patent law out of the EU legal and judicial orders and reduces the roles of the EU Parliament and Court of Justice Challenges are numerous in terms of complexity harmonization objectives legality business advantages and wider societal economic and legal concerns to name a few With twenty eight contributions from academics and practitioners this book starts with putting the new system into historical comparative and institutional contexts Part I before highlighting some issues under EU law and the perspective of EU integration Part II The institutional jurisdictional and procedural questions raised by the UPC are then addressed Part III as well as the innovation and markets issues Part IV The last contributions discuss possible improvements and alternatives to the Unitary Patent Package Part V
