Exploring History through Young Adult Literature Paula Greathouse,Melanie Hundley,Andrew L.

Hostetler,2024-06-17 Giving students opportunities to read like historians has the potential to move their thinking and understanding of history in monumental ways In Exploring History through Young Adult Literature Middle School Volume 1 each chapter presented in this volume provides middle school readers with approaches and activities for pairing a young adult novel with specific historical events eras or movements Chapters include suggested instructional activities for before during and after reading as well as extension activities that move beyond the text Each chapter concludes with a final discussion on how the spotlighted YA text can inspire students to be moved to take informed action within their communities or beyond Through the reading and study of the young adult novels students are guided to a deeper understanding of history while increasing their literacy practices **Exploring Diversity through Multimodality, Narrative, and Dialogue** Mary B. McVee,Fenice B. Boyd,2015-09-16 Exploring Diversity through Multimodality Narrative and Dialogue awakens educators to the ways in which values beliefs language use culture identity social class race and other factors filter approaches to teaching and expectations for students Designed as a guide to help educators engage in dialogic interactions the text articulates a theoretically grounded and research based framework related to the use of personal narratives as learning tools Educators are encouraged to consider their own positions explore topics of diversity and social justice and identify ways to better address student needs Drawing on theories from multiliteracies multimodality embodiment and narrative chapters are framed around book discussions and the use of personal narrative to define and provide examples of dialogic interactions Unique to this book is its focus on embodied learning and multimodality as well as myriad artifacts produced by educators listening not just dialogic talk writing both traditional print texts and multimodal composition that supports dialogic interaction and not merely responding to literature but developing empathic responses to texts students and others whose opinions may differ from one s own viewpoints The specific techniques and approaches presented can be used within

educational and professional development settings to help readers enhance their journey toward greater awareness of others and of their own beliefs and experiences that lead toward social justice for all

Integrating Music and Reading

Instruction Laura J. Andrews, Patricia E. Sink, 2002 Addressing the important topic of the effects of music and reading integration on students' achievements and attitudes, this book presents twenty lessons for integrating selected music and reading concepts and skills. Designed for upper elementary music and reading teachers, it provides specific materials and teaching techniques.

Mindset Mathematics: Visualizing and Investigating Big Ideas, Grade 8 Jo Boaler, Jen Munson, Cathy Williams, 2020-01-29 Engage students in mathematics using growth mindset techniques. The most challenging parts of teaching mathematics are engaging students and helping them understand the connections between mathematics concepts. In this volume, you will find a collection of low floor, high ceiling tasks that will help you do just that by looking at the big ideas at the eighth grade level through visualization, play, and investigation. During their work with tens of thousands of teachers, authors Jo Boaler, Jen Munson, and Cathy Williams heard the same message: that they want to incorporate more brain science into their math instruction, but they need guidance in the techniques that work best to get across the concepts they needed to teach. So the authors designed Mindset Mathematics around the principle of active student engagement with tasks that reflect the latest brain science on learning. Open, creative, and visual math tasks have been shown to improve student test scores and more importantly, change their relationship with mathematics and start believing in their own potential. The tasks in Mindset Mathematics reflect the lessons from brain science: that there is no such thing as a math person; anyone can learn mathematics to high levels; mistakes, struggle, and challenge are the most important times for brain growth; speed is unimportant in mathematics; mathematics is a visual and beautiful subject, and our brains want to think visually about mathematics. With engaging questions, open-ended tasks, and four color visuals that will help kids get excited about mathematics, Mindset Mathematics is organized around nine big ideas which emphasize the connections within the Common Core State Standards (CCSS) and can be used with any current curriculum.

Reading With Purpose Erika Thulin Dawes, Katie Egan Cunningham, Grace Enriquez, Mary Ann Cappiello, 2023 From the authors of the popular blog and resource for teachers, The Classroom Bookshelf, this book offers a framework and teaching ideas for using recently released children's and young adult literature to build a culture of inquiry and engagement from a text-first approach. Reading With Purpose is designed to help K-8 teachers tap into their inner reader to make intentional text selections for their students and to create joyful and purpose-driven literacy learning experiences. The heart of the book is organized according to four purposes for selecting and using literature: care for ourselves and one another; connect with the past to understand the present; closely observe the world around us; and cultivate critical consciousness. Each chapter includes classroom stories, accessible research, reasons for why this matters now, and criteria for selecting for this purpose. A final section provides teaching invitations that pair with suggested books but can also be used with any high-quality books teachers may already have in their classrooms.

Book Features Builds on important work from thought leaders urging teachers to create their own reading identities to help them do so for their students Describes a simple sustainable framework teachers and teacher educators can use immediately to make more purposeful text selections Provides myriad teaching ideas narrative anecdotes from diverse classrooms student work samples and reflective questions Offers a list of recommended recently published children s and young adult literature
