much of his or her pleasure to art dealer Joseph Duveen 1869 1939 Regarded as the most influential or in some circles notorious dealer of the twentieth century Duveen established himself selling the European masterpieces of Titian Botticelli Giotto and Vermeer to newly and lavishly wealthy American businessmen J P Morgan John D Rockefeller and Andrew Mellon to name just a few It is no exaggeration to say that Duveen was the driving force behind every important private art collection in the United States The first major biography of Duveen in more than fifty years and the first to make use of his enormous archive only recently opened to the public Meryle Secrest's Duveen traces the rapid ascent of the tirelessly enterprising dealer from his humble beginnings running his father's business to knighthood and eventually peerage The eldest of eight sons of Jewish Dutch immigrants Duveen inherited an uncanny ability to spot a hidden treasure from his father proprietor of a prosperous antiques business After his father's death Duveen moved the company into the riskier but lucrative market of paintings and quickly became one of the world's leading art dealers The key to Duveen's success was his simple observation that while Europe had the art America had the money Duveen made his fortune by buying art from declining European aristocrats and selling them to the squillionaires in the United States By far the best account of Joseph Duveen's life in a biography that is rich in detail scrupulously researched and sympathetically written Secrest's inquiries into early twentieth century collecting whet our appetite for a more general history of the art market in the first half of the twentieth century John Brewer New York Review of Books

Sir Joshua Reynolds Richard Wendorf, 1998 Sir Joshua Reynolds explores the ways in which portrait painting is embedded in the social fabric of a given culture as well as in the social and professional transaction between the artist and his or her subject In addition to providing a new view of Reynolds Wendorf's book develops a thoroughly new way of interpreting portraiture
