**Understanding and Reducing Persistent Poverty in Africa** Christopher B. Barrett,Peter Little,Michael Carter,2013-10-21 Prior work has shown that there is a significant amount of turnover amongst the African poor as households exit and enter poverty Some of this mobility can be attributed to regular movement back and forth in response to exogenous variability in climate prices health etc churning Other crossings of the poverty line reflect permanent shifts in long term well being associated with gains or losses of productive assets or permanent changes in asset productivity due for example to adoption of improved technologies or access to new higher value markets Distinguishing true structural mobility from simple churning is important because it clarifies the factors that facilitate such important structural change Conversely it also helps identify the constraints that may leave other households caught in a trap of persistent structural poverty The papers in this book help to distinguish the types of poverty and to deepen understanding of the structural features and constraints that create poverty traps Such an understanding allows communities local governments and donors to take proactive effective steps to combat persistent poverty in Africa This book was previously published as a special issue of the Journal of Development Studies     **Sociology** John E. Farley,Michael W. Flota,2017-10-02 This best selling textbook returns for a seventh edition with material on the most fundamental and fascinating issues in sociology today The authors continue their tradition of focusing on the big picture with an emphasis on race class and gender in every chapter The text continues to frame sociological debates around the major theoretical perspectives of sociology and focus on capturing students imaginations with cutting edge research and real world events The hallmark of the book continues to be clear writing that helps students understand the intricacies of the discipline like no other textbook on the market New to the seventh edition Expanded focus on new social movements such as Black Lives Matter Occupy Wall Street and the Tea Party Updates on both the 2012 and 2016 elections New discussions of Donald Trump and the immigration debate causes and consequences New discussions of patriot movements racism and the reaction to the first African American president Expanded coverage of sexual orientation and LGBT issues Updates on gay rights and the historic legalization of same sex marriage New sections on cyber life discussion issues such as cyber bullying and public shaming WikiLeaks Edward Snowden and NSA spying sexting and youth culture the Arab Spring and social media activism New coverage of the so called he cession and the rise of women

managers whom employers still see as risky but increasingly as highly talented Updates on health care reform five years on and the efforts to repeal and replace Obamacare Expanded coverage of mass shootings and the corresponding policy debates Expanded coverage and new focus on police involved shootings and gun control in the Deviance Crime and Social Control chapter New discussions of the sociology of finance including the role of financial derivatives in the 2008 global financial crisis New photos and updated figures and tables throughout the text     Basic Concepts in Family Therapy Linda Berg-Cross,2000 This new edition of Basic Concepts in Family Therapy features current research and added materials in each chapter For family therapists and students especially those challenged by child or adolescent problems in the family context this intelligent guide will assist you in handling specialized situations through newly added chapters on resiliency and poverty adoption chronic illness spirituality and religion and parenting strategies Basic Concepts in Family Therapy will help you bridge theories and techniques with problems you see everyday in society to offer improved and relevant services to clients     *Sex, Career and Family* Michael P. Fogarty,Rhona Rapoport,Robert N. Rapoport,2017-01-06 In this book first published in 1971 the authors show from first hand studies of family and working life and with evidence from many countries including the socialist societies of Eastern Europe the nature of the discrimination facing women in the professions and how various family and employment patterns might contribute to solving it Their point is not that some new stereotype should be substituted for traditional views of the role of husbands and wives different patterns fit different situations
