Hour Of The Laity Their Expanding Role:

The Emerging Laity Aurelie A. Hagstrom, 2010 One of the best kept secrets in the church is the story of the emergence of the Catholic laity from pray pay and obey passive spectators to men and women assuming their rightful roles in liturgy ministry and other church functions This evolution is not merely a response to the ever dwindling number of priests and thus the need for others to assume these functions but is primarily a recognition of the laity's call to serve through the sacrament of baptism in which they all share In this well researched book Aurelie Hagstrom describes the emergence of the laity during the twentieth century and presents a compelling theology of the laity based on scripture on a renewed understanding of the sacrament of baptism and especially on the great watershed in church thinking brought about by the Second Vatican Council She assures Catholic lay persons that their everyday lives are the stuff by which they attain a holiness that is as valid as that lived by clergy and religious Book jacket

Doing Ministry in the Igbo Context Cajetan E. Ebuziem, 2011 *Doing Ministry in the Igbo Context Towards an Emerging Model and Method for the Church in Africa* arises out of reflection on experience and practice The volume reflects on the author's own cultural context religious heritage and pastoral functioning In addition it considers the author's personal experiences in relation to the common experiences of others within the author's cultural and religious traditions and places these experiences and the voices they represent into mutually critical correlation Thus commonalities and dissonances in them emerge leading to insights where to go from there in providing ministry to the People of God in the local church context and still within the framework of one universal church This book presents a contextual model of local theology that begins its reflection with the Igbo cultural context The Igbo or Nigerian or African Church can have a pattern of ministry with a model and a method that are consistent with the people's values To accomplish this goal a local cultural value must be explored and brought into the scene Since the Igbo society is the heart of Christianity and Catholicism in Africa the author relies on Igboland as his situational context The exploration of the indigenous Igbo value of collaboration will be an advantage in ministering to the rest of the African people who have cultural resemblances to Igbos The African Church has to learn from the Igbo values of *umunna bu ike* Umunnais the basic Igbo unit and possibly the most powerful missionary force in Igboland and potentially an Igbo gift to the Church in Nigeria and Africa and even beyond Back cover

the Church It brings biblical theological and ecumenical perspectives to bear on a ministry that many believe has not yet realised its full potential Diakonia is reinterpreted in the light of recent biblical research as fundamental commissioning for ministry one that expresses the essential nature of the whole Church and underlies all ordained ministry Deacons are seen as go between or link persons in the mission space between the Church s liturgy and the needy world This report of a Working Party of the House of Bishops set up by the General Synod also comments on the implications for lay ministry and proposes a concrete job description or ministerial profile for a renewed diaconate one that is not merely transitional to the priesthood The Report argues that the Diaconate comes into its own at times of social change and cultural crisis and that the time is now right to renew the diaconate for the sake of mission
