Screening the Stage Bert Cardullo, 2006. This book examines the historical, cultural, and aesthetic relationships between theater and film. As we enter the 21st century, almost all artists, students, and critics working in theater will have had earlier and greater exposure to film than to theater. In fact, film has become central to the way in which we perceive and formulate stories, images, ideas, and sounds. At the same time, film and video occupy an increasingly significant place in theater study, both for the adaptation of plays and for the documentation and preservation of theatrical performances. Yet far too often, theater and film artists as well as educators make the jump from one medium to the other without being fully aware of the ways in which the qualities of each medium affect content and artistic expression. This book is intended to fill such a gap by providing a theoretical and practical foundation for understanding the effect that film and drama have had and continue to have on each other's development. Moreover, this study provides a history of the relationship between drama and cinema, starting with the pre-cinematic late 19th-century impulse towards capturing spectacular action on the stage and examining the artistic and commercial interaction between movies and plays, both in popular and experimental work throughout the 20th century. Important subjects treated in this book include stage versus screen acting, the adaptation process itself, the theatrical as well as the cinematic avant-garde, and the portability or adaptability of dramatic character.

Issues which start with and grow from the central problem of the relation of body to mind. The author's overriding aim has been to encourage clear critical independent thinking about the study of human movement among those with little or no background knowledge of formal philosophy. A frequent misconception among these newcomers to the discipline when applying philosophical insights to the study of human movement is a misconception about philosophy itself and what it can achieve. The first chapter therefore sets out to explain the character scope and contribution of modern philosophy. Subsequent chapters consider some of the major topics of interest which have arisen in the study of human movement in recent years. Ruth Asawa, Second Edition Timothy Anglin Burgard, Daniell Cornell, 2020-07-14 An expanded edition of the definitive book on Ruth Asawa's fascinating life and her lasting contributions to American art. The work of American artist Ruth Asawa (1926–2013) is brought into brilliant focus in this definitive book, originally published to accompany the first complete retrospective of Asawa's career organized by the Fine Arts Museums of San Francisco in 2006. This new edition features an expanded collection of essays and a detailed illustrated chronology that explore Asawa's fascinating life and her lasting contributions to American art. Beginning with her earliest works—drawings and paintings created in the 1940s while she was studying at Black Mountain College—this beautiful volume traces Asawa's flourishing career in San Francisco and her trajectory as a pioneering modernist sculptor who is recognized internationally for her innovative wire sculptures, public commissions, and activism on behalf of public arts education. Through her lifelong experimentations with wire, especially its capacity to balance open and closed forms, Asawa invented a powerful vocabulary that contributed a unique perspective to the field of twentieth-century abstract sculpture. Working in a variety of nontraditional media, Asawa performed a series of remarkable metamorphoses, leading viewers into a deeper awareness of natural forms by revealing their structural properties. Through her art, Asawa transfigured the commonplace into metaphors for life processes themselves. *The Sculpture of Ruth Asawa* establishes the importance of Asawa's work within a larger cultural context of artists who redefined art as a way of thinking and acting in the world rather than as merely a stylistic practice. This updated edition includes a new introduction and more than fifty new images, as well as original essays that reflect on the impact of American political history on Asawa's artistic vision, her experience with printmaking, and her friendship with photographer Imogen Cunningham. Contributors include Susan Ehrens, Mary Emma Harris, Karin Higa, Jacqueline Hoefer, Emily K. Doman, Jennings Paul, J. Karlstrom, John Kreidler, Susan Stauter, Colleen Terry, and Sally B. Woodbridge. Published in association with the Fine Arts Museums of San Francisco (FAMSF).
