Johnstown Flood Of 1889 The Tragedy:

The Johnstown Flood of 1889 Paula Degen, Carl Degen, 2000 **Johnstown Flood of 1889** Rachel A. Koestler-Grack, 2008 On May 31 1889 the people of Johnstown Pennsylvania got the surprise of the century one that claimed the lives of more than 2 200 men women and children In the mountains that overlooked the booming coal and steel town the restless waters of Lake Conemaugh churned behind the South Fork Dam a hastily built earthen structure The soft rain that had been falling that afternoon took an angry turn filling the belly of Lake Conemaugh over capacity In a matter of hours the lake began spilling over the top and ultimately burst its earthen restraints Like a roaring hurricane 20 million tons of water cascaded down the Conemaugh Valley stripping the landscape raw and eating up any scrap of life in its path Lake Conemaugh's final destination was Johnstown where its effects are still felt by the people who live there The horrible tragedy of the Johnstown Flood quickly turned into one of the nation's hottest scandals and taught a powerful lesson to the people of the Conemaugh Valley P 4 of Cover *Johnstown's Flood of 1889* Neil M. Coleman, 2018-07-23 Science now reveals the true cause of the dam breach flood that destroyed Johnstown in 1889 The tragic loss of more than 2200 lives was preventable the initial investigation of the flood was hijacked delayed and distorted by powerful members of the industrial elite This book bridges the gap between history and science reexamining eyewitness accounts of the flood and historic documents about the investigation and applying new LiDAR GPS and hydraulic studies to solve the mystery what caused the Great Flood of 1889 The book includes a notable chapter on the sister of the South Fork Dam The Forgotten Dam at Hollidaysburg PA **The Johnstown Tragedy** Mark S Mirza, 2018-05 Join the angel Hael as he will tell you his story of an incredible tragedy the Johnstown Flood from 1889 More than 2 209 people died when a 40 foot wall of water destroyed Johnstown PA *The Johnstown Flood of 1889* Rachel Koestler-Grack, 2021 On May 31 1889 the people of Johnstown Pennsylvania got the surprise of the century one that claimed the lives of more than 2 200 men women and children Johnstown Flood David McCullough, 2007-05-31 The stunning story of one of America's great disasters a preventable tragedy of Gilded Age America brilliantly told by master historian David McCullough At the end of the nineteenth century Johnstown Pennsylvania was a booming coal and steel town filled with hardworking families striving for a piece of the nation's burgeoning industrial prosperity In the mountains above Johnstown an old earth dam had been hastily rebuilt to create a lake for an exclusive summer resort patronized by the tycoons of that same industrial prosperity among them Andrew Carnegie Henry Clay Frick and Andrew Mellon Despite repeated warnings of possible danger nothing was done about the dam Then came May 31 1889 when the dam burst sending a wall of water thundering down the mountain smashing through Johnstown and killing more than 2 000 people It was a tragedy that became a national scandal Graced by David McCullough's remarkable gift for writing richly textured sympathetic social history The Johnstown Flood is an absorbing classic portrait of life in nineteenth century America of overweening confidence of energy and of tragedy It also offers a powerful historical lesson for our century and all

times the danger of assuming that because people are in positions of responsibility they are necessarily behaving responsibly

that technology had advanced far enough to prevent such tragedies whether through advanced warning or engineering. However, the failure of human engineering like that seen in New Orleans was nothing new and it had previously had even deadlier consequences in Johnstown, Pennsylvania. Although floods rarely get as much coverage as other kinds of natural disasters like volcanic explosions, the Johnstown Flood of 1889 has remained an exception due to the sheer destruction and magnitude of the disaster. On May 31, 1889, Johnstown became a casualty of a combination of heavy rains and the failure of the South Fork Dam to stem the rising water levels of Lake Conemaugh, about 15 miles away. The dam's inability to contain the water and its subsequent collapse resulted in a catastrophic flood that swept through the town with virtually no warning. With water flowing at a rate equivalent to the Mississippi River, a tide of water and debris 60 feet high and traveling 40 miles per hour in some places surged through Johnstown and swept away people and property alike. The flood ultimately resulted in the deaths of over 2,000 people and destroyed thousands of buildings, wreaking damages estimated to be the equivalent of nearly half a billion dollars today. In 1889, the Johnstown Flood was the deadliest natural disaster in American history, and though it was later surpassed by other events, the unprecedented nature of the flood led to relief efforts never before seen, including by the Red Cross. The Johnstown Flood also led to a change in laws as people tried and failed to recoup damages caused by the collapse of the dam and the subsequent flood. The Johnstown Flood of 1889 chronicles the story of America's deadliest natural disaster during the 19th century. Along with pictures of important people, places, and events, you will learn about the Johnstown Flood like never before in no time at all.
