House Design Harry Seidler Recent Houses:

Houses and Interiors Vol 2 Harry Seidler, 2003 No other architect in Australia's history has been as internationally influential or famous as Harry Seidler. This work provides an insight into and an analysis of the designs selected by Seidler to be his most important.

Multi-Family Housing Michael J. Crosbie, The Images Publishing Group, 2003 Multi-family housing is acknowledged as a complex residential building type. The architect's design must foster a sense of community in an urban setting while also accommodating the need for a resident's individual space. This new volume documents more than

Designer Suburbs Judith O'Callaghan, Charles Pickett, 2012-11-01 In the 1950s, 60s and 70s architects like Harry Seidler, Robin Boyd, Ken Woolley, Michael Dysart and Graeme Gunn applied their talents to project homes bringing high-end design to the suburbs. Backed by Pettit Seivitt Merchant Builders and other project builders, architects created small, deceptively simple houses which transformed the look of suburbia. Today the distance between the architectural profession and suburban housing has never been greater with Australia's super-sized energy-guzzling project homes, the biggest in the world. With photographs by Max Dupain, David Moore, Wolfgang Sievers and Eric Sierins alongside original plans, *Designer Suburbs* explores the relationship between architects, builders and affordable housing since 1900 and the lessons we can learn from twentieth-century designer suburbs.

Green Fields, Brown Fields, New Fields David Nichols, Anna Hurlimann, Clare Mouat, Stephen Pascoe, 2010 The conference explores past and future approaches to managing and designing for growth, development and decline. This goes beyond debates over density, frontier development and renewal. It includes new fields of historical policy and social research which inform discussion of heritage, growth, environmental, economic and other issues of urban life and urban form. Page iii

Key Houses of the Twentieth Century Colin Davies, 2006 Featuring over 100 of the most significant and influential houses of the twentieth century. For each of the houses included, there are numerous accurate scale plans showing each floor, together with elevations, sections and site plans where appropriate. All of these have been specially drawn for this book and are based on the most up-to-date information and sources.

The New Modernist House Patricia Callan, 2023-10-31 The intuitive design, sunlit spaces and tranquil vibe of Modernist houses still have an enduring appeal today. But can these homes be updated for contemporary living while maintaining the integrity of the original architecture? *The New Modernist House* presents twenty-one mid-century homes respectfully restored and renewed for future generations to enjoy. Designs by some of the period's heavyweights including Anatol Kagan, Alistair Knox and Ernest Fooks have been sensitively updated by today's creative innovators. Alongside stories of the passionate homeowners, architects and collaborators who have given these homes new life, a historical overview and section on practical considerations inform those drawn to a Modernist dream house. This colourful volume is both a useful resource for those embarking on their own renovation journey and a sourcebook of inspiration for delighting in moments of nostalgia.

Robin Boyd Geoffrey Serle, 1991-11-30 Robin Boyd gifted architect writer teacher and social commentator was the leading Australian propagandist for the International Modern Movement in architecture In partnership with Roy Grounds and Frederick Romberg he was noted for his innovative domestic buildings Indeed the suburban home was often a focus of Boyd s thinking writing and criticism and in Australia s Home 1952 he provided the first substantial interpretation of Australia s architectural history But the most popular and controversial of Boyd s nine books was The Australian Ugliness 1960 in which he scourged prevailing tastes in both architecture and popular culture The sentiments he expressed here made him one of Australia s liveliest social critics But his criticism sprang from patriotism and ambition for his country Boyd was a very private man who left few personal letters or records In this highly acclaimed and beautifully illustrated book Geoffrey Serle writes predominantly about Boyd s work and public activities allowing key selections from Boyd s writings to reveal the inner man

implications of this experiencing for architectural and urban design Numerous illustrations throughout demonstrate how various design schemes can be used Urban Design The American Experience provides architects designers city planners and students in these fields with a model for their own future development as professionals It is a valuable guide to design methodology procedural theory and other issues related to creating optimal urban environments *The Garden of Ideas* Richard Aitken,2010 The Garden of Ideas tells an inspiring and engaging story of Australian garden design From the imaginings of emigrant garden makers of the late eighteenth century to the concerns of twenty first century gardeners this book charts its way across four centuries through a handsome and satisfying fusion of images and text The Garden of Ideas is embellished with an unparalleled array of images paintings drawings prints plans and photographs each richly evocative of their time and most never previously published Unearthed from around Australia and many from overseas these images carry the story of Australian garden style down the years in the process criss crossing social and cultural history across the wide extremes of our continent Richard Aitken whose book Botanical Riches was published in 2006 to popular and critical acclaim brings a lifetime of experience to The Garden of Ideas He achieves fresh insights and presents our passion for garden making with wit and flair The Garden of Ideas is a valuable source book for the sophisticated gardener and an indispensable companion for the garden lover **Experiments in Modern Living** Milton Cameron,2012-05-01 When a group of brilliant young scientists arrived in Australia s national capital after World War II to take up leading roles in the establishment of national research institutions they commissioned Australia s leading architects to design their private houses The houses that resulted from these unique collaborations rejected previous architectural styles and wholeheartedly embraced modernist ideologies and aesthetics The story of how these progressive clients contributed to the innovative design of their houses brings fresh insights to mid twentieth century Australian domestic architecture and to Canberra s rich cultural history

