Johnstown Flood Of 1889:

Johnstown Flood of 1889 Rachel A. Koestler-Grack, 2008 On May 31 1889 the people of Johnstown Pennsylvania got the surprise of the century one that claimed the lives of more than 2 200 men women and children In the mountains that overlooked the booming coal and steel town the restless waters of Lake Conemaugh churned behind the South Fork Dam a hastily built earthen structure The soft rain that had been falling that afternoon took an angry turn filling the belly of Lake Conemaugh over capacity In a matter of hours the lake began spilling over the top and ultimately burst its earthen restraints Like a roaring hurricane 20 million tons of water cascaded down the Conemaugh Valley stripping the landscape raw and eating up any scrap of life in its path Lake Conemaugh s final destination was Johnstown where its effects are still felt by the people who live there The horrible tragedy of the Johnstown Flood quickly turned into one of the nation s hottest scandals and taught a powerful lesson to the people of the Conemaugh Valley P 4 of Cover **The Johnstown Flood** Herman Dieck, 2010-11 **The Johnstown Flood of 1889** Charles River Charles River Editors, 2018-02-19 Includes pictures Includes accounts of the flood written by survivors Includes a bibliography for further reading The deluge released by the dam s collapse carried more than 12 000 cubic meters of debris filled water each second Flow rates in the Mississippi River typically vary between 7 000 and 20 000 cubic meters per second Sid Perkins Science News Vol 176 In 2005 the world watched in horror as Hurricane Katrina decimated New Orleans and the calamity seemed all the worse because many felt that technology had advanced far enough to prevent such tragedies whether through advanced warning or engineering However the failure of human engineering like that seen in New Orleans was nothing new and it had previously had even deadlier consequences in Johnstown Pennsylvania Although floods rarely get as much coverage as other kinds of natural disasters like volcanic explosions the Johnstown Flood of 1889 has remained an exception due to the sheer destruction and magnitude of the disaster On May 31 1889 Johnstown became a casualty of a combination of heavy rains and the failure of the South Fork Dam to stem the rising water levels of Lake Conemaugh about 15 miles away The dam s inability to contain the water and its subsequent collapse resulted in a catastrophic flood that swept through the town with virtually no warning With water flowing at a rate equivalent to the Mississippi River a tide of water and debris 60 feet high and traveling 40 miles per hour in some places surged through Johnstown and swept away people and property alike The flood ultimately resulted in the deaths of over 2 000 people and destroyed thousands of buildings wreaking damages estimated to be the equivalent of nearly half a billion dollars today In 1889 the Johnstown Flood was the deadliest natural disaster in American history and though it was later surpassed by other events the unprecedented nature of the flood led to relief efforts never before seen including by the Red Cross The Johnstown Flood also led to a change in laws as people tried and failed to recoup damages caused by the collapse of the dam and the subsequent flood The Johnstown Flood of 1889 chronicles the story America s deadliest natural disaster during the 19th century Along with pictures of important people places and events you will learn

about the Johnstown Flood like never before in no time at all **The Johnstown Flood, 1889** Daniel Leathers,2020-02-04

With Full Accounts Also of the Destruction on* Willis Fletcher Johnson,2016-09-03 Willis Fletcher Johnson 1857 March 29 1931 was an author lecturer and for twenty years foreign and diplomatic editorial writer for The New York Tribune The Johnstown Flood locally the Great Flood of 1889 occurred on May 31 1889 after the catastrophic failure of the South Fork Dam on the Little Conemaugh River 14 miles 23 km upstream of the town of Johnstown Pennsylvania The dam broke after several days of extremely heavy rainfall unleashing 20 million tons of water 18 million cubic meters from the reservoir known as Lake Conemaugh With a volumetric flow rate that temporarily equalled that of the Mississippi River the flood killed 2 209 people and caused US 17 million of damage about 450 million in 2015 dollars The American Red Cross led by Clara Barton and with 50 volunteers undertook a major disaster relief effort Support for victims came from all over the United States and 18 foreign countries After the flood survivors suffered a series of legal defeats in their attempts to recover damages from the dam s owners Public indignation at that failure prompted the development in American law changing a fault based regime to strict liability History The village of Johnstown was founded in 1800 by the Swiss immigrant Joseph Johns anglicized from Schantz where the Stony Creek and Little Conemaugh rivers joined to form the Conemaugh River It began to prosper with the building of the Pennsylvania Main Line Canal in 1836 and the construction in the 1850s of the Pennsylvania Railroad and the Cambria Iron Works By 1889 Johnstown s industries had attracted numerous Welsh and German immigrants With a population of 30 000 it was a growing industrial community known for the quality of its steel The high steep hills of the

