

Journal of Clinical Psychology: In Session

Guide for Authors

We are pleased that you have agreed to prepare an article for publication in the *Journal of Clinical Psychology: In Session*. The Journal reaches approximately 4,000 libraries around the world; its impact factor across the past five years is 1.67. *JCLP: In Session* is also available on the Wiley-Blackwell electronic platforms. In fact, Wiley-Blackwell receives over 1 million visits per weekday and over 10 million full text accesses each month.

The *Journal of Clinical Psychology: In Session* is dedicated to assisting mental health practitioners in selecting and using the most effective assessments, therapies, and relationships. Each issue is devoted to a distinct patient population or a pressing therapeutic problem. The Journal promotes the integration of diverse treatments as well as the synthesis of science and practice. We look forward to working with you.

MANUSCRIPT PREPARATION

Format. Manuscripts should be word processed double-spaced with a 1" margin on all sides. Number all pages of the manuscript sequentially.

Style. Please follow the stylistic guidelines detailed in the *Publication Manual of the American Psychological Association, sixth edition*, available from the American Psychological Association, Washington, DC.

Length. Due to space constraints, we ask that you limit your manuscript to 6,000 words or less (approximately 25 double-spaced typewritten pages, including title page, abstract, references, and tables).

Avoid Theoretical Jargon. Although theory-based jargon provides a rich network of meaning when speaking with like-minded colleagues, it can serve to obfuscate meaning for those with differing theoretical backgrounds. When preparing your manuscript, please keep in mind that the *Journal of Clinical Psychology: In Session* addresses a broad professional audience with a variety of theoretical orientations.

Wherever possible, please translate your own orientation's language system into ordinary English. For example, "dynamic focus" may be reworded as referring to the patient's ongoing thematic interpersonal conflict; "genuineness" may be depicted as the therapist's open and honest expression of thoughts and feelings. It may be helpful to show a draft of your manuscript to a colleague from a different orientation, asking her to flag any terms or phrases that need "translation."

Reader-Friendly Style. The editorial team tries to make each issue as practical and reader-friendly as possible. We try to reduce what James Joyce called "the true scholastic stink" to bearable levels. For example, we do not publish footnotes, which tend to impede the flow of articles. Incorporate important content into the text; list acknowledgements and funding sources on the bottom of the title page. For another example, we highlight the central findings and clinical implications of a study, as opposed to highlighting the researcher's name. Whenever possible, place an author's names in parentheses. For a final example, we try to reduce the use of the word "issue," which is ambiguous and frequently vacuous.
