals the worlds that gold made possible and gold's profound costs for those who have lived in its shadow and dreamt of its transformative power. From the vantage point of the closure of South

Africa's gold mines Rosalind C Morris reconsiders their histories beginning in the present and descending into the pasts that shaped them Anchored in evocative descriptions of mining in the ruins this book explores the social worlds built on gold and the lives that were remade and sometimes undone by the industry over a century and a half Viewing this industry from its margins against the backdrop of the cyanide revolution the gold standard's demise and recurrent sinkholes as well as the insurrectionary protests and violence that continue to this day it recasts the history of South Africa and the incomplete effort to overcome apartheid amid the transformations of the global economy In writing that is by turns immersive incisive and poetic Morris unearths a history that was born of imperial aspiration and that persists as a speculative mirage Interweaving ethnography history personal testimony and political thought with striking readings of South African literary texts *Unstable Ground* is a work of extraordinary ambition and depth