narrow Conemaugh Valley and the Allegheny Mountains range to the east kept development close to the riverfront areas The valley had large amounts of runoff from rain and snowfall The area surrounding Johnstown is prone to flooding due to its location on the rivers whose upstream watersheds include an extensive drainage basin of the Allegheny plateau Adding to these factors slag from the iron furnaces of the steel mills was dumped along the river to create more land for building 6 Developers artificial narrowing of the riverbed to maximize early industries left the city even more flood prone The Conemaugh River immediately downstream of Johnstown is hemmed in by steep mountainsides for about 10 miles 16 km Today a plaque at the scenic overlook on Pennsylvania Route 56 about 4 miles 6 km outside Johnstown cites this gorge as the deepest river gap in the United States east of the Rocky Mountains Valley of Disaster Bonnie Highsmith Taylor,2002 Eleven year old Ben finds himself in charge as record flood waters from a broken dam destroy the town of Johnstown

Johnstown Flood David McCullough,2007-05-31 The stunning story of one of America s great disasters a preventable tragedy of Gilded Age America brilliantly told by master historian David McCullough At the end of the nineteenth century Johnstown Pennsylvania was a booming coal and steel town filled with hardworking families striving for a piece of the nation s burgeoning industrial prosperity In the mountains above Johnstown an old earth dam had been hastily rebuilt to create a lake for an exclusive summer resort patronized by the tycoons of that same industrial prosperity among them Andrew Carnegie Henry Clay Frick and Andrew Mellon Despite repeated warnings of possible danger nothing was done about the dam Then came May 31 1889 when the dam burst sending a wall of water thundering down the mountain smashing through Johnstown and killing more than 2 000 people It was a tragedy that became a national scandal Graced by David McCullough s remarkable gift for writing richly textured sympathetic social history The Johnstown Flood is an absorbing classic portrait of life in nineteenth century America of overweening confidence of energy and of tragedy It also offers a powerful historical lesson for our century and all times the danger of assuming that because people are in positions of responsibility they are necessarily behaving responsibly Johnstown's Flood of 1889 Neil M. Coleman,2018-07-23 Science now reveals the true cause of the dam breach flood that destroyed Johnstown in 1889 The tragic loss of more than 2200 lives was preventable the initial investigation of the flood was hijacked delayed and distorted by powerful members of the industrial elite This book bridges the gap between history and science reexamining eyewitness accounts of the flood and historic documents about the investigation and applying new LiDAR GPS and hydraulic studies to solve the mystery what caused the Great Flood of 1889 The book includes a notable chapter on the sister of the South Fork Dam The Forgotten Dam at Hollidaysburg PA *Though the Mountains May Fall* T. William Evans,William T. Evans,2002-12-01 *Though The Mountains May Fall* chronicles Mary and James love against the backdrop of Johnstown Pennsylvania in the 1880 s Johnstown was a bustling community of hardworking people dedicated to the community and to each other Enter the rich people from Pittsburgh and other parts of Pennsylvania seeking a refuge from the stresses of the business life They establish a resort above Johnstown in the peaceful

mountains near the small village of South Fork Mary and James struggle to overcome these conflicts and be true to their love As their love rises to new heights so too does the peaceful lake they visit Too soon both come together in a climax as the dam breaks and the floodwaters rush towards Johnstown The reader is driven along with the flood towards its final reckoning Now all that awaits is destiny for Mary for James and for the people of Johnstown Pennsylvania on that fateful day of May 31 1889 The Johnstown Flood of 1889 Paula Degen,Carl Degen,2000 The Story of Johnstown John James McLaurin,1889 After exploring the early history of the settlement and industrialization of Johnstown the author presents in great detail the catastrophic flood that destroyed the town in 1889 and the aftermath of this disaster The Johnstown Flood of 1889 Josephine Shappee,1975 **The Johnstown Flood** Herman Dieck,1889 *Johnstown Flood* Mary Gow,2003 An account of the great Johnstown Pennsylvania flood of 1889 when a dam failed and over two thousand people died making this one of the worst peacetime disasters in the history of the United States The Johnstown Flood David G.
