Journey With A Remarkable Tree:

My Journey with a Remarkable Tree Ken Finn, 2005-02-01 A journey through Cambodia with the simple and romantic ambition to find the folkloric spirit trees the powerful connecting force between man and nature Ken Finn's travels turned out to be anything but simple Back wearing motos immobilizing gastric assaults unexpected road blocks and monkish processions all contributed to the journey but most dramatically instead of enriching forests destruction was found the black market timber trade A new voice was found as Ken followed the trees on their journey to the furniture factories of Vietnam and subsequently a house somewhere on the North Circular London The book chronicles his trip not just through Southeast Asia but the inner transition from traveler to activist It charts the unlocking of a conscience and the discovery of a new sensitivity and passion showing that it is not a major shift in behavior to save the destruction and corruption of the planet and that it is important to care

John Muir's Last Journey John Muir, 2013-04-10 I am now writing up some notes but when they will be ready for publication I do not know It will be a long time before anything is arranged in book form These words of John Muir written in June 1912 to a friend proved prophetic The journals and notes to which the great naturalist and environmental figure was referring have languished unpublished and virtually untouched for nearly a century Until now Here edited and published for the first time John Muir's travel journals from 1911-12 along with his associated correspondence finally allow us to read in his own words

the remarkable story of John Muir's last great journey Leaving from Brooklyn New York in August 1911 John Muir at the age of seventy three and traveling alone embarked on an eight month 40 000 mile voyage to South America and Africa The 1911 12 journals and correspondence reproduced in this volume allow us to travel with him up the great Amazon into the jungles of southern Brazil to snowline in the Andes through southern and central Africa to the headwaters of the Nile and across six oceans and seas in order to reach the rare forests he had so long wished to study Although this epic journey has received almost no attention from the many commentators on Muir's work Muir himself considered it among the most important of his life and the fulfillment of a decades long dream John Muir's Last Journey provides a rare glimpse of a Muir whose interests as a naturalist traveler and conservationist extended well beyond the mountains of California It also helps us to see John Muir as a different kind of hero one whose endurance and intellectual curiosity carried him into far fields of adventure even as he aged and as a private person and family man with genuine affections ambitions and fears not just an iconic representative of American wilderness With an introduction that sets Muir's trip in the context of his life and work along with chapter introductions and a wealth of explanatory notes the book adds important dimensions to our appreciation of one of America's greatest environmentalists John Muir's Last Journey is a must reading for students and scholars of environmental history American literature natural history and related fields as well as for naturalists and armchair travelers everywhere

McKirgan, 2022-08-11 We have a Choice Peace or Hell This collection of essays and poetry including the author's experience of the Great Rays offers reflections on choosing peace while living in a chaotic world This world is not always a nice place with mass killings wars starvation and death But happiness and inner peace are possible because it's a conscious choice nurtured and attended to carefully The world is dualistic with opposites good bad love fear and life death Consequently we inherited a dualistic split mind The ego part chooses judgment and separation It is NOT your friend being the opposite of love It manipulates gives only to get must always win is jealous judges everyone and everything making you fearful and unhappy Observing the ego is crucial for peace otherwise we don't realize the problem Question the thoughts that run on automatic They cover the light and innocence that you are with no promise of peace or freedom Help is available from the other part of your mind the higher Self After tiring of the pain and deciding to find another way with an open mind we go to the stately calm within Turning inward to quietness we ask for guidance from the Holy Spirit to see things differently Now open to the gentle inner voice we choose a different perspective We listen silently for the thought bringing wisdom and gradually removing the blocks to love shining within We can't do this with the ego We need Help from truth residing in the mind It is

simple life changing and it needs watchfulness and mind training These essays will help in realizing your true identity you are innocent eternal a Light in this world you are needed and the promise of peace is worth the effort A General History and Collection of Voyages and Travels Robert Kerr,1811 **A General History of Voyages and Travels to the End of the 18th Century** Robert Kerr,1811 *Sacred Geometry for Artists, Dreamers, and Philosophers* John Oscar Lieben,2018-08-28 An illustrated guide to harmonics the sacred geometry principles that underlie the natural world and its practical applications Demonstrates how the vesica piscis is a matrix from which ideas and forms emanate connecting cosmic time cycles measures of space and musical tones Provides harmonic analyses of ancient sculpture architecture the solar system the Earth Moon relationship and the structure of water and waves Explains how to apply sacred geometry to create building floor plans pottery figures gardens and sacred ceremonial spaces We are in the midst of a revival of an ancient way of looking at the world an approach that enabled great civilizations of the past to bring forth inventions of great beauty and power This school of thought harmonics envisioned the natural world and the solar system as an interlocking matrix of harmonious numbers perfectly woven into the creative fabric of life and the surrounding universe Exploring the art and science of harmonics John Oscar Lieben shows how to create harmonious forms using the ancient tools of number geometry and musical tone an approach that resonates with nature s own ways of creation He demonstrates many practical applications that result from the study of harmonics providing analyses of ancient sculpture and architecture as well as original examples of building floor plans pottery figures based on planetary proportions gardens based on harmonic principles and ceremonial spaces that honor cosmic harmonies and sacred geometric relationships Showing how harmonics can also be applied to the mysteries of time and space the author demonstrates how the vesica piscis and many other variations of the vesica shape reveal numerical synchronicities and correspondences that connect cosmic time cycles measures of space and musical tones The author applies harmonics and the vesica construction matrix to illustrate many of nature s wonders including the Earth Moon relationship the interactions of the Golden Number and the musical scale and how the Flower of Life symbol connects the universal field with the pattern of raindrops falling on a pond Offering an approach to sacred geometry that pairs the mystical with the practical the cosmic with the earthly the author reveals how the art and science of harmonics should be required study for both the artist and the seeker of eternal truths as well as the scientist who seeks an entrance into the sacred foundations of nature **A General History and Collection of Voyages and Travels, Arranged in Systematic Order** Robert Kerr,1811 Hessian John Donald A.
