Hot War Cold War:

Bombs Away Harry Turtledove, 2016-06-28 In his acclaimed novels of alternate history Harry Turtledove has scrutinized the twisted soul of the twentieth century from the forces that set World War I in motion to the rise of fascism in the decades that followed Now this masterly storyteller turns his eyes to the aftermath of World War II and asks In an era of nuclear posturing what if the Cold War had suddenly turned hot **Bombs Away** begins with President Harry Truman in desperate consultation with General Douglas MacArthur whose control of the ground war in Korea has slipped disastrously away MacArthur recognizes a stark reality The U S military has been cut to the bone after victory over the Nazis while China and the USSR have built up their forces The only way to stop the Communist surge into the Korean Peninsula and save thousands of American lives is through a nuclear attack MacArthur advocates a strike on Chinese targets in Manchuria In actual history Truman rejected his general s advice here he does not The miscalculation turns into a disaster when Truman fails to foresee Russia s reaction Almost instantly Stalin strikes U S allies in Europe and Great Britain As the shock waves settle the two superpowers are caught in a horrifying face off Will they attack each other directly with nuclear weapons What countries will be caught in between The fateful global drama plays out through the experiences of ordinary people from a British barmaid to a Ukrainian war veteran to a desperate American soldier alone behind enemy lines in Korea For them as well as Truman Mao and Stalin the whole world has become a battleground Strategic strikes lead to massive movements of ground troops Cities are destroyed economies ravaged And on a planet under siege the sounds and sights of nuclear bombs become a grim harbinger of a new reality the struggle to survive man s greatest madness Praise for **Bombs Away** A fascinating and compelling story of real people caught in forces beyond their control Harry Turtledove is the unrivaled monarch of alternate history Analog Turtledove is an undisputed centerpiece of the alternate history genre and now to his already grand display he s adding the ambitious tale of a WWII that could have happened Booklist This is Turtledove at his best SFRevu Alternate world warrior extraordinaire Turtledove delivers the opening barrage of a new speculative conflict Kirkus Reviews *The Cold War: Hot wars of the Cold War* Lori Lyn Bogle, 2001 *Hot War, Cold War* Ian Mather, 2018 [Hot War, Cold War & Beyond, Tales from the Trenches of the 20Th Century](#) Austin Goodrich, 2011-03-03 The last three quarters of the Twentieth Century probably had more life changing events than all previous history Austin Goodrich reflects on the role he played in driving this history to a successful conclusion in the interest of all he believed in From a quiet street in a quiet middle class midwestern city Austin was thrown into the cauldron of World War II as an infantry man known in the old days as a gravel clutcher After serving in both the European and Pacific Theatres in the 86th Blackhawk Division Goodrich pursued his WWII promise to serve the cause of world peace by joining the Central Intelligence Agency The rest is history as told by one who participated in his countrys first line of defense as a CIA case offi er serving for most of his 25 years under non official deep cover **Hot War, Cold War** Colin McInnes, 1996 This is an examination of the way in which the British Army has fought its

wars since 1945 and of the Army's place in defence policy. It covers a variety of conflicts in which the Army has been used from Korea and Kuwait to Northern Ireland.

Cold War Hot Peter G. Tsouras, 2011-10-19 It was in the Third World that the ambitions and fears of the two Cold War superpowers were played out v Korea Vietnam Egypt and Syria Afghanistan. In their bizarre way these were carefully controlled wars carefully controlled in the sense that neither great power allowed itself to become directly engaged in a hot war with the other. Equally neither allowed itself to go for broke in a grand sweep across the Third World in fear of provoking that final confrontation. But this fear of direct confrontation was never as rigidly controlled as one would think. Again and again events veered towards a clash between Eagle and Bear. The authors of this book make real such terrifying possibilities as Korea or the 67 War dragging in both superpowers. They predict the consequences of the United States or the Soviet Union attempting radical strategies in Vietnam or in a divided Germany either to follow the British success in Malaya or to invade the North. They imagine the invasion of Cuba when the delicate signals failed to find a way out of the Missile Crisis and bring to life a scenario in which the Soviet Union knocks the Great Game off the board by using Afghanistan as base to bring down Pakistan and achieve its warm water port on the Indian Ocean. **Cold War Hot** vividly brings to life these and many other alternate scenarios taking the reader behind the scenes at these momentous moments in history. In showing what could have happened the authors show how precarious the Cold War peace actually was and how little it would have taken to tip the balance into World War Three.

My Two Hot Wars & One Cold War Dale C. Ford, 2011-06 In 1949 Dale Ford joined the peacetime Air Force. Two days after he graduated from flying school the Korean War started. What a jolt that was. Rather foolishly he had not really considered that he might be called upon to fly combat someday. President Truman's order for our armed forces to support South Korea in their fight with North Korea quickly changed that. After about ten months of additional training Ford found himself in the middle of that fight. He flew one hundred combat missions against the Russian Mig 15 in the swept wing F 86 jet fighters of the 4th and 51st Fighter Interceptor Wings. He was not a hero or a jet ace. He was just a buck second lieutenant doing his job. Ford spent three years as a jet fighter pilot and thoroughly enjoyed every minute of it. Ford went on to receive a bachelor's degree in aeronautical engineering from Purdue University. In 1956 he joined Convair Aeronautical Corporation builder of the world's first supersonic bomber. He spent the next five years working closely with and flying with the B 58 test pilots as a flight test engineer. They blazed new ground taking this four engine 160 000 pound aircraft to twice the speed of sound in the 1950s and proved it was ready for production for the U S Air Force. Join author Dale Ford as he relives and relates one man's experiences through Two Hot Wars and One Cold War.