Australia's Home Robin Boyd,2015-09-04 Since its first publication by Melbourne University Press Australia s Home has been in constant demand The author summarises his story from 1788 to 1960 as a material triumph and an aesthetic calamity Readers have thoroughly enjoyed the combination of informative detail and quiet humour and the architectural features of a house a street or a suburb which have up until now been simply different gain an added interest and significance People read Australia s Home for pure pleasure as an eventful illuminating story Householders read it to see their house and streetscapes afresh through Boyd s eyes their own vision both criticised and enriched by his Architects and planners read it to agonise with Boyd over built forms and townscapes But the book is most remarkable of all as history a great bit of poaching by an architect journalist who never claimed to write history at all Contemporary Architects Muriel Emanuel,2016-01-23 Le Corbusier in the Antipodes Antony Moulis,2020-12-30 This book considers the architect Le Corbusier s encounters with Australia and New Zealand as a two way exchange showing the impact of his ideas and projects on architects of the region whilst also revealing counterinfluences on Le Corbusier in his post war career that were activated by his contacts Compiled

from detailed archival research undertaken at the Fondation Le Corbusier Paris and nationally based archives Le Corbusier in the Antipodes brings together a set of episodes placing them in context with the history of modern art architecture and urbanism in 20th century Australia and New Zealand Key exchanges between Le Corbusier and others never before described are presented and analyzed including Le Corbusier's contact with Australian architect Harry Seidler at Chandigarh Le Corbusier's drawing of the plan of Adelaide in 1950 and his creative collaboration with Jorn Utzon on art for the Sydney Opera House This book also includes analysis of previously unseen Le Corbusier artworks which formed part of the Utzon family collection In reading these personal and contingent moments of encounter the book puts forward new ways of understanding the dissemination and mediation of Le Corbusier's ideas and their effects in post war Australia and New Zealand These antipodean contacts are set against the broader story of Le Corbusier's career questioning received interpretations of his design methods and current assumptions about the influence of his work in national contexts beyond Europe

Douglas Snelling Davina Jackson, 2016-12-01 Douglas Burrage Snelling 1916-85 was one of Britain's significant emigré architects and designers Born in Kent and educated in New Zealand he became one of Australia's leading mid century architects of luxury residences and commercial buildings and a trend setting designer of furniture interiors and landscapes This is the first comprehensive study of Snelling's pan Pacific life works and trans disciplinary significance It provides a critical examination of this controversial modernist revealing him to be a colourful and talented protagonist who led antipodean interpretations of American especially Wrightian and southern Californian architecture design and lifestyle innovations

The Routledge Companion to Twentieth and Early Twenty-First Century Urban Design Jon Lang, 2020-11-09 The Routledge Companion to Twentieth and Early Twenty First Century Urban Design is a fully illustrated descriptive and explanatory history of the development of urban design ideas and paradigms of the past 150 years The ideas and projects hypothetical and built range in scale from the city to the urban block level The focus is on where the generic ideas originated the projects that were designed following their precepts the functions they address and or afford and what we can learn from them The morphology of a city its built environment evolves unselfconsciously as private and governmental investors self consciously erect buildings and infrastructure in a pragmatic piecemeal manner to meet their own ends Philosophers novelists architects and social scientists have produced myriad ideas about the nature of the built

environment that they consider to be superior to those forms resulting from a laissez faire attitude to urban development Rationalist theorists dream of ideal futures based on assumptions about what is good empiricists draw inspirations from what they perceive to be working well in existing situations Both groups have presented their advocacies in manifestoes and often in the form of generic solutions or illustrative designs This book traces the history of these ideas and will become a standard reference for scholars and students interested in the history of urban spaces including architects planners urban historians urban geographers and urban morphologists Avery Index to Architectural Periodicals Avery Library,1963 150

Geoffrey London,Philip Goad,Conrad Hamann,2017 Architect designed houses of the period 1950 65 proposed an innovative response to the social economic and climatic conditions of post war Australia At the same time they embraced the aesthetic technological and egalitarian aspirations of modern architecture An Unfinished Experiment in Living traces the emergence of this architectural phenomenon in Australia documenting the full range of its expression from the postwar optimism of the early 1950s through to the affluence of the 1960s It is a catalogue of the most significant houses of the period It includes comprehensive plans and period photographs of 150 houses from around Australia dating from a time when the great Australian dream was the single family house This book puts forward new research founded on the premise that the most significant houses of the 1950s and 60s represent an unfinished and undervalued experiment in modern living Issues such as the open plan the changing nature of the family the embrace of advances in technology the use of the courtyard and the orientation of the house to capture sun and privacy were valuable and critical lessons This is a compelling reminder of their continuing relevance Subject Architecture Design Australian History Sociology
