Schwalm, 2023-02-03 African American women fought for their freedom with courage and vigor during and after the Civil War Leslie Schwalm explores the vital roles of enslaved and formerly enslaved women on the rice plantations of lowcountry South Carolina both in antebellum plantation life and in the wartime collapse of slavery From there she chronicles their efforts as freedwomen to recover from the impact of the war while redefining their lives and labor Freedwomen asserted their own ideas of what freedom meant and insisted on important changes in the work they performed both for white employers and in their own homes As Schwalm shows these women rejected the most unpleasant or demeaning tasks guarded the prerogatives they gained under the South's slave economy and defended their hard won freedoms against unwanted intervention by Northern whites and the efforts of former owners to restore slavery's social and economic relations during Reconstruction A bold challenge to entrenched notions *A Hard Fight for We* places African American women at the center of the South's transition from a slave society

Remodeling the Nation Duncan Faherty, 2007 In this interdisciplinary study Faherty argues that throughout the late eighteenth and early nineteenth centuries Americans conceptualized their still unsettled political and social states through metaphors of home building During this period a pervasive concern with the design and furnishing of houses helped writers to manage previous encounters with settlements both native and European and to imagine and remodel a new national ideal By aligning the period s architectural concerns registered in both the interior and exterior of houses with concurrent debates about the need to create a national identity in the wake of the American Revolution Faherty registers how representations of the house were a crucial locus for debating broadly shared concerns about the anxieties of nation building Topics include Abraham Lincoln s use of architectural motifs in his 1858 senatorial campaign the house divided against itself speech the arguments about domestic identity embodied in the designs of Mount Vernon and Monticello the lingering import of colonial and indigenous settlements on post revolutionary culture as registered in the work of William Bartram and Lewis and Clark Charles Brockden Brown s representations of the multivalent legacies of Pennsylvania s architectural landscapes Washington Irving s attempts to preserve and remodel national architectural and literary practices by underscoring the manufactured nature of European cultural production the shifting importance of the house and American attitudes toward nature in the work of three generations of the Cooper family and the gendering of domestic space in the work of Edgar Allen Poe Nathaniel Hawthorne and Herman Melville Richly informed by contemporary work in literary studies history art history and cultural criticism **Remodeling the Nation** ranges incisively across the work of political theorists social critics novelists poets natural historians landscape artists travel writers and authors of architectural and domestic treatises

The Invention of Terrorism in Europe, Russia, and the United States Carola Dietze,2021-07-20 Terrorism s roots in Western Europe and the USA This book examines key cases of terrorist violence to show that the invention of terrorism was linked to the birth of modernity in Europe Russia and the United States rather than to Tsarist despotism in 19th century Russia or to Islam sects in Medieval Persia Combining a highly readable historical narrative with analysis of larger issues in social and political history the author argues that the dissemination of news about terrorist violence was at the core of a strategy that aimed for political impact on rulers as well as the general public Dietze s lucid account also reveals how the spread of knowledge about terrorist acts was from the outset a transatlantic process Two incidents form the book s centerpiece The first is the failed attempt to assassinate French Emperor Napol on III by Felice Orsini in 1858 in an act intended to achieve Italian unity and democracy The second case study offers a new reading of John Brown s raid on the arsenal at Harpers Ferry in 1859 as a decisive moment in the abolitionist struggle and occurrences leading to the American Civil War Three further examples from Germany Russia and the US are scrutinized to trace the development of the tactic by first imitators With their acts of violence the invention of terrorism was completed Terrorism has existed as a tactic since then and has essentially only been adapted through the use of new technologies and methods

Why the Civil War Came Gabor S. Boritt, 1997-05-29 In the early morning of April 12 1861 Captain George S James ordered the bombardment of Fort Sumter beginning a war that would last four horrific years and claim a staggering number of lives Since that fateful day the debate over the causes of the American Civil War has never ceased What events were instrumental in bringing it about How did individuals and institutions function What did Northerners and Southerners believe in the decades of strife preceding the war What steps did they take to avoid war Indeed was the great armed conflict avoidable at all Why the Civil War Came brings a talented chorus of voices together to recapture the feel of a very different time and place helping the reader to grasp more fully the commencement of our bloodiest war From William W Freehling's discussion of the peculiarities of North American slavery to Charles Royster's disturbing piece on the combatants' savage readiness to fight the contributors bring to life the climate of a country on the brink of disaster Mark Summers for instance depicts the tragically jubilant first weeks of Northern recruitment when Americans on both sides were as yet unaware of the hellish slaughter that awaited them Glenna Matthews underscores the important war catalyzing role played by extraordinary public women who proved that neither side of the Mason Dixon line was as patriarchal as is thought David Blight reveals an African American world that knew what time it was and welcomed war And Gabor Boritt examines the struggle's central figure Lincoln himself illuminating in the years leading up to the war a blindness on the future president's part an unwillingness to confront the looming calamity that was about to smash the nation asunder William E Gienapp notes perhaps the most unsettling fact about the Civil War that democratic institutions could not resolve the slavery issue without resorting to violence on an epic scale With gripping detail Why the Civil War Came takes readers back to a country fraught with bitterness confusion and hatred a country ripe for a war of unprecedented bloodshed to show why democracy failed and violence reigned

Forged in Battle Joseph T. Glatthaar, 2000-03-01 Sixteen months after the start of the American Civil War the Federal government having vastly underestimated the length and manpower demands of the war began to recruit black soldiers This revolutionary policy gave 180 000 free blacks and former slaves the opportunity to prove themselves on the battlefield as part of the United States Colored Troops By the end of the war 37 000 in their ranks had given their lives for the cause of freedom In Forged in Battle originally published in 1990 award winning historian Joseph T Glatthaar recreates the events that gave these troops and their 7 000 white officers justifiable pride in their contributions to the Union victory and hope of equality in the years to come Unfortunately as Glatthaar poignantly demonstrates memory of the United States Colored Troops' heroic sacrifices soon faded behind the prejudice that would plague the armed forces for another century
